Strikes May Bring Wholesale Shut Down

Government's Emergency Coal Control Program Will Begin to Function Within 48 Hours

TO PREVENT PRICE RAISING

Government Control Plan to Apply to All Coal Produced, Says Hoover

Action Follows Rejection of Government's Offer of Arbitration

No Cars Will Be Allocated to Those Who Tried "To Rob the Public"

WASHINGTON, July 25.—The government's emergency coal control program will begin to function within 48 hours.

Secretary Hoover, in making this announcement today said ratification of the emergency plan for distribution and restriction of unfair prices by the operators' association, was expected within 48 hours, but if co-operation was withheld in any district, the government would proceed to appoint the necessary local committee.

The emergency coal control plan, Mr. Hoover stated, was intended to apply to all coal produced whether in the non-union or union fields and it was indicated that service orders by the interstate commerce commission, providing priorities in the allocation of coal cars, might be expected almost immediately.

As regards the coal strike itself.

TO PROBE THE COAL INDUSTRY

Borah Urges Creation of Coal Commission of Three Appointed by President

Would Ask Recommendations From Commission Regarding Nationalization

Also Feasibility of Governmental Regulation and Control of Coal Industry

WASHINGTON, July 25.—Creation of a federal coal commission of three members appointed by the president to investigate the coal industry and recommend legislation to congress, was proposed in a resolution introduced today by Chairman Borah, of the senate labor committee.

Recommendations would be required from the commission, "on the advisability or necessity of nationalization of the coal industry" and the feasibility or necessity of governmental regulation and control of the coal industry.

Other points on which recommendations are called for in the bill include: "Standardizing the mines upon the basis of their productive capacity and regarding the closing down of mines which by reason of their natural limitations fall below the standard."

STRIKES WILL CLOSE PLANTS

R. R. Strike, Combined With Coal Walkout, Being Brought Home to Public

Industrial Leaders Announce Shut Downs Imminent Unless Strike is Settled

Unemployment, Rationing of Fuel and Crippling of Public Utilities Near

CHICAGO, July 25.—(By the Associated Press.) The railroad strike combined with the coal strike, was being brought home to the public today through the announcements of leaders in several industries that unless a speedy settlement was reached, closing of the plants with resulting unemployment, rationing of fuel and food supplies, and a crippling of public utilities service would result.

Wholesale Shut Down Near

Steel plants, especially in the east, will be closed on a wholesale scale if present conditions continue until August, according to the head of a large steel corporation. Industrial coal was said to be unobtainable at any price in New York. In Chicago, increases from \$5.25 to \$15.25 a ton in coal prices were announced. A shortage of coal cars in bituminous fields has caused an appreciable decline in production.

The close relationship which the

ANOTHER VETO COMING

Mayor Will Not Approve

\$25,000 for Macadam or

\$50,000 for Fire Apparatus

Mayor Brown said this morning he will veto the \$25,000 loan authorized at the last meeting of the city council to be expended for macadam work, as well as disapproving the \$50,000 loan, also passed at that meeting, for the purchase of additional motor fire apparatus.

The mayor's stand in the macadam matter carries with it a few strands from the olive branch, however. It is not to be an absolute veto, such as he intends to put into the fire department loan, for he said that if the council would sustain his veto, he will favor an additional loan of \$25,000 at some future date for paving, which might be added to the \$50,000 loan for block paving which was authorized last Thursday night when the total amount of loans voted reached \$220,000.

In taking his stand on the macadam veto, the mayor says there is still \$25,000 unexpended for use in connection with this work and that it is difficult for him to see how it would be possible to spend the sum passed the other night in addition to the sum on hand.

CHICAGO, July 25.—One thousand cigar makers who have been on a "vacation" here since July 1 went back to work today after the manufacturers agreed not to reduce wages 10 per cent, and sign a new arbitration clause.

TO RECOGNIZE NEW R. R. UNIONS

Labor Board States Position on New R. R. Labor Unions Proposed by Carriers

Recognition Providing Union Can Prove Membership

Contains Majority at Work

CHICAGO, July 25.—(By the Associated Press.)—New railroad labor unions proposed by the carriers will be recognized by the railroad labor board whenever they come before that body with a dispute, providing they can prove that their membership contains a majority of the men then at work on the roads affected, board members said today.

At the labor board it was said that more than a score of telegrams from workmen who represented themselves as sponsors of the new unions had been received, asking what attitude the labor board would take.

Chairman J. P. Lorie of the eastern group carriers, recently announced that the roads in his territory would form new unions and was understood to have called a meeting of eastern railroad presidents today to discuss the plans.

Board members explained that under the transportation act they had no alternative in the matter. The act, it was explained, provides nothing which would justify the board in taking any action toward recognition until the unions in question officially appeared before the board in a plea for recognition and a dispute between them and the carriers.

The board then would investigate to find if the labor organizations appearing were properly organized and representative. The term "representative" was defined as meaning that the organization appearing was made up of a majority of the workers of the class then at work on the road implicated, regardless of how many men normally are employed or have been employed.

ATHLETIC FIELD DRIVE

Committee of Business Men to Seek Larger Subscriptions From Public

There is in the process of formation a representative committee of men, who will serve in connection with the campaign for funds for the erection of a high school athletic field and stadium.

This committee, to be composed of not more than seven or eight men who are prominent in the business life of the city, will form the nucleus of the entire organization, although their work will not at all interfere with the solicitations to be made by classes by class teams already formed.

Inasmuch as it will be necessary to secure at least \$20,000 to assure the success of the drive, a number of large contributions will be vitally necessary and this is the task set for this special committee. Individual contributions in the thousands are earnestly solicited, as well as undoubtedly there will be thousands of such, but the general campaign committee sees a need for larger gifts to give the drive the necessary stability and foundation.

When the city of Haverhill built its splendid stadium a few years ago, several thousand dollars were secured in large subscriptions, averaging about \$1000 each and in this way the campaign was given splendid impetus. Some similar idea is in the minds of the Lowell alumni committee and the committee of business men in the medium by which it is hoped to accomplish it.

Daily there appears in this paper a subscription blank, which may be filled in in any amount and forwarded to the campaign treasurer.

PLAN BIG MASS MEETING IN BILLERICA

The strike committee of the Boston & Maine carshops in Billerica are busy making arrangements for the big mass meeting to be conducted on the Kohlrausch playground in North Billerica tomorrow evening. The meeting will be held for the purpose of informing the residents of the town as to the real cause of the strike, and it is expected that a large gathering will be on hand.

The meeting will be presided over by Harry W. Chandler, a member of the press committee, and the principal speaker will be Robert Fechner of Boston, an officer of the International Association of Machinists. Other speakers will include officers of the federated crafts.

Blazon Reinstated As Assessor As Result of Decision Given Today By Supreme Justice Crosby

MAN ELECTROCUTED AT BAY STATE STORAGE & WAREHOUSE BUILDING

Henry Quebec of Crane's Avenue Killed While Doing Repair Work in Elevator Well—Is Believed to Have Come in Contact With Heavy Voltage Wire—Leaves Wife and Five Children

Henry Quebec, aged 36 years, residing at 3 Crane's avenue and employed as general repair man by the Bay State Storage and Warehouse Co. in the Burgess-Lang building in Middlesex and Jackson streets, was electrocuted this morning, when he came in contact with a live wire in the elevator shaft of the building. The body was found by Medical Examiner T. R. Smith and was later removed to the funeral parlors of Undertakers C. H. Molloy & Sons.

Shortly after 8 o'clock, Quebec went up in the elevator shaft to do some repair work and a few minutes later was found lying on the floor of the pen, life extinct. John Rodgers, the elevator man, discovered the body.

After viewing the body, Medical Examiner Smith stated he would determine the cause of death until after a thorough investigation but employees of the Lowell Electric Light Corp., who visited the premises later, found pieces of human skin in the switchbox of the elevator, which gave credence to the belief that he had been electrocuted.

Quebec leaves his wife, Mrs. Rose Quebec and five children, Rose, Dorothy, Elizabeth, Francis and Charles, also three brothers Charles of Brookline, George of Methuen, and a sister Mrs. Bert Robey of this city. He was an attendant of St. Patrick's church.

SAYS ONLY 500 WORKING TO HOLD EXAMINATION FOR POSTMASTERSHIP

Chairman Hanley Gives Figures on Help Now in Massachusetts Mills

The latest development in the strike at the Massachusetts mills is the transfer of a number of operatives from the Prescott plant of the company to the Massachusetts building, which took place this morning, according to John Hanley, chairman of the strike committee. Mr. Hanley states, that in his opinion the transfer was made to effect a concentration of help now working into one building.

Commenting on the number of hands working at the mill, Mr. Hanley said that instead of 1500, the total is nearer 500. "The mill is badly crippled and the payroll at the present time does not contain 500 names, and those who are working are doing so on a temporary basis," he said. "The going in and coming out of the operatives will corroborate my statement," said Mr. Hanley. "If Mr. Mitchell has as many operatives at work as he claims, he would not be forced to transfer his help from one mill to another."

Arrangements have been completed by the strikers for a mass meeting on the North common tomorrow evening at 7 o'clock. The gathering will be addressed by a man in the Greek tongue. Sunday evening at 7 o'clock another mass meeting will be held on the South common and the principal speaker will be John L. Campos of Fall River, who will address the Portuguese-speaking people in their own language.

The manager of the Kasino in Thorndike street has donated the free use of his dance hall to the strikers for every Thursday evening during the summer months. Dances will be conducted there for the benefit of those who are out of work, the first in the series to be conducted next Thursday evening.

STEAL \$5000 WORTH OF "SMOKES"

CHICAGO, July 25.—Eight men riding in a truck raided the offices of the Tarr Cigar Co. early today and escaped with \$5000 worth of cigars and cigarettes, after overpowering the guard and two passersby. A brick was thrown through a window of the building, releasing the burglar alarm before the thieves arrived. When they were up they gained admittance by telling the guard that they were policemen investigating the alarm.

WILL DRAW PAY FOR TIME LOST

Justice Rules That Election of Wilfred J. Achin Was Illegal

Says Council Had No Right to Designate Man Latter Was to Succeed

A writ of mandamus reinstating Albert J. Blazon to his former position as principal assessor of the city of Lowell will be issued by Justice Crosby of the supreme judicial court.

This announcement was made today by Justice Crosby at a session of the court held in Boston after reviewing arguments presented to him last week. He stated that if the city solicitor objected to his finding, he would bring the case to the attention of the full bench of the supreme court, but Mr. Tierney accepted the finding, stating that the mayor will send in the name of Wilfred J. Achin to succeed Mr. Blazon at the next meeting of the council, which will be on Aug. 17.

The granting of the writ means the reinstatement of Mr. Blazon to the board of assessors and also makes it allowable for him to draw his salary for the time that he has been out of office.

It will be remembered that several weeks ago Wilfred J. Achin's appointment to the board of assessors was sent to the city council by Mayor Brown, but the appointment did not state who Mr. Achin was to succeed.

The council in confirming the appointment designated him to succeed Mr. Blazon. The latter petitioned the supreme judicial court for a writ of mandamus to force the members of the city council, the mayor and members of the board of assessors to recognize him as an assessor on the ground that the election of Mr. Achin was illegal owing to the fact that the power of naming his successor was not vested in the city council, but in the mayor.

The case was first heard two weeks ago by Justice Crosby, who asked for prepared arguments. These were presented to him last Thursday and his decision rendered today.

City Solicitor Tierney and Melvin G. Rogers, the latter of the firm of Quinlan & Rogers, counsel for Mr. Blazon, appeared before Justice Crosby in Boston this morning and the judge announced that he would issue the writ of mandamus prayed for by Mr. Blazon, on the ground that the city council had no power to designate Mr. Blazon's successor, and that such power was vested in the mayor only. It is expected that the writ will be issued immediately.

EX-SEC. BAKER CALLED

Before Federal Grand Jury Investigating Alleged War Frauds

WASHINGTON, July 25.—Former Secretary of War, Baker was called today before the special federal grand jury investigating alleged war frauds in connection with the sale by the war department of the Old Hickory powder plant at Jackson, Tenn., to the Nashville Industrial Corporation. The plant was sold for \$3,000,000, and charges have been made in congress and elsewhere that this represented only one-fourth of its cost.

SHOCKED UPON HEARING OF DIVORCE

NEW HAVEN, Conn., July 25.—William Sergeant Kendall, until recently a report that Mrs. Kendall, who has been in Paris with her daughter several months, had secured a divorce from him in that city. Mr. Kendall yesterday said he not only was shocked at the report but failed to understand it. He had expected Mrs. Kendall to return home shortly. Mr. Kendall relinquished the office of dean in order to devote his entire time to painting.

BIG DISTILLERY FOUND

\$15,000 Worth of Liquor
Seized in Dorchester—
Three Men Arrested

BOSTON, July 25.—When Chris N. Lucas, 1332 Dorchester ave.; Emelio Neyri, 183 West Concord street, South End, and Archilles Snyder, 1882 Dorchester ave., were arrested yesterday by Patrolman McMurray of the Fields Corner police station, the Dorchester police nipped what they believe to be the plot for the establishment of a wholesale illegal liquor business.

Lucas was driving a large automobile truck through Park street. Near Dorchester ave. it stalled, as Officer McMurray was following it, debating with himself as to just what his procedure should be to find out the contents of the truck. He was sure it was liquor, because he had trailed Lucas for several days, and furthermore, he got a whiff of the contents as he spoke to the driver.

Sergeant John J. Lorden, who had detailed McMurray to watch Lucas, also conveniently happened along. A signal from McMurray sent the sergeant in a hurry to the Dorchester court for a search warrant. McMurray engaged the driver of the truck in conversation. Sergeant Lorden returned with the necessary paper and uncovered on the strength of it 520 gallons of alcohol, said to be 195 proof, in one-gallon containers neatly packed in large cartons.

The three men and the outfit were taken to Station 11. The goods were stored away in the station house and the defendants arraigned in the Dorchester court charged with keeping and exposing liquor for sale. Each was fined \$75 by Judge Merritt. Lucas was taken to the station after the trial and the other two released.

As a result of conversation with Lucas, Sergeant Lorden secured a search warrant and raided a barn in the rear of 223 Freepoint street, near Glover's Corner. The raid produced 47 5-gallon containers, six 1-gallon cans all filled with alcohol, and eight cases, each containing six dozen pint bottles of alcohol. Two 500-gallon stills, 350 empty brand new tin containers, one up-to-date hydrometer, funnels, but-ten galons, corks and other paraphernalia used in the manufacture of liquor were also taken.

The value of the liquor is estimated at \$15,000. Sergeant Lorden was assisted in the raid by Edgar P. Palmer, Officers McMurray, Kennedy, Fenderson and Maher. It required four trips of the wagon to convey the stuff to the station and a large crowd collected to watch proceedings.

The barn had been elaborately fitted up. The stills rested on massive gas stoves that had been connected with the street pipes of the gas company, illegally. It is alleged, and water was being supplied by an illegal connection with the water pipes in the street, it is also alleged by the police.

Lucas, when arrested, refused to say anything about what he had on the truck. When asked where he was going with the load, Lucas said he was delivering it to a strange man on State street.

Radiographs

If You Cannot Erect Aerial on the
Roof, Use Mother's Clothesline

If you live in an apartment house and the landlord won't permit you to put up an aerial, here's a way to fool him.

Buy a clothesline aerial! It's a string of antenna wire camouflaged as a clothesline. But it is just as useful to mother for hanging out the wash as it can be to you for receiving radio messages.

Every radio enthusiast knows that antenna wires need not be bare to catch the high frequency waves. These electric oscillations will enter the wire even through an insulation. So the cord around the antenna of the clothes line type is no hindrance to the reception of radio messages.

All that is needed is to attach a lead-in from the clothesline to the receiving set. The lead-in, also, may be part of the camouflaged clothesline.

The picture shows how this is done. In this case, Daniel Callahan and Joseph Karly, young radio fans of New York, fooled their landlord by the clothesline method.

RADIO SUGGESTIONS

How to Test Efficiency of
Super-Regenerative Re-
ceiver

BY PAUL F. GODLEY
America's Foremost Radio Authority
(This is the last of a series of
articles on the Armstrong super-
regenerative receiver.)

If there is any difficulty in putting the super-regenerative receiver into operation, test each of the vacuum tubes separately.

With one of these working, place the telephone receiver in the plate circuit of the tube until you are satisfied that it is operating properly.

Using the telephone in the circuit of any of the tubes will not affect the operation of the circuit, if the phones are at all times shunted by a by-pass condenser.

For example, placing the telephone in the plate circuit of the oscillating tube will enable one to ascertain whether the radio frequency oscillations are present.

If they are not, something is wrong. Either the tube is not oscillating, or, if it is, the frequency of oscillations is too high to be heard and full amplification cannot be derived from the circuits as a whole.

Oscillations
In determining whether a circuit is oscillating it is only necessary to touch its grid terminals. If a "click" is heard in the telephone, both when the finger touches and when it is removed from the grid terminal, there are oscillations.

The degree of coupling between the grid and the wing (plate) circuits of the regenerative tube will have to be much greater for super-regenerative operation than for oscillatory indication when the tube is operating alone.

With some makes of tubes, this coupling will have to be somewhat closer than that provided with the coil and variometer arrangement shown previously.

To accomplish this, the variometer may either be revolved so that it carries 80 per cent. more turns, or the tube which supports the grid circuit winding may be sufficiently large to slip over the variometer half way.

Electrolyte—A salt or acid solution that conducts electricity. The solution in the filament storage battery is an electrolyte.

B. & M. OFFICIALS HUNT MISSING CAR OF OIL

BOSTON, July 25.—Officials of the Boston & Maine railroad would like to know the present whereabouts of a freight car, loaded with thousands of gallons of fuel oil, which was shipped by a Boston oil merchant, and, under normal conditions, should have arrived in Portland, Me., on or about July 15. It is the first real mystery encountered by the company since the shopmen's strike began three weeks ago, but the officials do not, for one minute, suspect that the car had been stolen or ditched.

When it was reported from Portland that the carload of oil had not put in its appearance, ten days ago, terminal officials presumed a slight unforeseen delay had occurred. Days passed, however, and still the oil did not arrive, with the result that a road search was begun. Manifests and way bills were examined, to no purpose; that freight car had just plumb disappeared.

Officials are now inclined to think it may have been part of the freight train which was wrecked near Scarborough beach three weeks ago, and a look-up of the wreckage will be made.

"The car will turn up eventually," one of the terminal officials declared optimistically. "It is probably lying on some siding, way off the main line, and when it is finally discovered, it will be found that it had been derailed by a special delivery letter."

BULGARIA ORDERED TO MAKE PAYMENT

SOFIA, July 25. (By the Associated Press).—The allied reparations commission has ordered Bulgaria to pay immediately four billion levas (normally \$7,720,000) due to the allies under the terms of the peace treaty. The demand has profoundly impressed the Bulgarian government which, through Minister of Finance Tourkoff, has asked the opposition party to sustain the government in opposition to what it terms the commission's exaggerated demand. The government claims that Bulgaria is unable to pay the sum and is unwilling to abandon her customs commission, although expressing a willingness to pay within her capacity.

HOPE TO FINISH BRIDGE JOB SOON

Officials of the R. B. Ruel Construction Co. expect to complete their work on the Central street bridge by the end of the present week, weather permitting. The road work is practically finished, and the sidewalks on the down-stream side are now being placed in position. The only drawback is the absence of a good warm, dry day which will permit the use of hot pitch or tar used as binder for wood block paving.

AIRPLANE GUIDES POSSE IN BANDIT HUNT

TWIN FALLS, Idaho, July 25.—An airplane took off today to guide an armed posse in search of two bandits, who yesterday held up the Oakley-Vibont stage, 35 miles southeast of Twin Falls. The robbers lined up the two passengers and the driver and after an examination of the contents of the vehicle, disappeared. The mail sack contained pay checks for the Vibont mine, but these were untouched. It has been customary to send about \$3000 in currency with which to cash the payroll checks.

FELL 30 FEET TO WATERY GRAVE

ATTLEBORO, July 25.—Lester Hojablom, 14-year-old son of Mr. and Mrs. Albert Hojablom of Read street, was drowned in the Ten-Mile river near the Hebronville mill yesterday when he fell 30 feet from a bank at a spot known as The Well. Hojablom, who could not swim, was bathing with Marie and Henry Vandilla, 8 and 9. He left the swimming hole and ran along the bank, playing hide and seek. The Vandilla boys saw him slip and fall into the water. When he failed to come up the frightened boys ran to Hebronville mill, a half-mile away and told their story. He notified the firemen, who hurried to the river with the pulmotor, but the body could not be located.

Freeman Joseph Mowry dived eight times into the water, and was nearly drowned himself by whirlpools. Finally three boats went down and the body was dragged with grappling irons for four hours when the body was found about 100 yards from where the boy fell. One hundred persons attending under the direction of Fire Chief Fred A. Clark and Police Lieut. Terence E. Phelan searched the river with pikes and irons. Hojablom attended the Dank Street school. His father is caretaker at the city filter beds.

MAKE MORE USE OF SPARE TIRES

"It is a good thing to go to the trouble of using your spare tires a day or two at least once a month," is the advice of Chester Morton of the Morton Supply Co., dealer in United States tires. "You are informed that the highest authorities on rubber state that for some unknown reason rubber remains durable much longer if it is used occasionally than if it remains unused month after month. When a tire doesn't get any use a deterioration sets in which proceeds much less rapidly if occasionally it gets a chance to have all its particles stirred up by being used a day or two."

"Speaking of spares, it might be well to reiterate the fact that spares will last better if they are covered up so that the bright sunlight does not strike them."

FRENCH BICYCLE CHAMP INJURED

NEW BEDFORD, July 25.—George Seres, the motor-paced champion of France, was badly injured in an accident during a race at the cyclorome here last night. Seres fell while closely pressed by George Chapman and the driver of the motorcycle pacing Chapman had no chance to change his course. The heavy machine passed over Seres' body, bounding into the air and turning over. Chapman's wheel also struck the fallen rider, Chapman doing a somersault and landing on the motorcycle.

Seres was removed to the hospital suffering from four broken ribs and it is feared one of his lungs is punctured. Chapman, who was pacing Chapman had two ribs and his left collarbone fractured. Chapman was knocked unconscious, but escaped with minor injuries.

LOWELL MAN PAYS \$5

One of 17 persons arrested by Methuen police on Sunday for alleged speeding in motor cars, was Robert Souter of Lowell. All those apprehended appeared in Methuen court yesterday and paid either \$5 or \$10 fines.

ROLAND BOYDEN HOME

Beverly Man Back From Europe—Will Report on Reparations in Washington

BEVERLY, July 25.—Roland W. Boyden, who for more than two years has been in Europe as United States unofficial adviser in connection with the work of the reparations commission, returned home to Beverly yesterday from his summer home at Tamworth, N. H. Mr. Boyden arrived in New York last Friday from abroad and went directly to his summer home. He is to go to Washington, where he will make his report on the European situation to President Harding and other officials.

There are many points in connection with the proposed moratorium for Germany, the proposals of the allies regarding canceling their debts among themselves, the amount of reparations and other matters which have interest to the United States and affect the general world situation. After his visit to Washington, where Mr. Boyden will present first-hand information to the government, he may have a short stay in this country and later return to Europe. Mr. Boyden is looking in splendid form. He has had experiences which have fallen to no other American in years, and his work has won the highest commendation from the government as well as appreciation from the official representatives of the countries whose future is at stake and depend largely upon the settlement of the reparations and involved problems. Mr. Boyden was warmly welcomed by his many friends and was pleased to arrive at his home city again.

12,000 COAL MINERS TO STRIKE IN NOVA SCOTIA

SYDNEY, N. S., July 25.—An immediate general strike of the 12,000 coal miners of Nova Scotia threatens this afternoon. Shippers and traders at international level, Sydney, whose grievance threatened to precipitate a walk-out, have decided to remain at work until 4 p. m. today, pending further negotiations with the British Empire Steel corporation. August 15 was named tentatively by executive officers of District 26, further negotiations with the miners for the date for a Nova Scotia miners' strike if 1021 rates of pay were not resumed.

A strike of the trimmers would tie up the output of practically the entire output of coal from the Cape Breton county mines.

BIDS ON POSTOFFICE JOB REJECTED

Congressman John Jacob Rogers has received word from the treasury department that all bids for the alterations at the Lowell postoffice have been rejected. These bids were received at Washington on July 14. Under the appropriation act which provides funds for alterations to public buildings there is an amendment that no more than \$20,000 can be expended on any particular building. The lowest of the bids received for the Lowell postoffice was far over \$25,000 and as a consequence their rejection followed. The plans and specifications will be revised, the non-essentials eliminated and new bids called for so that the work can be done within the specified \$20,000 limit.

RIVAL ITALIAN PARTIES CLASH

ROME, July 25. (By the Associated Press).—Word from the treasury department that all bids for the alterations at the Lowell postoffice have been rejected. These bids were received at Washington on July 14. Under the appropriation act which provides funds for alterations to public buildings there is an amendment that no more than \$20,000 can be expended on any particular building. The lowest of the bids received for the Lowell postoffice was far over \$25,000 and as a consequence their rejection followed. The plans and specifications will be revised, the non-essentials eliminated and new bids called for so that the work can be done within the specified \$20,000 limit.

M'MAHON DEATH CASE

Medical Examiner Has Not Yet Filed Report of Results of Autopsy

SALEM, July 25.—Medical Examiner Frank S. Atwood has not as yet filed his formal report of the results of the autopsy on the McMahon boy, found with crushed skull in the pasture of Highland avenue. He expects to complete and file the report within a few days with the district attorney. A copy will also be sent to Judge George B. Sears at district court, who will order an inquest, on which a report of the character of the crime will be made, that is, murder or otherwise. Nothing new has developed in the case, although the police say they are in possession of some information that may develop within a few days.

MEMBERS OF POLO TEAM NAMED

BOSTON, July 25.—Members of the polo team which will represent the consolidated forces of Boston polo clubs in the national junior championship at the Point Judith Polo club, Rhode Island, were announced today by the committee empowered to make the selection. They will line up as follows: N. W. Rice, No. 1; A. C. Burrage, Jr., No. 2; Fred H. Prince, Jr., No. 3, and Captain J. Dudley Clark, back. The team totals 18 goals in handicap. The team was formed when the local clubs concluded that singly they were unable to present teams which would bid strongly for the national junior title. The committee, selecting the players for the consolidated team is Allen Forbes, Philip W. Wrenn, C. G. Rice and Dudley P. Rogers, all veteran poloists of this section. The national junior series opens at Point Judith Aug. 9.

"SHINE" SEVEN FEET UNDER CELLAR

WESTFIELD, July 25.—Wladyslaw Konopka of 14 Hanover street was fined \$100 in district court yesterday for keeping and exposing liquor for sale and was given a suspended sentence of three months in the house of correction. The police found three and one-half gallons of moonshine in the Konopka home, on a third visit there. The raiding party excavated for seven feet under a cellar wall in the home before locating the moonshine.

CAPPER CHARGES SISAL MONOPOLY

WASHINGTON, July 25.—Sherman Anti-Trust law prosecution of alleged American-Mexican monopoly of sisal used in making binding twine was asked of Atty. Gen. Daugherty in a formal complaint filed yesterday by Senator Capper, republican of Kansas, chairman of the senate agricultural bloc. The Sisal Sales corporation and its New York agents, Banton & Orth, and the Comstock Exportadora de Yucatan, Mex., were named by Senator Capper in his complaint. The former was alleged to be the American selling organization and the latter charged with being in control of the Mexican sisal production.

Senator Capper, assisted by complaints of Kansas officials operating a binding twine factory, cited a provision in the Sherman Anti-trust law, called to his attention by Secretary Wallace of the department of agriculture, under which anti-trust proceedings would lie, it was alleged, against interests conspiring to increase selling prices of foreign products in America. The Kansas senator charged that the two organizations named constituted "a monopoly operating in the United States."

MAJ. BLAKE'S AIRPLANE CRASHED AT SIBI

LONDON, July 25 (by the Associated Press).—The airplane in which Major W. T. Blake, British aviator, is attempting a round-the-world flight from England, crashed at Sibi, British Baluchistan, near Quetta, Saturday, says an Exchange Telegraph dispatch this morning from Karachi today. The aviator himself received no injuries, but the undercarriage of his machine was smashed. Air force mechanics have been sent from Karachi to construct a new undercarriage. Sibi is 380 miles from Karachi, and continuation of the flight, which Major Blake began from Crofton, May 24, probably will be delayed a week.

ANNUAL OUTING TOMORROW

The Sunday school class of the Tewksbury Congregational church will hold its annual outing at Canobie lake tomorrow. A special car will leave Tewksbury Centre at 9:55, and the return from the lake will be made about 6:45 in the evening. The affair is in charge of Mr. Marshall.

Stop Washing Clothes By Hand!

Join the Great
Lowell Army of

Thor

Users

and end your Washday Troubles FOREVER

Many hundreds of Lowell housewives—many of them your good neighbors—after careful consideration of the washing problem and the means at hand, have arrived at a successful solution by installing a THOR Electric Washer.

The popularity of the THOR Electric Washer, with electrically operated swinging wringer attached is increasing daily by great leaps and bounds. There are more washers of this make in use in Lowell today than all other kinds combined, and this condition is reflected practically all over the country. The reason is obvious.

Telephone 821 today and let us show you in your own home how the THOR does all the hard work of washing and wringing. If you decide to keep it you pay only a small sum down and the rest in easy monthly installments.

Ethelind Terry, Musical Revue Star, Tells Secret For Having Beautiful Teeth

BY ETHELIND TERRY
Star of "The Music Box Revue,"
Whose Perfect Teeth Are
Celebrated.

Why teeth leave home is a question being thoroughly investigated these days.

More than ever before, we are interested in keeping our teeth with us to the end and in making them comfortable and happy in their surroundings.

This, because we know that aside from being unsightly and causing us pain, bad teeth are the cause of many diseases.

The entire beauty of the mouth depends on the teeth.

You may have a Cupid's bow or rosebud lips, but if you can't part them in the middle and reveal nice white teeth you can't call your mouth your beautiful feature.

A reliable dentist is your first aid. He should examine your teeth twice a year and see that all the cavities are promptly filled, and that the gums are in a healthy condition.

But the daily care, what really counts, is up to you.

Remember to include in your diet a little coarse bread and some foods that require chewing. Then chew. That gives the molars a little healthy exercise and keeps them strong and fit.

Have a session night and morning with the tooth brush, and remember the scientific way to go about this is the up-and-down method instead of the cross-country route. This enables the bristles to pass between the teeth.

After each meal, when you are alone, use dental floss to remove any particles of food that may have found a temporary lodging place in a molar. Left to its own devices, it may gather about it a few germs and start a little decay party.

"Our floors are more than clean"

"Some housekeepers think that thorough and frequent scrubbing is all that floors ever need. I had that idea, too, before I realized that average soaps and scouring compounds haven't any effect on germs which get into floor cracks and crannies.

"Sarah Marsh enlightened me. She popped in one Friday morning while I was mopping up the mud the Harrigan boy always brings into the kitchen when he delivers the meat. I don't believe he knows a door mat when he sees one right under his nose.

"Sarah watched me fill a fresh pail of scouring suds. 'Goodness gracious, Ethel!' she exclaimed, 'Why don't you use Sylpho-Nathol in your mop-water? How do you expect to destroy the germs in the dirt that's brought in from the street on people's shoes? Did you ever stop to think of the positive danger that is tracked back and forth across your floors from morning until night?'

"That's how I was introduced to Sylpho-Nathol.

"Sylpho-Nathol is an effective safeguard against germs because it is 4½ times stronger than carbolic acid. But it doesn't hurt your hands a bit, nor injure things. The druggist says it is as safe to have in the house as a cake of scouring soap. Just a tablespoonful in a pail of warm water makes a clean-smelling, pearly-gray solution that's ready for immediate use."

Mop-water is just one of the many things for which Sylpho-Nathol is indispensable. It should be used regularly for sink drains and garbage receptacles; for cellar corners; around the bathroom tiling and fixtures; as a flush for the closet bowl—wherever odors may start or disease germs breed. Sylpho-Nathol comes in four handy sizes, 15c, 35c, 65c, \$1.25. Most good grocers and druggists have it. If yours hasn't, he can get it easily. Just ask for it by the name—"Sylpho-Nathol."

SCORES GEN. SAWYER

Col. Sprague Accuses Harding's Physician Blocking Proper Care of Soldiers

CHICAGO, July 25. (By the Associated Press.)—Col. A. A. Sprague, chairman of the American Legion's national rehabilitation committee, in a letter to Brig. Gen. Charles E. Sawyer, personal physician to President Harding and chief co-ordinator of the federal board of hospitalization, made public today charges that Gen. Sawyer is standing in the way of proper care for wounded and shell shocked veterans and holding up hospital plans voted by congress.

Appealing to Gen. Sawyer to "stand aside," Col. Sprague said more than 1000 mental cases still are confined in contract institutions and that of the remaining 1716 victims of mental disorders only 3600 are in government institutions devoted entirely to their care.

FERGUSON LEADS SEN. CULBERSON BY 16,000

DALLAS, Tex., July 25.—Leading Senator Charles A. Culbertson by more than 16,000 votes on the face of latest returns from state-wide democratic primary, James E. Ferguson, former governor, seemed assured of being in the run-off Aug. 25, with Earle Mayfield, who now holds first place in the senatorial contest by a margin of nearly 26,000 votes. Mayfield, who has served as state railroad commissioner for a number of years, was generally regarded as having the support of the Ku Klux Klan, although he did not make the Klan an issue in his campaign. Ferguson and Culbertson opposed the Klan.

Governor Pat M. Neff has been nominated for re-election over three other candidates and will not participate in the event of his nomination. He ignored the Ku Klux Klan question in his campaign, but was considered to have had the support of the Klan.

Congressman Thomas E. Blanton, who has been a conspicuous figure in the lower house since his election in 1916, has a lead of 12,000 votes over his nearest opponent and his re-election seems assured.

Mrs. Edith Wilkins, candidate for the state house of representatives from the Dallas district, maintained her lead over John E. Davidson, the republican, in the runoff election. She would be the first woman to sit in the Texas legislature.

PURCHASING POWER OF FARM PRODUCTS SLUMP

WASHINGTON, July 25.—The purchasing power, or exchange value of farm products slumped four points between March and June, to 72 per cent of the 1914 basis in the latter month, according to statistics made public today by the department of agriculture. The buying power of farm products in terms of other products stood at 76 per cent in March, having advanced from 65 per cent in January, which was a rise of three points over the low mark touched in November, 1921.

From December to March, the statistics disclosed, the output of farms increased in price more rapidly than did commodities the farmers needed to buy, the percentage climbing to 71 by February and five points higher by March. Since that time, however, price movements have been reversed, farm products gaining in less degree than those things required by the farmer, though more gradually than the preceding movement, the index dropping one point for April, two for May and one for June.

GOOD TEMPLARS ELECT OFFICERS

BUTTE, Mont., July 25.—Officers were elected yesterday at the annual convention of the Grand Lodge, Independent Order of Good Templars, which included: Chief templar, Rev. Ed. W. C. Dinwiddie, Washington, D. C.; counselor, Harry E. Wellman, New York; superintendent of juvenile work, Mrs. E. J. Chandler of New Hampshire; secretary, Willard O. Wylie, Massachusetts; treasurer, Albert Sutcliffe, Massachusetts; past chief templar, Dr. C. A. Carlson, Ohio; superintendent of temperance education, Miss Laura R. Church, Washington, D. C.; chaplain, Harvey Penberthy, Washington; marshal, C. Wilmer King, Delaware.

Coolidge and Davis to Speak

WELLESLEY, July 25.—Vice President Calvin Coolidge and Secretary of Labor Davis are expected here next week to address the ninth annual Wellesley Industrial conference, it was announced today. The meeting will be attended by leading business men of the country. Mr. Coolidge is scheduled to speak on Aug. 2, and Secretary Davis on Aug. 5.

2120 AUTOS RECOVERED

2733 Persons Arrested for Interstate Traffic in Stolen Motor Cars

CHICAGO, July 25.—Motor cars numbering 2120, valued at more than \$2,500,000, have been recovered by the bureau of investigation United States department of justice, and 2733 persons have been arrested on charges of interstate traffic in stolen motor vehicles since the passage of the Dyer anti-theft automobile law, figures issued today by the American Automobile association show.

VILLAGE TERRORIZED BY MOONSHINERS

MINNEAPOLIS, Minn., July 25.—Terrorized they said by moonshiners overrunning the district, citizens of Kinsale, 40 miles south of Duluth, today appealed to state and federal authorities for aid, declaring their village had become the centre of organized liquor dealings, extending throughout Minnesota. Citizens told Governor Pressis of a raid last winter when 12 armed men rode through one street, shooting out windows and firing at people in the streets. They never were captured. Later there were wild dances and liquor orgies with fights constantly occurring.

INVITED REPORTERS TO "SEE REAL SUICIDE"

NEW YORK, July 25.—After writing several notes to newspapers requesting that someone be sent "to see a real suicide" and another to a relative to have his body cremated and the "ashes sent to the head of the brokerage firm where he did his trading to fertilize his lawn," a middle-aged, well-dressed man jumped from a ferryboat in the Hudson river early today, and was drowned. Other messages, which he left in his hat, carefully placed on the deck before he climbed to the rail to jump overboard, stated that he had lost all his savings speculating in stocks. The body was not recovered.

EXERT EVERY EFFORT TO REOPEN MINES

COKEBURG, Pa., July 25. (By the Associated Press.)—While state militiamen with regimental headquarters here are preserving order in the Pigeon Creek valley mine district, operators are exerting every effort to reopen their mines with non-union workers. Thus far, the efforts of the operators to obtain open shop workmen in sufficient numbers to turn out coal in large quantities have been unsuccessful.

UNUSUAL DEATH RESULTS IN SUIT

MANCHESTER, N. H., July 25.—James E. Donahue, a Manchester attorney, was given instructions yesterday to bring suit against the parties responsible for the condition of the highway at York Beach, Me., which, it is alleged, caused the death of Mrs. K. T. Raphael of Lawrence. Mrs. Raphael was riding in a sedan, and in passing over a culvert, it is claimed that the jounce was such that she was lifted upward against the top of the car with the result that her neck was broken.

Vacancy in Lawrence Postoffice

LAWRENCE, July 25.—There is a vacancy in the Lawrence postoffice. The pampered, sleek office cat recently officially appointed by the employees, today is again out/in the cold, unfeeling world. During the night the cat, making her rounds, was attracted by the smell of parcel post chicken. In the morning the package was found open and the several day old chicks were missing. The cat was convicted on circumstantial evidence.

Two Held in Connection With Drowning

PITTSBURGH, July 25.—Two men were in jail here today in connection with the drowning of William G. Githens, who died while attempting to free himself under water from thongs which bound his hands and feet. Two companions to whom he had boasted of his ability to escape from knotted cords, tied Githens at his request, police said, and dropped him into the river. He rose to the surface screaming and attracted nearby bathers. They were too late to resuscitate him.

Was With Missing Boy For Four Days

PAWTUCKET, R. I., July 25.—Howard Bentley of 17 Miller street, this city, told the Pawtucket police that he was with James M. Cox, the missing Danvers, Mass., boy from July 3 to July 7. Bentley, who is 19 years of age, was on a bicycle trip, and met young Cox, also on a bicycle, in Concord, N. H. The lads parted in Bloomfield, Vt., when young Cox said he was going to Ogdensburg, N. Y., to visit his grandparents.

With Fresh Fruit

SERVE Jersey Ice Cream frequently with fresh fruits as they come in season—on a heaping dish of Jersey, or a generous slice from a "Tripl-Seal" brick of vanilla cream. Crush a little of the fruit to make a sauce and pour over the ice cream, adding a few whole berries or bits of the fruit.

The fruit flavors make a delicious combination with the smooth richness of the pure Jersey cream. Try one of these different Jersey desserts.

Pilgrimage on Foot From
Boston to Ste. Anne de
Beaupre Ends

QUEBEC, July 25.—A pilgrimage on foot from Boston to Ste. Anne de Beaupre has been accomplished by Fr. Bernard O'Keefe of Brookline, Mass., and Fr. John Mahoney of Brighton, Mass. The distance covered is estimated at 425 miles. They averaged about 15 miles a day. They left Boston on July 9 and have just reached Ste. Anne de Beaupre.

APOSTOLIC VISITS ARE
DECREED BY POPE

BOSTON, July 25.—The announcement reached Boston last night that the pope has issued a decree calling for an apostolic visitation to all the Roman Catholic dioceses of America by the Rev. Archbishop John Bonzano, papal delegate to the United States. This is nearly unprecedented in the modern history of the Catholic church. Nothing of the kind has been done since, on the election of Pope Pius X, he issued a decree calling for an apostolic visitation of all the dioceses of Italy. The text of the Vatican letter announcing the decree follows:

"Since the holy father, Pope Pius XI has now decreed that an apostolic visitation be made to the dioceses and churches of the United States, by command of his holiness and in accordance with my office, I hasten to announce that decision to all the bishops of that country. The solicitude of his holiness for the churches of America must be grateful to all, since it shows with what interest and love the sovereign pontiff regards that portion of the Catholic church which is so distinguished and flourishing.

"This decree will be all the more pleasing because his holiness has chosen for the post of apostolic visitor his delegate in the United States, who by his long residence in the country and by his knowledge of its persons and affairs, as well as on account of his sound judgment and his great love for the American republic, will be recognized and received as the very best choice. It is needless, therefore, for me to commend him to the good offices of the American bishops, so that he may with ease and despatch carry out his appointed work."

EXPERT TELLS HOW TO
PLAN YOUR PICNIC

This is the season of picnics and someone must always prepare a lunch. Once was the time when a basket must be containing plates, spoons and linen napkins, all of which had to be carried home.

Nowadays there are wonderful lunch boxes and baskets, containing everything one could possibly need, and the automobile carries the burden.

Or the lunch is eaten by the roadside, in an attractive spot, while seated comfortably in the car.

For less fortunate people there are paper plates, cups, spoons, forks, tablecloths and napkins. Also paper containers, in which may be carried moist food, make it possible to have a picnic.

Patented bottles, now very cheap, will keep the coffee or tea hot and the ice water cold. With such equipment and a pastboard box no one has to carry home anything.

COLD MENU
Ham and eggs sandwiches
(Slice of ham and chopped hard cooked eggs, mixed with salad dressing)
Plain brown bread sandwiches
Hard boiled eggs
Olives or pickles
Small sponge cakes
Tea or coffee (in patented bottle)
Fruit (whatever is available)

AUTOMOBILE MENU
Chicken salad sandwiches
OR
Chicken salad and buttered rolls
Olives
Cut-up fruit, cakes, candies
Hot coffee or tea punch

HOT MENU
Chops and bacon
(Allow two chops and three slices of bacon to each person)
Rolls to split and toast, butter
Tomato and chopped cabbage salad
Chocolate layer cake
Coffee
Marshmallows (to toast)

COAL CAR TAKES A FERRY RIDE

When passengers saw several railroad cars about to board their ferry boat in the East river, New York, they rushed back to the dock and escaped injury. The railroad barge had broken its moorings.

BAD COMPLEXION

Weak, run down, lacking strength, energy and ambition, nervous, sleepless, without appetite, digestion disturbed—these are the symptoms named by a great majority of the people who have been benefited by the use of Dr. Williams' Pink Pills. These tonic pills correct the condition described and if you have these symptoms you should give them a trial. They are especially good for the debility following the grip and influenza as this statement shows.

"I was weak and run down," says Mrs. Emma Silva, of No. 180 Beannington street, East Boston, Mass., "and I could not get my strength back. I was tired, had no ambition, did not have any appetite and at times I was very nervous. I could not stand any noise and did not sleep well. I had headaches that affected my eyes, and my complexion was bad. I read about Dr. Williams' Pink Pills and as I had heard from friends that they were good I gave them a trial.

"While I was using the first box I noticed that my appetite was getting better and as I continued the treatment I could see that my strength was increasing. My nerves grew stronger and I began to feel like myself. I knew that I owed my recovery to Dr. Williams' Pink Pills for I have taken no other medicine."

Write now to the Dr. Williams Medicine Co., Schenectady, N. Y., for the helpful booklet, "Building Up the Blood." Your own druggist sells Dr. Williams' Pink Pills—Adv.

BOY'S HOME MADE CAN-
NON WRECKS ROOM

BOSTON, July 25.—Apparently young Edwin Pitman, who lives with his parents, Mr. and Mrs. Edwin P. Pitman, at 45 Laurel street, Somerville, believes a lot of this talk about getting ready for the next war. Last night he all but persuaded members of his family, as well as many persons who live in the same neighborhood with the Pitman family, that the armistice of 1918 was but a myth, and that the World War was still at its height.

At any rate young Edwin, who is 15 years old and of an inventive turn of mind, decided that it is possible to improve on the French 75 millimeter field gun, and recently he set out to make artillery of his own. He took a piece of two-inch pipe 30 inches long and plugged one end of it with lead. He bored a hole in the pipe through which a fuse might be inserted, and then he mounted his invention on a wooden box. Then he manufactured some gunpowder, using charcoal, saltpetre, and numerous other ingredients.

The thing was set for his great experiment at 6:30 p. m. yesterday. He loaded his cannon with about one pound of "home brew" gunpowder, and then touched a match to the fuse. It worked. O, man, how it worked! The report was heard half a mile away. But the gun bucked. It left its mounting, tore through a bedroom window in the Pitman home, knocked off a gas fixture, and what it did to the plastering in the room did not improve the appearance of the chamber a bit.

Sergeant James M. Lynch of the Somerville police department, who lives on Laurel street, had just reached his

WHAT CAUSES
HEADACHES?

"Fruit-a-lives" Prevents
Auto-Intoxication

Auto-intoxication means self-poisoning. Many people suffer from partial constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, poisons the blood.

As a result, there is Headache, Indigestion, disturbed Stomach, lack of sleep, Rheumatism and Eczema.

"Fruit-a-lives" will always relieve Auto-intoxication as these fruit tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure.

60c a box, 6 for \$2.50, trial size 25c. Advertisers only FRUIT-A-LIVES Limited, OGDENSBURG, N. Y.

home when the explosion shook the neighborhood. He rushed out and soon located the battery. Then he had a heart-to-heart talk with a boy who was thoroughly scared, and the "gun" was taken to Somerville police headquarters, where it was placed with a number of other curios. Fortunately, neither the boy nor anyone else was injured, as no one was in the room that was invaded by the new field piece.

Edwin will agree that the inventor's life is a hard one.

NEW SUCCESSES FOR
FREE STATE FORCES

DUBLIN, July 25.—(By the Associated Press.)—Additional large areas in the west of Ireland have been occupied by the Free State forces before whom the republican insurgents are retreating, according to today's official report. Clonsilla, County Mayo, is the latest town to be freed from the irregulars, who have now retired to Ballinrobe, on the border between Galway and Mayo.

Damon de Valera accompanied the insurgents last Sunday to Tipperary, but, according to reports, left for Cashel, 12 miles distant, the next day. The strategy of recent events is said to have left him pale and wan.

The irregulars are said to have burned the military barracks at Cashel and Tipperary.

GIRLS! WHITEN SKIN
WITH LEMON JUICE

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.—Adv.

CHANGE WHOLE ROUTINE
TO SAVE BABY'S LIFE

NEW YORK, July 25.—Efforts of passengers and crew of the Munson liner American Legion to prolong the life of a 10-month-old babe until it could reach a hospital were rewarded yesterday by the announcement of New York physicians that the child had an excellent chance to recover.

The babe is Thomas McConnell, Jr., son of an official in the Ford automobile plant at Buenos Ayres, a passenger on the American Legion. A week ago he was stricken with pneumonia and from then until the vessel docked at New York, the whole routine of the ship was directed towards saving the babe's life.

While the vessel made for port under full steam, an open air hospital was set up on deck for the little patient. Electric pads were connected with the ship's dynamo to keep the babe's body warm. To preserve quiet, no deck chairs were permitted near the spot. Sailors, when work took them near the hospital, removed their shoes. Ship's bells and whistle signals were dispensed with, the officers using flags to salute passing ships.

An ambulance was waiting at the pier when the American Legion docked and the babe was rushed to a hospital "just in time," as doctors said.

SUMMER FARMERS AT
STATE COLLEGE

AMHERST, July 25.—The opening sessions of the fourth annual summer farmers' week began today at the Massachusetts Agricultural college with the Beekeepers' day meetings and the farm shop demonstrations as features.

The use and equipment of the farm shop will be discussed by Prof. C. I. Guinness, head of the department of rural engineering at M.A.C.

The Beekeepers' day is likewise an exceptional event on the program of these summer meetings. The college apary will be the scene of manipulations of colonies by the visiting beekeepers, who will be furnished necessary veils, smokers and hive tools by Prof. N. E. Phillips.

One of the most closely and effectively organized groups of farmers who will meet at the college during the week is the Massachusetts Fruit Growers' association, which holds meetings this afternoon and all day tomorrow. Dr. S. W. Fletcher of Pennsylvania is the speaker of first importance on the fruit program. He discusses "Direct Marketing of Fruit."

Hot weather hospitality

Wins 10-Mile National Swimming Contest

Though only 18 years old, Thomas E. Blake, member of the Los Angeles Athletic club, captured the 10-mile national swimming championship over the course from Philadelphia to Riverton, N. J. His time was 2 hours, 24 minutes and 30 seconds. Twenty-eight contestants were entered.

These Three Make Indians a Dangerous Aggregation

TRIS SPEAKER

Tris Speaker is one of the greatest fielders the game has ever developed, one of the game's leading base-runners and basemen, and better yet, a smart player at all times. Speaker has, since he assumed hold of the Cleveland club, proved himself one of the most successful managers in the history of the game. Speaker has personality, power and drive. He dominated the position. A bad day has kept Speaker from being at his best this year. When he

CHARLEY JAMIESON

is out of the lineup the Indians lack the fire that characterizes their usual game. "Stuffy" McInnis disputes with Slater the right to be classed the best first baseman in the American league. He is the perfect fielder and a timely hitter. Charley Jamieson has developed into one of the best outfielders in the Amer-

STUFFY MCINNIS

ican league, despite the fact that his name doesn't break into print very often. Jamieson is very fast, a hard hitter and an excellent batter. In the field he is a regular base hawk, and in addition has a strong throwing arm.

CRUCIAL SERIES IN BOTH LEAGUES

New York and St. Louis Clubs, Leading Contenders in Majors, Clash

Tillie Walker Knocks Out His 24th Homer—Robbed of 25th by Fan

NEW YORK, July 25.—New York and St. Louis clubs, leading contenders in the major leagues, today opened each other in the opening games of series that may have a decisive bearing on the outcome of their respective pennant races. The Yankees, who lost the lead the last time they toured the western strongholds of their four most potent rivals, were 1½ games behind the race-settling Browns as they invaded St. Louis. The Huguenots were strengthened for the crucial test by the acquisition of third baseman Joe Judge and outfielder Elmer Smith in a trade with the Red Sox.

The Giants and Cardinals were practically even even terms in their sensational race as they opened a five game series at the Polo grounds, New York holding first place by the fraction of one percentage point while the westerners had an advantage of a half game in the won and lost table. The Giants, concluding their tour by dividing a double header with Pittsburgh yesterday, secured no better than an even break in 20 games with western rivals. The substantial lead with which they started the invasion was rapidly reduced by the onrush of the Cardinals, who took 14 out of 18 starts against eastern clubs, including three out of four from the champions, and enjoyed the sensation of occupying first place for a day by climbing ahead of New York on Saturday.

Tillie Walker knocked out his 24th homer as Philadelphia closed its home stand by beating Washington 4 to 2, and the two clubs were tied for first place in the National league.

Coveleskie outpitched Red Faber and Cleveland defeated Chicago, 5 to 2, in the only other game played in the major leagues yesterday.

WALKER TEAM WINS The Walker street playgrounds team defeated the Morey team in a game of baseball on the latter's grounds yesterday afternoon by the score of 8 to 2.

CHAMP EXPECTS TO K. O. TENDLER

Will Be Disappointed if He Fails to Stop Challenger Before Seventh Round

Leonard says to Wind Up His Training Today—At Top of His Career

BUDD LAKE, N. J., July 25.—This will be the last full day that Champion Benny Leonard will put in before his lightweight title bout with Lew Tendler of Philadelphia at Boyle's Thirty Acres, Jersey City, Thursday evening. Before starting on his daily five mile run, Leonard said: "I'll have a fight if I lose and I'll be disappointed if I don't win by a knockout before the seventh round."

For two weeks Leonard has been living here surrounded by his family—mother, three brothers and sister—who stay at a hotel near the "training camp."

Leonard says that today he is at the top of his career. He says this is the best year he ever will have. He feels so strong, lively and vigorous that he has broken all championship records by boxing three top notchers within four weeks.

The previous fight—with Jack Britton, welterweight champion, and Rocky Kahanas of Buffalo, who put him on edge for Tendler, who for more than a year, has been acclaimed the logical contender, feeling so positive of himself, Leonard said he signed for a fourth bout with Ever Hammer, a lad who has brought out a two-sided name for himself in the middle west.

This bout probably will be held at Michigan City, Ind., Aug. 5.

BIG TENNIS TOURNAMENT SEABRIGHT, N. J., July 25.—Eight players, including four ranking American stars and four foreign entrants, will be "seeded" in the draw for the annual invitation tournament of the Seabright lawn tennis and cricket club.

In the men's singles, William M. Johnston, Watson M. Washburn, Vincent Richards and R. Norris Williams 2nd, will be distributed in the draw, together with Gerald L. Patterson, Pat O'Hara Wood and James O. Anderson of the Australian Davis cup team, and Zenzo Shimizu, former Japanese Davis cup star.

Players who will be "seeded" in the women's singles are Mrs. Mollie Bjerstad Mallory, Mrs. Marion Zinderstein Jessup, Mrs. May Sutton Bundy and Miss Edith Sigourney.

BY BILLY EVANS

The lively bat is the very latest thing in baseball. For several years most of the hard hitting has been charged against the so-called lively bat.

Now there comes the question as to whether or not the bat is playing a part. Major league catchers are of the belief that the bat is doing its bit toward helping along the slugging that now features the major leagues.

How come the bat to be regarded as lively? Well, here is the latest rumor that is going the rounds relative to the increased hitting.

Major league players have their favorite bats. Weather conditions and the hard usage to which the bats are subjected often cause them to crack with the grain.

In order to preserve these favorite bats, it has been the custom for years with major league players to drive a few small nails or tacks into the bat where it showed signs of splitting.

How It Works Although the rules say that the bat shall be entirely of wood, little attention has ever been paid to the custom of driving a few small nails or tacks into the bat where it showed signs of splitting.

Practice General It is said that the practice has become general in both big leagues, and

TWILIGHT LEAGUE TO END AUGUST 18

The Twilight league managers held a meeting last evening and several matters of importance were considered. It was voted that the league season should terminate on Aug. 18 and that all postponed games should be played off in order after that date. The meeting also decided that the K. of C. Centerville game of last week should be played over as the protest relative to the use of ineligible players was sustained.

TWILIGHT LEAGUE STANDINGS

	Won	Lost	Pts.
Highland Daylights	10	3	750
Centralvilles	6	3	667
Y.M.C.A.	5	5	500
Broadways	5	7	417
Knight of Columbus	5	7	417
Massachusetts	2	9	250

GAME TONIGHT Centralvilles vs. Broadways.

C. M. A. C. WILL BE PUSHED TO WIN

The Cleveland Giants of Providence, R. I., will be the opponents of the C. M. A. C. on the Twelfth Avenue Saturday afternoon. The Giants are a colored team that has been meeting and defeating the C. M. A. C. since the season opened. The only team to gain a victory over them of late was the Albot Worstel of Granvilleville, which put over a win in a twilight game about two weeks ago. The C. M. A. C. will be strengthened for this game, as Manager Billy Marcotte is desirous of coming through on the long end of the score. Besides a good baseball game, the fans are in for a treat in the line of chatter as the Providence boys are reputed to have a bundle of comedy all their own.

That most of the players are using bats that are heavily studded with nails. It is a very easy matter to imagine how solid 50 nails would make a small area. It is also easy to picture how much impetus such a studded area would give to a ball that was properly hit.

While umpires never essay to play the role of detective, the catchers are all beginning to watch the bats closely, and I understand any number of bats have recently been ruled out in both major leagues.

It wouldn't be at all surprising if some definite action was taken against this dishonest practice by both leagues and the umpires given orders to throw out all bats that contained even a single nail.

MALONE MUST PUT UP

To Post Forfeit Before His Suspension Will Be Lifted by Boxing Commission

BOSTON, July 25.—Providing Jack Malone does up to a set of conditions imposed on him by the Massachusetts Boxing commission, his indefinite suspension, imposed more than a month ago, will be lifted forthwith. The conditions require him to post a substantial forfeit with the commission guaranteeing his appearance in a bout with Mickey Walker of the Boston Arena next Monday night, July 31. Walker has already signed a contract to fulfill the match and his manager, Jack Bulger, will not accept a forfeit with the A.C. this week. Nate Lewis, one of Malone's managers, will come to Boston Wednesday to meet with the commission and all the formalities will then be completed. Meanwhile Malone is at White Sulphur Springs, training for his bout.

He has wired both the Arena club and the boxing commission that he suffered an injury to his hand in his recent bout with Johnny Kary and that he feels in fit condition to give Walker a real boxing lesson. In his opinion, he wired that he considers talk cheap and that he will make no replies to anything which Walker has said about him. His replies, he wired, will all be made in the ring and with boxing gloves rather than pen, pencil or typewriter.

When the Arena club announced that this pair had made the match in June, there was more interest exhibited in the bout than ever before in the history of boxing in Boston. The demand for tickets was so great that even then that occasioned more than a year ago, when the club staged the world championship battle between Johnny Wilson and George Robinson. Then followed Malone's injury, his refusal to go through with the bout and his subsequent suspension by Commissioner Barrett.

Malone has had a hearing and his suspension stands, but will be lifted if he complies with the conditions imposed by the commission.

SUSPENSION OF WILSON

AND MANAGER LIFTED

BOSTON, July 25.—Middleweight Champion Johnny Wilson can box again in this state. The Massachusetts Boxing commission, following a hearing yesterday afternoon, lifted the suspension that had been placed on the boxer and his manager, Martin Killier, dating back to Jan. 5.

Wilson refused to box Harry Grob in New York after signing a contract to do so. On Jan. 4, the New York body suspended the boxer and his manager. As New York and Massachusetts have a working agreement on such matters, the Massachusetts body also suspended the pair.

For some time, however, the Massachusetts commission has felt that Wilson had been punished sufficiently. It tried to get the New York body to lift the suspension, instead it declined Wilson's title vacated.

A few days ago Wilson and his manager applied to the Massachusetts body for a hearing and Commissioner Barrett and Buckley yesterday listened to the evidence offered. The hearing lasted more than an hour and the commission then on the testimony presented, voted to reinstate Wilson and Killier. Notice of the action was sent to the New York body. It is reported that New York has announced that any boxer who meets Wilson, which was barred from boxing in that city.

Whether New York will break the agreement it now holds with Massachusetts is a question. The Massachusetts body believes it has done the right thing and the fans herabouts support that view.

THE GREAT ROSE III

Favorite in Today's Grand Circuit Race Withdraws

COLUMBUS, Ohio, July 25.—The Great Rose of the McDonnell stable favorite in the 2:11 trot, the H. & S. stake, featured event of today's Grand Circuit program at Columbus, Ohio, Driving park track, is ill and will not be started. It was said at the track, Czar Worthy likely will be the favorite in this event, which carries a purse of \$5000, the largest of the meet.

Other events today are the 2:12 pace, the 2:14 pace and the two-year old trot.

OPENING TENNIS TOURNAMENT The annual open tennis tournament for the championship for Lake George is scheduled for the week beginning Monday, August 7. This is one of the recognized annual fixtures sanctioned by the U.S.T.A. and the events as usual will comprise men's and women's singles, men's doubles and mixed doubles.

The trophy for men's singles, which must be won three times for permanent possession, is now held by J. H. Chapin Jr., former New England intercollegiate champion. R. L. James is the only winner of two legs on the club other winners of a single leg. In addition to the present holder, being P. D. Hicks and Cedric A. Major.

There is every prospect that this year's tournament will surpass all previous years in the size and quality of the entry list. Entries close Saturday, August 5, and should be sent to Mr. M. Strand, Lake George club, Diamond Point, P.O., N. Y.

TO MAKE FIFTH ATTEMPT

Henry F. Sullivan Leaves to Again Tackle the Waters of English Channel

When the S. S. President Van Buren leaves Hoboken at 10 o'clock tomorrow morning, it will number among its passengers, Henry F. Sullivan of Lowell.

HENRY F. SULLIVAN

Lowell, American long distance swimming champion, who is going to England in the expectation that this, his fifth attempt to swim the treacherous waters of the English channel, will meet with success.

Mr. Sullivan's first attempt to cross the turbulent strait was in 1913, when he reluctantly gave up the task because of unfavorable weather. He tried again in 1914, 1920 and 1921, each time being forced to abandon the attempt when victory seemed certain.

His best try was made in 1921 when he made two attempts within a period of 20 days, on the first occasion remaining in the water for more than 10 hours and on the second for 13 hours. On his last trip he came within a half mile of the French coast and victory, but was taken from the water on the advice of Capt. William Burgess and others in the party, when rough weather threatened to overturn the craft in which they were following him.

Before leaving for New York this morning, Henry explained that everything depended upon weather conditions. It is impossible, he explained, to make a landing on the French side of the channel if the elements are unfavorable. On his swim he had the aid of a high chain cliffs and during a storm, tons of pebbles are dashed against the shore, and navigation is absolutely out of the question.

On his present trip, Mr. Sullivan will be accompanied by his friend and trainer, John P. Condon of this city and Capt. N. Leslie Smith of Whitport, who has acted as his pilot in all his previous attempts. The party will stop at Dover, England, for a period of training and if the proper conditions present themselves, the start will be made in the morning.

The colors of the S. Y. M. L.

GIRL SUCCEEDS IN LONG LAKE SWIM

Miss Mildred E. Bowers, a popular summer camper at Nahant, Mass., proudly enjoys the distinction of being the first woman to swim across the entire lake, Miss Bowers made this swim, which is a little over three miles, in the time of 2 hours and 15 minutes. This swim has been attempted many times in the past by young women campers but Miss Bowers is the first to succeed in negotiating the whole distance.

On her present trip, Mr. Sullivan will be accompanied by his friend and trainer, John P. Condon of this city and Capt. N. Leslie Smith of Whitport, who has acted as his pilot in all his previous attempts. The party will stop at Dover, England, for a period of training and if the proper conditions present themselves, the start will be made in the morning.

HUB MARE STEPS FAST

Margaret Dillon Equals Three-Heat Record in 2.04 Pace at Columbus

COLUMBUS, O., July 25.—The Boston mare, Margaret Dillon, which established a new world's three-heat record for many miles two weeks ago, duplicated the performance yesterday at the opening of the Grand Circuit meeting at the Driving Park, winning the stakes for 2:04 paces in 2:04, 2:01 and 2:00, the time of the three miles averaging the same as those in the Toledo race.

It was an easy race for the mare, as she was never under a hard drive at any time and would have beaten the two-minute mark in the final heat had she been driven out.

Favorites fared well today, three of the four school children winning, but in the 2:12 trot there was a big upset, the longest, Baron Worthy, selling for \$10 in \$300 paces, beating the Murphy entry, Princess Etawah, a heavy first choice.

Margaret Dillon was a \$100 to \$25 choice over the field for the 2:04 pace. With the mare barred in the auctions, Grace Direct and John Henry were about equal choices to land second.

Margaret was off in front in each heat and led all the way. Grace Direct, driven by Valentine for the first time, landed the place in the first and final heats, Lucy I. slipping into second place, a nose in front of John Henry in the second heat.

Walter Cox won the 2:17 trot with Lee Tins, the third straight win for the black 4-year-old, which is racing in great form in spite of lameness. The Canadian mare, Estie G. was the choice for the 2:18 pace and was in front all the way each time.

Princess Etawah was an odds-on choice for the 2:12 trot and was all out to beat Harvest, led in the first heat. Then Baron Worthy came from behind and beat her in the second and in the final stretch and won handily.

GIRLS' BASEBALL LEAGUE IN ACTION

At Shedd park yesterday afternoon, the Moody school girls went down to defeat before the Shedd park girls by the score of 10 to 5 in a playground baseball game. The following lineups were used:

Shedd Park—Catherine Maguire c. Alice Sheehan p. Margaret Seifane 1b. Alice Smith 2b. Emma McEntee 3b. Alice Mahoney lf. Lucy Kane cf. Moody school—Lucy Kane c. Alice Mulachy p. Helen Corey 1b. Mary Davine 2b. Esther Gallagher 3b. Helen Heslin lf. Mary McQuade cf.

Butler Girls Win In a close and exciting game on the Butler school grounds the Butler girls succumbed to the Gorham street outfit, 5 to 6. The Butler lineup: Mary O'Neill p. Florence Goodfield c. Alice Whittemore 1b. Thelma Sullivan 2b. Violet Wyatt, Vera Glendon 3b. Mary Pendergast cf. Gladys Droney ss. Gladys Keefe lf. Ellen Walsh rf.

AMATEUR BASEBALL

The Rambler-Dutler Blues game scheduled for last Sunday was called off owing to rain. The Ramblers challenge the Unity or Lisbon Juniors to a game for next Sunday. Answer through this paper.

The Emerald Seconds challenge the Grock Hornets or the Exeter Juniors to a practice game to be played on the North common. They would also like to hear from any 12-14 year old team in the city. The Seconds will play the Universals on the North common next Friday afternoon at 2 o'clock, provided the latter have the same lineup used in the game last Friday. Saturday, the Seconds will play the Ramblers and Sunday defeated the Swatters by the score of 5 to 5, the game being called at the end of the sixth inning on account of rain. For games, call C. Gauthier, telephone 6262-R.

The Yankees won a forfeited game from the previous Sunday afternoon by defeating the Merrimacks in a practice game, 17 to 5. The Yankees would like games with the Tylers, Ledgers, Willie Stavers, Ramblers, Nationals or Butler Blues. They have an open date next Sunday, and would like to meet one of the foregoing teams on the South common. See Manager Baker at the corner of East Merrimack and Howe streets.

The Tigers of the Highlands would like to play any 12-14 year old team in the city. The Tigers will play the Ramblers, Wednesday at Sprauling field.

The Lincoln All-Stars defeated the Burr Middlets yesterday afternoon by the score of 10 to 5. The feature of the game was the pitching of P. Sullivan who had 10 strike-outs to nine errors in four innings. The All-Stars lineup is as follows: P. Sullivan, lf. Corkey, c. E. Sullivan, 1b. F. Crockett, 2b. H. Ford, 3b. F. McGrath as H. Shute, rf. B. Shute, lf. E. Casey, cf.

HURLED TO HIS DEATH

M. J. Dooley, Head of Springfield Electric Railway Company Killed

SPRINGFIELD, Vt., July 25.—M. J. Dooley, superintendent of the Springfield Electric Railway company, was killed yesterday when he was thrown from a freight motor. He had left the car in No. 8 to help Motor No. 11 with a train up Mineral street hill. Just how he met his death is unknown. It is possible that he left his post at the front of the car because of some failure of the air brakes, and when near the side door a sudden lurch of the car may have thrown him out. He struck head first on a rock.

BIRTHDAY CAKE FOR LADDIE BOY

WASHINGTON, July 25.—Much preferring a bone—if the truth were known—Laddie Boy, the president's dog, received a birthday cake yesterday from his old man at Toledo, along with a letter telling of the continued good conduct of the family. Packed in a box shaped like a regulation dog house, the cake, made of dog biscuit material suitable for a highbrow dog's digestion, was delivered to the White House by express messengers.

It was not delayed by the rail strike and got here in time for Laddie Boy's birthday, which is Wednesday. It will not be opened until then, and meanwhile invitations will go to some of Laddie Boy's friends of equal social rank to hop over and have a bite.

There were snapshots, too, of Laddie Boy's mother, his sister Loll, who is getting along toward her high school days, his brother Bob, who has a job in New York, and Little Dick, the baby, born after Champion Thirteen Tip Top. Laddie Boy's old man, sent him here as a friend and pal of the president. But the picture Laddie Boy seemed to like the best was his daddy, an upstanding old gent built on the Laddie Boy lines, and for whom it might be sometimes whines.

SENATE DEBATES U. S. WAR CLAIMS

WASHINGTON, July 25. (By Associated Press.)—Republican and democratic senators yesterday joined in demands for prompt payment of American damage claims against Germany and Austria, but differed as to procedure during three hours debate on the bill of Senator Underwood of Alabama, the democratic leader, which proposed an American claims commission.

Senator Lodge of Massachusetts, the republican leader, indicated that he favored a joint claims commission. Senator Lodge, however, agreed with Senator Underwood that property seized by the alien property custodian probably would be used to pay American damages, but such a method of payment was opposed by Sen. Walsh, democrat of Montana.

The discussion was opened by Senator Underwood with a statement in support of his bill in which incidentally he denied charges of fraud in connection with acquisition by the Chemical Foundation of 5000 German chemical patents, now the basis of a government suit. While discussion of the chemical foundation affairs was precipitated, Chairman Nelson of the judiciary committee attacking Senator Underwood's position and charging that the foundation was spreading propaganda, while Senator Underwood declared that the foundation was an eleemosynary concerned, with profits limited and designed to develop American chemistry.

The Underwood bill was referred yesterday to a judiciary sub-committee headed by Senator Cummins, republican, of Iowa, which will begin hearings next Thursday. Thomas W. Miller, alien property custodian, and his predecessors in office, ex-Atty. Gen. A. Mitchell Palmer and Francis P. Garvan, the latter now president of the Chemical Foundation, are to be among the early witnesses, indicating that the Chemical Foundation case will be gone into at some length.

It also was announced that Senator Underwood's bill had been referred to the state department for an opinion. Senator Lodge advising the senate that the department was negotiating with Germany for a treaty to establish a joint claims commission. Senator Lodge added that he would not favor giving such a commission power to decide whether Germany was bound to pay American claims, but the commission, he said, should only fix the amounts due.

This was opposed by Senator Underwood, who said he favored an American

TAIL LIGHTS MUST BE CHANGED THIS YEAR

Local automobilists plan to make hay while the sun shines and secure rear lights for their cars that will comply with the new dictate of Frank A. Goodwin, state registrar of motor vehicles, before this law goes into effect on January 1, 1923. This new law which provides that no rear light shall be used on any vehicle unless approved by the state registrar, becomes a state law Thursday, July 27, but is not effective until the first of next year.

The new law provides that all motor vehicles shall display a rear red light, with sufficient illumination to render the rear license plate visible at a distance of 50 feet.

Mr. Goodwin has allowed this clause of time between the passing of the law and putting it into effect so that manufacturers might submit designs of lamps that will fit the letter of the law. The enactment of this law came about as a result of the great number of rear-end collisions because of defective tail lights and the complaint of the police that they were hindered in the detection of violators of the motor laws. In many cases the rear light rendered the license plate invisible and allowed the operator to escape after causing serious injury at times.

It was just about a year ago this time that the new headlight law was passed, and with the passing of this new law, all lights on a car are now in compliance with state laws. The law restricting the headlights to a certain strength was very beneficial, as many accidents were caused by the blinding glare of an advancing machine.

TURTLE CLIMBED FENCE
NEW LONDON, Conn., July 25.—John W. McLane of Cromwell found a 20-pound snapping turtle in his henyard Sunday when he went to feed chickens. He claims the turtle climbed the 10-foot wire fence and made its entrance that way for he says there was no other method by which it could have entered. Mr. McLane made soup out of the turtle.

can commission to fix American claims and that American claimants might be delayed interminably if their claims were placed in the hands of a joint commission.

HAS TWO HOMES, FIVE AUTOS, NEEDS MONEY

NEW YORK, July 25.—Mrs. Adelaide A. Lawrence, a 75-year-old widow, yesterday told Surrogate Cohalan that while she is now mistress of two luxurious homes, one a town house on Riverside drive, and the other, a 100-acre country place at Great Neck, L. I., with five automobiles, all of which were left her by the will of a sister, Mrs. Angle M. Booth, she is without money to maintain them.

She asked that \$15,000 be allowed her as an advance on a legacy of \$500,000 from Mrs. Booth pending the outcome of a contest of the will, which disposed of an estate estimated to be worth from \$5,000,000 to \$12,000,000.

Maria A. Landolt, of Brooklyn, a grand-niece of Mrs. Booth, who was the widow of the founder of the Ward steamship line, charges in contesting the will that Mrs. Booth at the time the document was drawn was lacking in testamentary capacity and that she was the victim of fraud and undue influence exercised by Robert F. Graean of Hartsdale, N. Y., and Francis Merrill of Bronxville, N. Y., the executors of the estate.

By the terms of the will Mrs. Landolt would receive \$50,000. Other beneficiaries are: Frank S. Rowan, Philadelphia, \$150,000; Viola R. Wakefield, Sheffield, Mass., \$100,000; Mary R. Man-son, Albany, N. Y., \$100,000; William Stanley Hill, New York, \$250,000; Carol-ine S. Roulan, New York, \$150,000, and Jessie B. Merrill, Bronxville, \$150,000. The will was dated Sept. 10, 1921.

Mrs. Lawrence explained in court that she had always lived with her sister in the Riverside drive house and at "Bradlaw" the 100-acre Long Island estate. She said she thought her request for \$15,000 as an advance on her expectations was modest, as in the event the latest will were broken, she could produce two previous documents, each of which left her \$500,000 and the residuary estate after bequests to other relatives.

The aged widow, who is in poor health, states that after payment of the other beneficiaries, a conservative estimate would fix her share of the Booth fortune at \$5,000,000. Surrogate Cohalan ordered the administrators to show cause why the \$15,000 advance should not be granted Mrs. Lawrence, but did not fix a date for the hearing.

PROPERTY TRANSFER
The property at the corner of Middlesex and Rovers streets, purchased a couple of weeks ago by David Ziskind from the Appleton Co., has been sold to Max Brown and Benjamin Alford of Lawrence. It is said the price paid was in the vicinity of \$50,000.

Gov. Baxter and Staff at Devens

AYER, July 25.—Governor Baxter of Maine, accompanied by his full staff, was due to reach Camp Devens some time today for a two-day inspection tour of the camp and the 103rd regiment of Maine. He will also review the troops on the parade grounds. With the members of his staff, the governor planned to attend the athletic matches in the camp stadium tonight.

Must Muzzle or Leash All Dogs

BOSTON, July 25.—Because of the spread of rabies all dogs in this city must be muzzled or held in leash for the next ninety days. A special order to this effect passed by the city council last night, will go into force as soon as Mayor James M. Curley approves the measure. Health Commissioner F. X. Mahoney had reported 24 persons bitten by dogs last month.

RIVER HEARING POSTPONED UNTIL DECEMBER

The hearing on the adverse report of the Merrimack river navigation project will be held in December, the absolute date to be announced later. This is according to word just received from Congressman John Jacob Rogers who was informed of the postponement by the board of engineers for rivers and harbors at Washington.

The hearing on the adverse report, known as the Willing report, because it was made by Col. Willing, the Boston representative of the army engineers, was to have been held on July 11. The proponents of the project in the Merrimack valley expressed unanimous sentiment that more time should be allowed for the preparation of the hearing. At a recent meeting in Lawrence it was decided to ask that the hearing be put off until December.

Concerning Gasoline Power

ACCURATE tests in the laboratory and on the race track have shown that the power of Socony Gasoline is second to none and that it is unequalled for all-round dependability and uniform quality.

And dependability covers everything that you want in a gasoline—quick starting, pick-up, power and maximum mileage—which all together make for economy.

The Makers of U.S. Royal Cords
Beg to State —

NOT quite seven years ago the U. S. Royal Cord Tire was announced to the public. People who saw it remarked on the beauty of the tread design, which is protected by U.S. Letters Patent. The same design that since then has proved itself the most scientific tread pattern ever put on a pneumatic tire.

To identify this superlative tire under all conditions—whether running or stationary—Royal Cord makers adopted as a trade mark a circumferential white stripe placed on each side wall.

Today, Royal Cord beauty and identity is so known and distinguished that even a newsboy can spot one whisking around the corner.

And car-owners everywhere look upon a Royal Cord as the measure of all automobile tire values.

According to some tire dealers and manufacturers the public has been having one of its "price spells" and demands cheap tires.

This is contrary to the facts. Otherwise Royal Cords wouldn't keep gaining and gaining and gaining in sales to quality people.

And—you wouldn't see Royal Cords on so many cars of every make in the country.

Nor—if Americans were on record for cheaply made and cheaply priced tires—would they award the leadership of the tire business to the Royal Cord Tire.

Current prices on United States Passenger Car Tires and Tubes are not subject to Federal Excise Tax, the tax having been included.

United States Tires are Good Tires

OLDEST VETERAN DIES

Asa D. Prescott Was Oldest Member of Grand Army in Lowell

In the death of Asa D. Prescott, who occurred Sunday at the home of his daughter, Mrs. Fred Timmons, 255 Princeton street, Lowell loses her oldest Grand Army member. He was 89 years old and up to the last took a keen interest in all of the doings of the G.A.R.

Mr. Prescott was born in Phillips, Mass., January 15, 1833, but 20 years later moved to Boston. There he learned the trade of marble and granite cutting and was employed in many large undertakings in and about that city.

When the call for volunteers came in 1861, Mr. Prescott responded and enlisted in the 12th Massachusetts regiment under Col. Webster. He took part in many important battles including those of the second battle of Bull Run, South Mountain and Antietam. He was wounded in the leg during the latter battle and was mustered out of the service Jan. 13, 1863.

Five of Mr. Prescott's brothers answered the call of the north and saw much hard fighting. The only survivor is William Prescott of Dallas City, Ill.

The military life was unbroken in the later generations as Mr. Prescott's son, Edwin, served in the Spanish war, and his three grandsons, Ernest P. Arthur, Jr., and Walter Farnum, served in the World war.

Mr. Prescott was descended from James Prescott, who settled in Hampton Falls, N. H. He is survived by two daughters, one son and 14 grandchildren. He was a member of Post 55, G.A.R., of Chelsea.

BRIEF BUT IMPORTANT WIRE DESPATCHES

SALEM, July 24.—Dr. John R. MacDonell, of the Danvers state hospital, and Dr. Watson, an assistant physician, have been summoned to the Salem jail to examine Joseph Lombardo, who attacked Elizabeth Montrossi, a fellow prisoner at the jail, as to his sanity.

BOSTON, July 24.—Seven Italians were placed on trial for murder in the first degree today before Judge Dwyer in the Suffolk superior court. The defendants were charged with the murder of Michael Scarpone on Jan. 20, 1921, who was shot and instantly killed while on his way to work.

WASHINGTON, July 24.—Operators from the producing districts of six states in conference today with Secretary Hoover, agreed in principle with the administration's plan for maintaining prices and insuring fuel distribution during the strike emergency.

LONDON, July 24.—(By the Associated Press)—Asked in the house of commons this afternoon whether Great Britain had offered to cancel France's debt, if she would reduce her claims for reparations from Germany, Sir Robert, chancellor of the exchequer replied that it was ill-advised to rely on newspaper reports.

DIED IN ATTEMPT TO SAVE GRANDDAUGHTER

NEW HAVEN, Conn., July 24.—Mrs. Dora Van Buskirk, aged 62, of Jersey City, was drowned at Bradley's Point, on the West Haven shore this afternoon, when she went to the rescue of her nine-year-old granddaughter, who had gone beyond her depth while in bathing. Mrs. Van Buskirk's daughter, Mrs. John H. Hart, who was also in swimming, went to the assistance of her mother, who was sinking, and her daughter, Mr. Hart, who was on shore, dashed in and saved his wife and daughter, and got his mother-in-law ashore. Mrs. Van Buskirk could not be resuscitated. The Hart family also comes from Jersey City.

SAYS R. R. WILL NOT BE ABLE TO RUN WORKS

NEW HAVEN, Conn., July 24.—Butler that the N. Y. N. H. & H. R. R. would not be able to operate the Groton Iron Works, which it has leased, was expressed at a mass meeting of striking shipmen held here today. Speakers maintained that the New Haven road did not have enough men to keep all its shops running.

After the meeting, John C. Ready, chairman of system federation No. 17, says that strike conditions on the system were unchanged. There was quiet everywhere. He confirmed the announcement that Charles J. Danaher of Meriden would appear for the men who have been enjoined by the federal court at the court hearing next Saturday. John J. O'Keefe of West Haven will be associated with Mr. Danaher.

The executive board of the Brotherhood of Clerks in the New Haven system met this afternoon to distribute strike ballots to about 6000 members. The ballots will be counted later in the week. The various alleged grievances are being reviewed for a second time by the labor board in Chicago. Officers of the clerks' organizations meet in Chicago early in the month to reorganize their case.

The daily statement of the New Haven road said both freight and passenger service were normal. It also claimed that the force at work in place of striking shipmen was gradually reaching the total number required.

BIG FOUR ROADS TO COMPLY WITH REQUEST

CHICAGO, July 24.—The Big Four railroad today notified the railroad labor board that it would comply with the board's request, that work at its freight terminals should not be let out to contracting firms. The road was one of those which had been letting out work to private firms. There were small outbreaks in Chicago this morning and one striker was arrested.

FRUIT GROWERS FACE RUIN

DENVER, Colo., July 24.—Financial ruin faces fruit growers of the western slope district of Colorado unless railroad cars immediately can be had to move perishable crops, said a resolution sent Colorado members of congress today after a meeting of shippers, growers and business men. The resolution demands that "the government immediately take charge both as to the labor and management of the railroads."

DOCTOR HELD FOR MURDER CARIBOU, Me., July 24.—Dr. John I. Dilling of Etnow, was arraigned in the Caribou municipal court this afternoon on a warrant charging murder. Dr. Dilling pleaded not guilty and on request of county Attorney Boix, the hearing was continued to August 2 at 11 o'clock. Herchel Shaw of Houlton appeared as counsel for the respondent.

MRS. BORDEN WERE GAY GARY NEWPORT, R. I., July 24.—Mrs. Cynthia Roche Borden, daughter of Mrs. Burke-Roche of New York, and Guy Fairfax Gary, attorney of New York, were married here today. The ceremony was performed at Blimco, the home of the bride's mother, by the Rev. Stanley G. Hughes, rector of Trinity church.

COTTER PIN PULLER

An old file can be shaped into a handy cotter pin puller, in the manner shown here. The file should be heated at both ends to make bending it easy. The tip is set into the eye of the cotter pin while the other end serves as handle.

REAL BOOZE IN COURT

Stiffer Sentences for Those Who Sell Moonshine in Judge Riley's Court

MALEDEN, July 24.—Those who sell moonshine and those who sell real liquor are in separate classes when they come up in the district court here before Judge Thomas P. Riley.

When Isadore Meigelman was arraigned today, charged with the illegal sale of liquor at his Main street drug store, the judge remarked: "This is the first real booze put in evidence in this court in two years." Then he fined the defendant \$50. Recent offenders have received the full penalties of the law, including prison sentences.

TO STAND PAT ON DUTIES IN WOOL SCHEDULE

WASHINGTON, July 24.—The Finance committee majority probably will stand pat on the duties in the wool schedule as originally recommended to the senate. Senator Lenroot, republican, Wisconsin, who wants a 60 per cent. maximum duty on coarse wool, both in the raw and in the finish manufactures, said today, however, that if this were done, there would be a fight in the senate.

Senator Smoot of Utah, in charge of the wool schedule for the majority and other committee members, take the position that the amendment proposed by Senator Lenroot is now susceptible of administration.

A tentative cut of 5 per cent. in the duties on clothing, cloth and other wool manufactures was agreed upon last week by the committee majority, but members said today there was little likelihood that any reduction would be recommended.

SAYS WOMAN FOUND DEAD NOT MURDERED

BOSTON, July 24.—Medical Examiner Timothy Leary announced today that Mrs. Alice I. Jones, whose body was found recently in a Tremont street lodging house, was not murdered. A note found near the body, Dr. Leary said, would indicate that she had committed suicide. George H. Mansfield, who was charged with the murder of Mrs. Jones, will be discharged from custody, the police said.

SERVES TIME FOR DOG

Sport hit a little girl in Hoboken, N. J. He was taken to the pound for examination, but Charles Strick prevailed on authorities to let him "lo time" for his pet. Then he secured a two-hour parole to visit the dog.

ANY MORE THAN THAT !!

PENN. RAILROAD CO. ASKS INJUNCTIONS

INDIANAPOLIS, Ind., July 24.—The Pennsylvania Railroad Co. filed two petitions in federal court today for temporary injunctions to restrain their striking employees from interfering with operations of its line in Indiana. A hearing will be held later in the day.

One petition is on behalf of the Fort Wayne division of the road and names 125 defendants. The other, on behalf of the Pan Handle division which operates in and out of Indianapolis, names 1300 defendants.

Tifuzul Sakhalul, Japanese cook, is held by Philadelphia police charged with repeatedly stabbing with an ice-pick his mistress, Mrs. Lewis Brinton, wife of a prominent physician, in a dispute over domestic matters. Miss Elizabeth Brinton, 18 (above) rushed to her mother's aid.

Legal Notices

MORTGAGEE'S SALE
By virtue of a power of sale contained in a certain mortgage deed given by Max Weiss and Sarah Weiss, both of Lowell, in the County of Middlesex and Commonwealth of Massachusetts, to Esrael Greenberg of said Lowell, dated Sept. 1, 1920, and recorded with Middlesex North District Registry of Deeds, Book 635, Page 5, and for breach of the conditions therein contained, and for the purpose of foreclosing the same, will be sold at public auction on the premises herein after described on Friday, Aug. 4, 1922, at two o'clock in the afternoon, all and singular the premises hereinafter described, the premises being bounded and described as follows:

A certain parcel of land with the buildings thereon situated on the southerly side of Middlesex street and the easterly side of Pearl street in said Lowell, bounded and described as follows:

Beginning at the northwesterly corner of the premises at the intersection of Pearl street with Middlesex street; thence southerly on said Pearl street, fifty-six feet; thence easterly at a right angle seventy-five and one-half feet; thence northerly at a right angle fifty-six feet to said Middlesex street; thence westerly on said Middlesex street, seventy-five and one-half feet to the point of beginning. Containing 4228 square feet.

The above premises will be sold subject to a mortgage of twenty thousand dollars held by the Washington Savings Institution subject to any and all unpaid taxes; and other municipal assessments, if any there be, subject to all reservations of record, and with the benefit of passageway rights mentioned in a deed to said Max Weiss and Sarah Weiss from Esrael Greenberg dated Sept. 1, 1920, and recorded with said Registry, Book 635, Page 5.

One thousand dollars must be paid to the auctioneer at the time and place of sale. Other terms at sale.

Witness my hand and seal this 11th day of July, 1922.

Adventures of the Twins

FORTY TURTLE'S TUMMY IS TREATED

IN WALKED MR. FORTY TURTLE, MOANING AND GROANING

One day when Nancy was dusting Dr. Sniffles' office, the doorbell rang and in walked Mr. Forty Turtle, moaning and groaning and rubbing and making a dreadful fuss.

"Hello, Forty, what's wrong?" asked Nancy, helping him as well as she could, for poor Forty didn't have a thing to catch hold of.

"Everything," declared Forty. "I've eaten too much. I was at a party last night and I had 10 lightning bugs, six shippers, 15 mosquitoes, 12 flies, two daddy-long-legs, nine spiders and a thousand-legged for dessert."

"I couldn't get to sleep at all, and this morning I feel as if I'd swallowed all the world they dug out of the Panama canal."

Just then the fairman doctor came bustling in.

He looked at Forty's tongue and felt his pulse and took his temperature and then filled some bottles with pills.

"Here you are, Forty," said he kindly. "I know exactly what's wrong with you. Here are five kinds of medicine; one's for the pain in your ear, one's for the rheumatism in your toe, one's for the cold in your nose, one's for that tired feeling and the last is to give you an appetite."

DEATH OF DR. BERTRAND

Was Prominent Local Physician and Trustee of Public Library

Dr. Alexis B. Bertrand, of 27 West Fifth street, a prominent physician of this city, died yesterday at the New England Hospital after a long illness. Last November he submitted to a serious operation that was thought would bring back his failing health. He suffered a relapse, however, about three months later.

Dr. Bertrand, who was born here, entered Tufts Medical school after his graduation from the Lowell high school. In order to prepare himself for his vocation, he worked as a drug-

DR. ALEXIS B. BERTRAND

gist for a time and became a registered pharmacist; then entered medical school and received his degree of doctor of medicine. Dr. Bertrand had an office in the Munson building in Merrimack street.

Dr. Bertrand was very well acquainted with the political life of the city although he had never become a candidate for any office. For several years past he has been a member of the board of trustees of the city library, having been appointed by former Mayor Mehan, and reappointed by Mayor George H. Brown.

Dr. Bertrand was a member and physician of Court Samuel de Champlain, Foresters of America, and several other organizations. He was a member of the Lowell Athletic Club, the Lowell Golf and Country Club, and the Lowell Yacht Club.

He is survived by his wife, Margaret A. (O'Brien) Bertrand; four children, Paul A., Arthur L., M. Grace and Allen M. Bertrand; his father, Franklin Bertrand; three brothers, Dr. A. C. Bertrand, Leo and Ernest Bertrand; and two sisters, Evangeline and Alma Bertrand. The body will be removed to his home today by Undertaker Joseph Albert.

DIES OF WAR WOUNDS

Lt. Mackall Had Laid in a Bathtub for Three Years—Case Without Parallel

BALTIMORE, July 25.—Lieut. Milton B. Mackall, who for the last three years had lain in a bathtub at the Fort McHenry hospital as a result of a wound received in the World war, died early today. He was conscious almost until the last. His case was without parallel in the military annals of the country.

The wound which caused his paralysis and death, was suffered Oct. 16, 1918, when a German sniper shot him in the back as he crossed No Man's Land. One of the bullets pierced several vertebrae of his spine. Leading physicians of this country and Europe used all their skill to aid him in the fight against death.

WOMAN ARRESTED IN RAILWAY STRIKE

BUFFALO, N. Y., July 25.—Miss Mattie Weinberger, the first woman arrested here in connection with the railway strike, charged with possessing a deadly weapon, was released today. She had been arrested last night when she had been assigned to picket duty, but officers having taken the strikers' places.

"I don't want to be about my intentions in carrying that gun," said Miss Weinberger, who was released after a preliminary hearing.

A detail of police was assigned to the yard entrance to prevent clashes between the women.

OLNEY REFEREE IN ALLAN A. RYAN CASE

NEW YORK, July 25.—Federal Judge A. N. Hand today named Peter B. Olney referee in the matter of Allan A. Ryan, financier and stockbroker, who filed petition for preliminary injunction to prevent the liquidation of his assets.

Mr. Ryan's attorneys announced last night that liquidation of his assets would reduce the liabilities to \$18,000,000.

LOWELL DISTRICT COURT

Alleged Illegal Liquor Sellers Before Judge Pickman This Morning

With one fell swoop Lowell's vigilante liquor squad, headed by Sergt. Winn, pounced upon the premises of Demetrius Tsapalious at 414 Adams street last night and seized 50 quarts of beer and some stronger stuff.

Tsapalious was arraigned in district court this morning before Judge Pickman and had his case continued to Aug. 5. This continuance was granted so that an analysis of the seized liquor might be made.

From Adams street the liquor squad sped to 297 Moody street, where they picked up George Kalina, who was taken to the station and charged with illegal keeping. When the case came up this morning it was agreed to continue it to Aug. 5.

Sellah Omar, who had defaulted, was arraigned in court this morning charged with felonious assault, and was held over to a later date in the sum of \$5000.

A year ago last April, Omar was arrested by Officer Garvey and Sullivan in a house on Munson avenue, after the men had climbed through a window to get him. He was arraigned in court at that time and released on \$3000 bail. He jumped his bail and disappeared and the police have been on his trail for some time. It was found that he had been living in Manchester in Peabody last Friday night.

Officer Aldrich was sent there to get him and had trouble bringing him here to Lowell. Omar made several attempts to escape from the clutches of the law and the officer had an exciting time to quell his ambitions.

Thomas Kellogg, an old time acquaintance at the police station, was given a two month's vacation to the house of correction on a charge of drunkenness. John E. Bulmer drew a suspended sentence of three months to the same resort. It was his sixth appearance, but his employer spoke for him and he was allowed leniency.

Graydon A. Carr, entitled the support of an attorney in his case where he was charged with non-support of his wife, but it gained him nothing. The court found him guilty and handed down a three month's sentence to the house of correction. He appeared.

Ronald M. Thompson and Frank J. Ryan, both of Quincy, appeared with their parents in court this morning and the case was put over to Thursday morning. This case deals with the attempted assault with a pistol on George Brady one night last week. Thompson has been working at the Billerica car shops and averred that he was carrying the pistol for his own protection and to look after his car. Ryan was in Lowell to get authorization for the carrying of such a weapon. Ryan was arrested with him and the judge held him for further investigation because of his non-coincidental answers when he was put on the stand. Later a warrant was issued for the arrest of Ryan. A search was made out and he was found with the gun in his possession at the time of arrest.

TRANSFER OF LAMSON PLANT TO SYRACUSE

It is expected that the plant of the Lamson Co. in Walker street will be vacated the latter part of August, for the work of moving the machinery and other paraphernalia of the company to the new mill in Syracuse, N. Y., is being rapidly pushed. It was stated by the officials of the company this morning that about 100 of the skilled employees of the local plant will move to Syracuse, while about 100 members of the office force also will be transferred to the New York city.

Some members of the office force already have gone to Syracuse and others are expected to leave this week. The remainder of the clerks will not go until August 22, at which time desks and other office equipment will be shipped to Syracuse.

When asked what would be done with the Walker street building, an official of the company said the entire property is on the market and will be sold as soon as a purchaser is found.

The Lamson Co., which has been operating in this city for the past 40 years, has created a new plant in Syracuse, N. Y., where it will centralize its plant and Boston and Lowell offices. One of the officials of the company stated that the new plant is running fully 750 operatives will be given employment and it is expected that within a course of years the number will be increased to 1000.

SUN BREVITIES

Best printing, Tobin's, Associate bldg. J. F. Donohue, 222-223 Eldridge bldg. Real estate and insurance. Telephone.

Hot Point electric irons \$5.35. Telephone shop, 62 Central st.

Mr. and Mrs. F. J. Cassidy of 193 Lilley avenue are rejoicing over the birth of a daughter.

Mr. and Mrs. Thos. J. O'Rourke of 107 avenue will spend the next two weeks at Williamstown, Mass.

Miss Katherine McManis of Chatham is spending her vacation at the "Edora" cottage, Manchester.

Miss Ann M. Duffy, bookkeeper at McIntyre's Appliance shop, has returned after a pleasant two week vacation.

Mr. and Mrs. Joseph C. Greenhalge of 23 Webster street will spend the first two weeks of August at The White, N. H.

The sum of \$29,553 has been collected for poll taxes for this year, according to figures compiled in the city auditor's office. The sum represents the amount collected to date this month.

It will be of interest to horse fanciers to know that William B. Murphy, assistant secretary of the Horse Association of America, visited this city yesterday. He had quite a chat with Arnold J. Ryan, secretary of the Lowell Driving Club, relative to racing and horse raising. Mr. Murphy is making a flying tour of New England cities.

CANADA FACES COAL SHORTAGE

WHEN MARSHAL OTEY WALKER CLOSED HIS WATCH WITH A SHARP SNAP TODAY, THE STRANGER WHO HAS BEEN HANGING AROUND THE CENTRAL HOTEL JUMPED THREE FEET.

PELLETIER DISBARRED IN U. S. DISTRICT COURT

BOSTON, July 25.—Joseph C. Pelletier, former district attorney of Suffolk county, was ordered disbarred from practice in United States district court today. The order was signed by Federal Judge Mack of New York. The disbarment petition, which was filed by United States Dist. Atty. Robt. O. Harris, had been before the court for several months. Pelletier did not contest the proceedings, but some time ago, filed a general denial of the allegations, which were based on the decision of the Massachusetts supreme court in disbarring him from state court practice. Pelletier was removed as district attorney last February after an extensive hearing on charges of misconduct in office.

50,000 N. Y. GARMENT WORKERS QUIT

NEW YORK, July 25.—Practically every worker in the cloak and suit industry in this city—50,000 in all—left their jobs today in a general "go-home" strike against the smaller manufacturing establishments or "sweat shops" said a statement issued by Benjamin Schlesinger, president of the International Ladies' Garment Workers' union.

About 800 of the larger shops included in the 2800 vacated this morning will be permitted to resume work at once. Mr. Schlesinger said, as the Cloak, Suit and Skirt Manufacturers' Protective union controlling the shops have agreed to the workers' demand for a 44 hour week, pay for holidays and time and a half for overtime.

FOUND DEAD

Joseph Sloan Ends Life in Japanese Lodging House

SEATTLE, Wash., July 25.—Joseph A. Sloan, marine architect during the World war for the Sloan Shipbuilding Co., was found dead last night in a Japanese lodging house, shot through the head. Clutched in his right hand was a revolver with one chamber empty. He recently had complained of falling ill.

PH. CONNORS GOING TO NEW YORK

Rev. Arthur Connors, O.M.I., now stationed at the Immaculate Conception church, this city, will spend the month of August at St. Cecilia's church, Broadway, New York. Fr. Connors is a Lowell boy and for the past year has been on duty in Buffalo.

Paid-up Shares

OF THE
Lowell Co-operative Bank

ARE AN ATTRACTIVE FORM OF INVESTMENT FOR THE THRIFTY OF ALL CLASSES, FOR ESTATES, SOCIETIES, ETC.

Seventh, convenient size. The unit, or value of one Paid-Up share, is \$200. You may take as many as 10 shares, \$2000, no more. Eighth, the shares may be withdrawn practically at any time. The law allows a reasonable notice, if deemed necessary, but we never have required this.

U. S. MOVIES BLAMED

Responsible for Troubles of American Missionaries in the Orient

PASADENA, Cal., July 25.—American motion pictures are blamed for the troubles of American missionaries in the Orient, in a report from the women's board for foreign missions, presented here to the annual sessions of the Presbyterian synods of Arizona and California.

The report declares that the natives of Canton, Shanghai, Tokyo, Calcutta, Bombay and Jerusalem, viewing "western" pictures, concluded that all American men are "barbaric savages" who gamble for a living, drink whiskey like water, carry two guns and a bowie knife, and kill their fellow men as a pastime, and that American women are dance hall girls who smoke cigarettes, drink heavily and "sell themselves for a coin or a smile."

"In Jerusalem, within 100 yards from the grave in the garden where the Saviour of the world lay after his crucifixion," the report declared, "there is a movie run by an enemy of all righteousness, showing revolting and sensual pictures of American life. These people in foreign lands have no means of knowing that such presentations are a gross libel on the majority of our people."

TO REPAIR R. R. ROLLING STOCK IN SHIPYARDS

NEW YORK, July 25.—The use of shipyard machine shops for repairing the rolling stock of the railroads in the United States is the latest step in the campaign to save the shops. Some repair contracts are reported already to have been let and a general survey of shipyard plants is being made according to R. H. M. Robinson, president of the Merchants Shipbuilding corporation of Chester, Pa.

Representatives of 200 signalmen working on the Northeastern railroads and affiliated with the Brotherhood of Railway Signalmen of America, have announced the suspension of the strike order recently voted pending further negotiations with rail officials. The decision to suspend the strike order follows two days of conference here of 60 union representatives. The territory involved includes all of the United States from Maine to the Mason-Dixon line, east of Ohio.

ANOTHER CANDIDATE IN 14TH DISTRICT

John R. Mahoney of 100 Durant street, has taken out nomination papers at city hall for representative from the 14th district. He will attempt to win the nomination on the republican ticket.

Two nomination papers were filed today for Col. William A. Gaston, who is seeking the democratic nomination for United States senator. One paper has been filed for George E. Murray of Waltham, who seeks the republican nomination. One paper has been filed for James Jackson, who seeks re-election as state treasurer of the republican ticket. A paper for George S. Harvey of Malden, who seeks the republican nomination for district attorney of Middlesex county.

SEND THIS IN

Lowell, Mass., 1922

TO THE LOWELL HIGH SCHOOL ALUMNI ASSOCIATION

I hereby subscribe.....dollars toward the purchase and equipment of the Athletic Field.

NAME.....

ADDRESS.....

Class of.....

Make checks payable to EDWARD W. TRULL, Treas.

WALTER E. GUYETTE, Auctioneer

Office, 53 Central St., Lowell, Mass. Telephone 2415.

The Cottage Property and about three acres of land, more or less, situated on the northerly side of Pine Street in North Billerica, is hereby pledged to the highest bona fide bidder at unrestricted Public Sale on next Saturday, June 29, 1922, at 3 o'clock in the afternoon.

The house is in bungalow style, has five extra good-rooms on the one floor and is supplied with town water and hot water tank, cemented cellar, has open veranda and is in excellent repair inside and out. The building is comparatively new, having been constructed within the last two years.

The lot has a total area of about three acres and has a splendid street frontage. The land is level and is well laid out for garden.

The location is handy, the property being within about four minutes' walk of the Billerica electric car line.

Pine street is on the right hand side of Gorham street, the last street approaching from Lowell to Sprague's bridge, going to the north of North Billerica, and is a new development within a few years, about everybody owning their own home in the neighborhood and is handy to schools, churches, stores, etc.

The opportunity is herein presented to purchase at open competition a thoroughly modern village home with three acres of land that one can use as a small farm or subdivide into building lots in a fast developing home locality.

Terms—\$300 must be deposited with the auctioneer just as soon as struck off. Other terms made known at sale.

By order of LOWELL CO-OPERATIVE BANK, MORTGAGEE.

By Charles C. Brown, Treasurer.

COL. GASTON REPLIES

Says if He Favored Wool Tariff at All it Was on an Ad Valorem Basis

BOSTON, July 25.—Col. William A. Gaston, candidate for the democratic nomination for United States senator, in a letter to the Carded Wool Manufacturers' association, made public today, declared that if he favored a wool tariff at all, it was on an ad valorem basis. He said he was opposed to specific duties on wool and goods. The letter was in reply to a request for a statement of his position on the wool tariff.

"A tax of a fixed amount per pound on products which like wool and wool goods vary widely in value, is necessarily unjust," Col. Gaston wrote. "A tax on such products must be based on their value in order to be fair."

He asserted that he favored ad valorem duties because they were based "on justice to all the people."

"Under an ad valorem wool tariff," the letter stated, "the purchaser of clothing in which the wool costs \$2 will pay a wool-tariff tax just double that paid by the purchaser of a garment in which the wool cost \$1. That is even-handed justice. It is the traditional policy of the democratic party."

The letter, Col. Gaston declared, "illustrates the issue before the country in this campaign."

POLICE JOIN IN SEARCH FOR MISSING MAN

BROCKTON, July 25.—Deputy Marshal J. F. Morey ordered 40 early night patrolmen on duty at 9 a. m., to join battalions of Boy Scouts and 200 citizens who are searching the woods in the southeast section of this city and nearby East Bridgewater, for Earl Olson, 33, a henchman who has been lost since early Monday and for whom an all night search was unsuccessful.

TROOPS OF SUN YAT SEN DEFEATED

CANTON, July 25.—(By the Associated Press)—Troops of Sun Yat Sen, driving southward through Kwangtung province, are in an effort to recapture Canton for their leader, the deposed president of the southern republic, have been defeated in a number of skirmishes in the last two days in the vicinity of Shingchow, about 80 miles north of Canton, according to railway advices.

Sun's forces also are reported to have been defeated southeast of Shingchow in a battle, with considerable casualties on both sides.

The army loyal to Sun is said to be retreating in the direction of Ching, northeast of Shingchow.

CHARTER OF LEGION POST CANCELLED

TORRINGTON, Wyo., July 25.—The charter of the Denny O. Wyatt Post of the American Legion at Casper, Wyo., has been cancelled because of charges that gambling games were conducted in the post.

SEND THIS IN

Lowell, Mass., 1922

TO THE LOWELL HIGH SCHOOL ALUMNI ASSOCIATION

I hereby subscribe.....dollars toward the purchase and equipment of the Athletic Field.

NAME.....

ADDRESS.....

Class of.....

Make checks payable to EDWARD W. TRULL, Treas.

WALTER E. GUYETTE, Auctioneer

Office, 53 Central St., Lowell, Mass. Telephone 2415.

The Cottage Property and about three acres of land, more or less, situated on the northerly side of Pine Street in North Billerica, is hereby pledged to the highest bona fide bidder at unrestricted Public Sale on next Saturday, June 29, 1922, at 3 o'clock in the afternoon.

The house is in bungalow style, has five extra good-rooms on the one floor and is supplied with town water and hot water tank, cemented cellar, has open veranda and is in excellent repair inside and out. The building is comparatively new, having been constructed within the last two years.

The lot has a total area of about three acres and has a splendid street frontage. The land is level and is well laid out for garden.

The location is handy, the property being within about four minutes' walk of the Billerica electric car line.

Pine street is on the right hand side of Gorham street, the last street approaching from Lowell to Sprague's bridge, going to the north of North Billerica, and is a new development within a few years, about everybody owning their own home in the neighborhood and is handy to schools, churches, stores, etc.

The opportunity is herein presented to purchase at open competition a thoroughly modern village home with three acres of land that one can use as a small farm or subdivide into building lots in a fast developing home locality.

Terms—\$300 must be deposited with the auctioneer just as soon as struck off. Other terms made known at sale.

By order of LOWELL CO-OPERATIVE BANK, MORTGAGEE.

By Charles C. Brown, Treasurer.

R. R. Labor Board Sole Authority in Strike BLAZON WINS BUT WILL RESIGN Strikes May Bring Wholesale Shut Down

Government's Emergency Coal Control Program Will Begin to Function Within 48 Hours

TO PREVENT PRICE RAISING

Government Control Plan to Apply to All Coal Produced, Says Hoover

Action Follows Rejection of Government's Offer of Arbitration

No Cars Will Be Allocated to Those Who Tried "To Rob the Public"

WASHINGTON, July 25.—The government's emergency coal control program will begin to function within 48 hours.

Secretary Hoover, in making this announcement today said ratification of the emergency plan for distribution and restriction of unfair prices by the operators' association, was expected within 48 hours, but if co-operation was withheld in any district, the government would proceed to appoint the necessary local committee.

The emergency coal control plan, Mr. Hoover stated, was intended to apply to all coal produced whether in the non-union or union fields and it was indicated that service orders by the interstate commerce commission, providing priorities in the allocation of coal cars, might be expected almost immediately.

As regards the coal strike itself, continued to Page Five

PROMINENT TURK ASSASSINATED
TEFLIS, Republic of Georgia, July 25.—(By the Associated Press.)—Djemal Pasha, former minister of marine in the Turkish Unionist government, and later chief of staff of the Afghan army, has been assassinated here. Two Armenians are charged with the crime.

MUST DEAL WITH LABOR BOARD

Only Agency Through Which Government Can and Will Deal in R. R. Strike

Pres. Harding Holds Himself in Contact With All Actions of Board

WASHINGTON, July 25.—The railroad labor board remains the only agency through which the government can and will deal with the railroad strike situation, though President Harding is continuing to hold himself in contact with all actions which the board takes in the matter, it was said today at the White House.

TO PROBE THE COAL INDUSTRY

Borah Urges Creation of Coal Commission of Three Appointed by President

Would Ask Recommendations From Commission Regarding Nationalization

Also Feasibility of Governmental Regulation and Control of Coal Industry

WASHINGTON, July 25.—Creation of a federal coal commission of three members appointed by the president to investigate the coal industry and recommend legislation to congress, was proposed in a resolution introduced today by Chairman Borah, of the senate labor committee.

Recommendations would be required from the commission, "on the advisability or necessity of nationalization of the coal industry and the feasibility of necessary governmental regulation and control of the coal industry."

Other points on which recommendations are called for in the bill include: "Standardizing the mines upon the basis of their productive capacity and regarding the closing down of mines which by reason of their natural limitations fall below the standard."

WILL OPERATIONS RESUMED
MANCHESTER, N. H., July 25.—Operations were resumed in No. 1 mill, southern division, of the Ameskeag Manufacturing Co., this morning. This department will supply material for No. 3 mill. It is expected that a mill in the newly acquired Stark division will be opened this week. Police officials reported the largest number of operatives to enter the Coolidge mill since it was opened, July 17, this morning.

STRIKES WILL CLOSE PLANTS

R. R. Strike, Combined With Coal Walkout, Being Brought Home to Public

Industrial Leaders Announce Shut Downs Imminent Unless Strike is Settled

Unemployment, Rationing of Fuel and Crippling of Public Utilities Near

CHICAGO, July 25.—(By the Associated Press.)—The railroad strike combined with the coal strike, was being brought home to the public today through the announcements of leaders in several industries that unless a speedy settlement was reached, closing of the plants with resulting unemployment; rationing of fuel and food supplies, and a crippling of public utilities services would result.

Wholesale Shut Down Near Steel plants, especially in the east, will be closed on a wholesale scale if present conditions continue until August, according to the head of a large steel corporation. Industrial coal was said to be unobtainable at any price in New York. In Chicago, increases from \$5.25 to \$15.25 a ton in coal prices were announced. A shortage of coal cars in bluminous fields has caused an appreciable decline in production.

PENN. R. R. SAYS 42,836 SHOPMEN AT WORK

PHILADELPHIA, July 25.—The Pennsylvania Railroad Co. announced today that the 42,836 shopmen actually working on the entire system numbered 42,836, an increase of 1851 compared with a week ago. The normal average force is 56,000, the company stated. The movement of freight during the last week, the company stated, was the heaviest since the closing week of March when coal traffic was abnormally high. The on-time performance of freight and passenger trains has been normal, said the statement.

SPRINGFIELD, July 25.—Master Mechanic F. A. Butler, of the West Springfield Boston & Albany shops said today that the shops here had all the men needed in certain branches and that applicants were being turned away.

LAWRENCE, July 25.—Because he has been informed that certain Lawrence police officers are in the habit of covering their backs in their own automobiles Alderman Peter Carr, head of the police department, today issued orders prohibiting all patrolmen from riding in automobiles on street cars during their period of duty excepting in the case of an emergency. Henceforth all beats must be covered on foot, the alderman stated.

COAL POLICY OF WHITE HOUSE

Government to Continue to Furnish Protection to Men Willing to Work

To Put Into Motion Machinery Decided Upon for Distribution of Coal

Other Steps May Be Taken if Coal is Not Produced in Sufficient Quantities

WASHINGTON, July 25.—The immediate policy of the government in the coal strike situation was declared at the White House today to be a continuation of its endeavors to furnish protection to men willing to work in the mines and to put into motion the machinery decided upon for distribution of the dwindling coal supply.

TO RECOGNIZE NEW R. R. UNIONS

Labor Board States Position on New R. R. Labor Unions Proposed by Carriers

Recognition Providing Union Can Prove Membership Contains Majority at Work

CHICAGO, July 25.—(By the Associated Press.)—New railroad labor unions proposed by the carriers will be recognized by the railroad labor board whenever they come before that body with a dispute, providing they can prove that their membership contains a majority of the men then at work on the roads affected, board members said today.

At the labor board it was said that more than a score of telegrams from workmen who represented themselves as sponsors of the new unions had been received, showing what attitude the labor board would take.

Chairman L. E. Loebe of the eastern group of carriers, recently announced that the roads in his territory would form new unions and was understood to have called a meeting of eastern railroad presidents today to discuss the plans.

Board members explained that under the transportation act they had no alternative in the matter. The act, it was explained, provides nothing which would justify the board in taking any action toward recognition until the unions in question officially appeared before the board in a plea for settlement of a dispute between them and the carriers.

Blazon Reinstated As Assessor But Will Resign From Board As Soon As Officially Notified

MAN ELECTROCUTED AT BAY STATE STORAGE & WAREHOUSE BUILDING

Henry Quebec of Crane's Avenue Killed While Doing Repair Work in Elevator Well—Is Believed to Have Come in Contact With Heavy Voltage Wire—Leaves Wife and Five Children

Henry Quebec, aged 36 years, residing at 9 Crane's avenue and employed as general repair man by the Bay State Storage and Warehouse Co. in the Burgess-Lang building in Middlesex and Jackson streets, was electrocuted this morning when he came in contact with a live wire in the elevator well on the Middlesex street side of the building. The body was viewed by Medical Examiner E. B. Smith and was later removed to the funeral parlors of Undertakers C. H. Molloy's Sons.

Shortly after 8 o'clock Quebec went up in the elevator shaft to do some repair work and a few minutes later was found lying on the floor of the pen, life extinct. John Rodgers, the elevator man, discovered the body.

After viewing the body, Medical Examiner Smith stated he would not determine the cause of death until after a thorough investigation but employees of the Lowell Electric Light corp., who visited the premises later, found places of human skin in the switchbox of the elevator, which gave credence to the belief that he had been electrocuted.

Quebec leaves his wife, Mrs. Rosa Quebec and five children, Rose, Dorothy, Elizabeth, Francis and Charles; also three brothers, Charles, of Brooklyn, N. Y., Edward of this city and George of Mattapan, and a sister, Mrs. Bert Robby of this city. He was an attendant of St. Patrick's church.

Federal Probe of N. E. Labor Conditions
WASHINGTON, July 25.—Investigation by the senate labor committee of labor conditions in the cotton industry of New England, was proposed in a resolution introduced today by Senator Gerry, democrat, Rhode Island.

SAYS ONLY 500 WORKING
Chairman Hanley Gives Figures on Help Now in Massachusetts Mills

The latest development in the strike at the Massachusetts mills is the transfer of a number of operatives from the Prescott plant of the company to the Massachusetts building, which took place this morning, according to John Hanley, chairman of the strike committee. Mr. Hanley stated, that in his opinion the transfer was made to effect a concentration of help now working into one building.

Commenting on the number of hands working at the mill, Mr. Hanley said that instead of 1500, the total is nearer 500. "The mill is badly crippled and the payroll at the present time does not contain 500 names, and those who witness the going in and coming out of the operatives will corroborate my statement," said Mr. Hanley. "If Mr. Mitchell has as many operatives at work as he claims, he would not be forced to transfer his help from one mill to another."

Arrangements have been completed by the strikers for a mass meeting on the North common tomorrow evening at 7 o'clock. The gathering will be addressed by a man in the Greek tongue. Sunday evening at 7 o'clock another mass meeting will be held on the South common and the principal speaker will be John L. Campos of Fall River, who will address the Portuguese-speaking people in their own language.

The manager of the Kaelmo in Thorndike street has donated the free use of his dance hall to the strikers for every Thursday evening during the summer months. Dances will be conducted there for the benefit of those who are out of work, the first in the series to be conducted next Thursday evening.

Agent Says 1000 Working
Agent William A. Mitchell is credited with the statement today that more than 1000 hands now are at work and that a gain of 11 operatives has been made this week to date.

WILL DRAW PAY FOR TIME LOST

Justice Rules That Election of Wilfred J. Achin Was Illegal

Says Council Had No Right to Designate Man Latter Was to Succeed

A writ of mandamus reinstating Albert J. Blazon to his former position as principal assessor of the city of Lowell will be issued by Justice Crosby of the supreme judicial court.

In a statement made this afternoon Mr. Blazon said that as soon as he is officially notified of the court's decision, he will tender his resignation.

This announcement was made today by Justice Crosby at a session of the court held in Boston after reviewing arguments presented to him last week. He stated that if the city solicitor objected to his finding, he would bring the case to the attention of the full bench of the supreme court, but Mr. Tierney accepted the finding, stating that the mayor will send in the name of Wilfred J. Achin to succeed Mr. Blazon at the next meeting of the council, which will be on Aug. 17.

The granting of the writ means the reinstatement of Mr. Blazon to the board of assessors and also makes it allowable for him to draw his salary for the time that he has been out of office.

It will be remembered that several weeks ago Wilfred J. Achin's appointment to the board of assessors was sent to the city council by Mayor Brown, but the appointment did not state who Mr. Achin was to succeed.

The council in confirming the appointment designated him to succeed Mr. Blazon. The latter petitioned the supreme judicial court for a writ of mandamus to force the members of the city council, the mayor and members of the board of assessors to recognize him as an assessor on the ground that the election of Mr. Achin was illegal owing to the fact that the power of naming his successor was not vested in the city council, but in the mayor.

The case was first heard two weeks ago by Justice Crosby, who asked for prepared arguments. These were presented to him last Thursday and his decision rendered today.

City Solicitor Tierney and Melvin G. Rogers, the latter of the firm of Quinlan & Rogers, counsel for Mr. Blazon, appeared before Justice Crosby in Boston this morning and the judge announced that he would issue the writ of mandamus prayed for by Mr. Blazon, on the ground that the city council had no power to designate Mr. Blazon's successor, and that such power was vested in the mayor only. It is expected that the writ will be issued immediately.

SHOT HER FIVE TIMES
Woman Refuses to Push Case Against Her Husband—Hold Him in \$2500

NEW YORK, July 25.—Counsel for George Maher, whose wife recently refused to prefer charges against him for shooting her five times, when he found her with another man, today sought dismissal of a charge of assault on the ground that the shooting had shown the young couple that they were in love with each other. Magistrate Leta in Flatbush court rejected Maher's plea and ordered him held in \$2500 bail for the grand jury.

TO HOLD EXAMINATION FOR POSTMASTERSHIP

An examination for the position of postmaster in Lowell, made vacant by the resignation of Postmaster John F. Meahan, effective March 9 of the present year, will be held on Aug. 25 according to an announcement made today by the United States Civil Service board.

The examination will not be under Continued to Page Five

BIG DISTILLERY FOUND

\$15,000 Worth of Liquor

Seized in Dorchester—

Three Men Arrested

BOSTON, July 25.—When Chris N. Lucas, 1332 Dorchester ave., Emilio Neyri, 133 West Concord street, South End, and Archilles Snyder, 1332 Dorchester ave., were arrested yesterday by Patrolman McMurray of the Fields Corner police station, the Dorchester police nipped what they believe to be the plot for the establishment of a wholesale illegal liquor business. Lucas was driving a large automobile truck through Park street. Near Dorchester ave. it stalled, as Officer McMurray was following it, debating with himself as to just what his procedure should be to find out the contents of the truck. He was sure it was liquor, because he had trailed Lucas for several days, and furthermore, he got a whiff of the contents as he spoke to the driver.

Sgt. John J. Larden, who had detailed McMurray to watch Lucas, also conveniently happened along. A signal from McMurray sent the sergeant in a hurry to the Dorchester court for a search warrant. McMurray engaged the driver of the truck in conversation. Sgt. Larden, returned with the necessary paper and uncovered on the strength of it 520 gallons of alcohol, said to be 135 proof, in one-gallon containers neatly packed in large cartons.

The three men and the outfit were taken to Station 11. The goods were stored away in the station house and the defendants assigned in the Dorchester court charged with keeping and exposing liquor for sale. Each was fined \$75 by Judge Merritt. Lucas was taken to the station after the trial and the other two released.

As a result of conversation with Lucas, Sgt. Larden secured a search warrant and raided a barn in the rear of 223 Freeport street, near Glover's Corner. The raid produced 47 5-gallon containers, six 1-gallon cans all filled with alcohol, and eight cases, each containing six dozen pint bottles of alcohol. Two 500-gallon stills, 350 empty brand new tin containers, one up-to-date hydrometer, funnels, bottles galore, corks and other paraphernalia used in the manufacture of liquor were also taken.

The value of the liquor is estimated at \$15,000. Sgt. Larden was assisted in the raid by Sgt. Edgar F. Palmer, Officers McMurray, Kennedy, Fenderson and Maher. It required four trips of the wagon to convey the stuff to the station and a large crowd collected to watch proceedings.

The barn had been elaborately filled up. The stills rested on massive gas stoves that had been connected with the street pipes of the gas company, illegally. It is alleged, and water was being supplied by an illegal connection with the water pipes in the street. It is also alleged by the police.

Lucas, when arrested, refused to say anything about what he had on the truck. When asked where he was going with the load, Lucas said he was delivering it to a strange man on State street.

Radiographs

If You Cannot Erect Aerial on the Roof, Use Mother's Clothesline

If you live in an apartment house and the landlord won't permit you to put up an aerial, here's a way to fool him:

Buy a clothesline aerial!

It's a string of antenna wire camouflaged as a clothesline.

But it is just as useful to mother for hanging out the wash as it can be to you for receiving radio messages.

Every radio enthusiast knows that antenna wires need not be bare to catch the high frequency waves. These electric oscillations will enter the wire even through an insulation. So the cord around the antenna of the clothes line type is no hindrance to the reception of radio messages.

All that is needed is to attach a lead-in from the clothesline to the receiving set. The lead-in, also, may be part of the camouflaged clothesline.

The picture shows how this is done. In this case, Daniel Callahan and Joseph Early, young radio fans of New York, fooled their landlord by the clothesline method.

RADIO SUGGESTIONS

How to Test Efficiency of Super-Regenerative Receiver

BY PAUL F. GODLEY

America's Foremost Radio Authority (This is the last of a series of articles on the Armstrong super-regenerative receiver.)

If there is any difficulty in putting the super-regenerative receiver into operation, test each of the vacuum tubes separately.

With one of these working, place the telephone receivers in the plate circuit of the tube until you are satisfied that it is operating properly.

Using the telephone in the circuit of any of the tubes will not affect the operation of the circuit. If the phones are all at times shunted by a by-pass condenser.

For example, placing the telephone in the plate circuit of the oscillating tube will enable one to ascertain whether the radio frequency oscillations are present.

If there are not, something is wrong. Either the tube is not oscillating, or, if it is, the frequency of oscillations is too high to be heard and full amplification cannot be derived from the circuits as a whole.

Oscillations. In determining whether a circuit is oscillating, it is only necessary to touch its grid terminal. If a "click" is heard in the telephone, both when the finger touches and when it is removed from the grid terminal, there are oscillations.

The degree of coupling between the grid and the wing (plate) circuits of the regenerative tube will have to be much greater for super-regenerative operation than for oscillatory indication when the tube is operating alone.

With some makes of tubes, this coupling will have to be somewhat closer than that provided with the variable capacitor arrangement shown previously.

To accomplish this, the variable capacitor may either be rewound so that it carries 50 per cent. more turns, or the tube which supports the grid circuit winding may be sufficiently large to slip over the variable capacitor half way.

Ethelind Terry, Musical Revue Star, Tells Secret For Having Beautiful Teeth

BY ETHELIND TERRY
Star of "The Music Box Revue,"
Whose Perfect Teeth Are Celebrated

Why teeth leave home is a question being thoroughly investigated these days.

More than ever before, we are interested in keeping our teeth with us to the end and in making them comfortable and happy in their surroundings.

This, because we know that aside from being unsightly and causing us pain, bad teeth are the cause of many diseases.

The entire beauty of the mouth depends on the teeth.

You may have a Cupid's bow or rosybud lips, but if you can't part them in the middle and reveal nice white teeth you can't call your mouth your beautiful feature.

A reliable dentist is your first aid. He should examine your teeth twice a year and see that all the cavities are promptly filled, and that the gums are in a healthy condition.

But the daily care, what really counts, is up to you.

Remember to include in your diet a little coarse bread and some foods that require chewing. Then chew. That gives the molars a little healthy exercise and keeps them strong and fit.

Have a session night and morning with the tooth brush, and remember the scientific way to go about this is the up-and-down method instead of the cross-country route. This enables the bristles to pass between the teeth.

After each meal, when you are alone, use dental floss to remove any particles of food that may have found a temporary lodging place in a molar. Left to its own devices, it may gather about it a few germs and start a little decay party.

"Our floors are more than clean"

"Some housekeepers think that thorough and frequent scrubbing is all that floors ever need. I had that idea, too, before I realized that average soaps and scouring compounds haven't any effect on germs which get into floor cracks and crannies.

"Sarah Marsh enlightened me. She popped in one Friday morning while I was napping up the mud the Harrigan boy always brings into the kitchen when he delivers the meat. I don't believe he knows a door mat when he sees one right under his nose.

"Sarah watched me fill a fresh pail of scouring soda. 'Goodness gracious, Ethel!' she exclaimed, 'Why don't you use Sylpho-Nathol in your mop-water? How do you expect to destroy the germs in the dirt that's brought in from the street on people's shoes? Did you ever stop to think of the positive danger that is tracked back and forth across your floors from morning until night?'

"That's how I was introduced to Sylpho-Nathol.

"Sylpho-Nathol is an effective safeguard against germs because it is 4 1/2 times stronger than carbolic acid. But it doesn't hurt your hands a bit, nor injure things. The druggist says it is as safe to have in the house as a cake of scouring soap. Just a tablespoonful in a pail of warm water makes a clean-smelling, pearly-grey solution that's ready for immediate use."

Mop-water is just one of the many things for which Sylpho-Nathol is indispensable. It should be used regularly for sink drains and garbage receptacles; for cellar corners; around the bathroom tiling and fixtures; as a flush for the closet bowl—wherever odors may start or disease germs breed. Sylpho-Nathol comes in four handy sizes, 15c, 35c, 65c, \$1.25. Most good grocers and druggists have it. If yours hasn't, he can get it easily. Just ask for it by the name—"Sylpho-Nathol."

SCORES GEN. SAWYER

Col. Sprague Accuses Harding's Physician Blocking Proper Care of Soldiers

CHICAGO, July 25. (By the Associated Press.)—Col. A. A. Sprague, chairman of the American Legion's national rehabilitation committee, in a letter to Brig. Gen. Charles E. Sawyer, personal physician to President Harding and chief co-ordinator of the federal board of hospitalization, made public today, charges that Gen. Sawyer is standing in the way of proper care for wounded and shell shocked veterans and holding up hospital plans voted by congress.

Appealing to Gen. Sawyer to "stand aside" Col. Sprague said more than 4000 mental cases still are confined in contract institutions and that of the remaining 4715 victims of mental disorders only 3500 are in government institutions devoted entirely to their care.

FERGUSON LEADS SEN. CULBERSON BY 16,000

DALLAS, Tex., July 25.—Leading Senator Charles A. Culberson by more than 16,000 votes on the face of latest returns from state-wide democratic primary, James E. Ferguson, former governor, seemed assured of being in the run-off Aug. 26, with Earle Mayfield, who now holds first place in the senatorial contest by a margin of nearly 20,000 votes. Mayfield, who has served as state railroad commissioner for a number of years, was generally regarded as having the support of the Ku Klux Klan, although he did not make the Klan an issue in his campaign. Ferguson and Culberson opposed the Klan.

Governor Pat M. Neff has been nominated for re-election over three other candidates and will not participate in the run-off. Governor Neff ignored the Ku Klux Klan question in his campaign, but was considered to have had the support of the Klan.

Congressman Thomas E. Blanton, who has been a conspicuous figure in the lower house since his election thereto, has a lead of 12,000 votes over his nearest opponent and his re-election seems assured.

Mrs. Edith Williams, candidate for the state house of representatives from the Dallas district, maintained her lead over John E. Davis. In the event of her nomination, she would be the first woman to sit in the Texas legislature.

PURCHASING POWER OF FARM PRODUCTS SLUMP

WASHINGTON, July 25.—The purchasing power, or exchange value of farm products slumped four points between March and June, to 72 per cent of the 1914 basis in the latter month, according to statistics made public today by the department of agriculture.

The buying power of farm products in terms of other products stood at 76 per cent in March, having advanced from 65 per cent in January, which was a rise of three points over the low mark touched in November, 1921. From December to March, the statistics disclosed, the output of farms increased in price more rapidly than did commodities the farmers needed to buy, the percentage climbing to 71 by February and five points higher by March. Since that time, however, the price movements have been reversed, farm products winning in less degree than those things required by the farmer, though more gradually than the preceding movement, the index dropping one point for April, two for May and one for June.

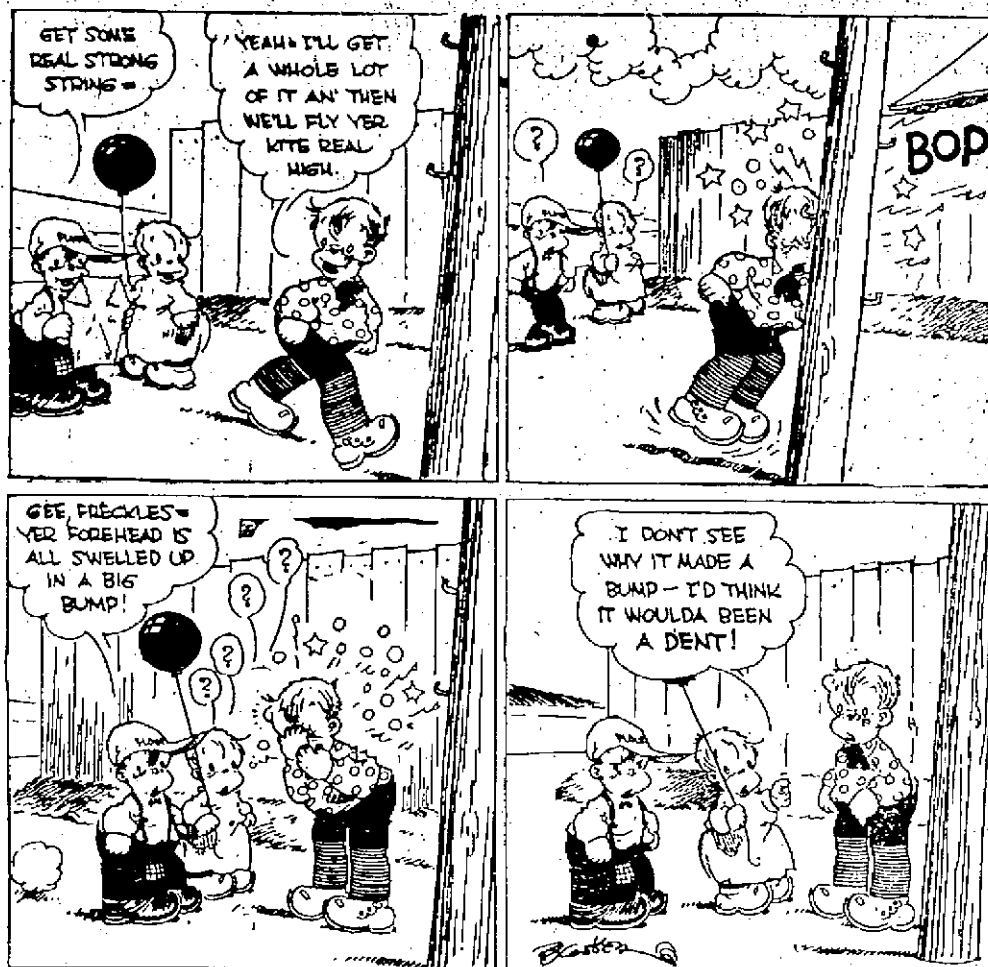

GOOD TEMPLARS ELECT OFFICERS

BUTTE, Mont., July 25.—Officers were elected yesterday at the annual convention of the Grand Lodge, Independent Order of Good Templars. They include: Chief templar, Rev. Edwin C. Dinwiddie, Washington, D. C.; counselor, Harry E. Wellman, New York; superintendent of juvenile work, Mrs. E. J. Chandler of New Hampshire; secretary, Willard O. Wylie, Massachusetts; treasurer, Albert Sutcliffe, Massachusetts; past chief templar, Dr. C. A. Carlson, Ohio; superintendent temperance education, Miss Laura R. Yarnall, Washington, D. C.; chaplain, Harvey Penberthy, Washington; marshal, C. Wilmer King, Delaware.

Coolidge and Davis to Speak

WELLESLEY, July 25.—Vice President Calvin Coolidge and Secretary of Labor Davis are expected here next week to address the ninth annual Wellesley Industrial conference, it was announced today. The meeting will be attended by leading business men of the country. Mr. Coolidge is scheduled to speak on Aug. 2, and Secretary Davis on Aug. 5.

FRECKLES AND HIS FRIENDS

2120 AUTOS RECOVERED

2733 Persons Arrested for Interstate Traffic in Stolen Motor Cars

CHICAGO, July 25.—Motor cars numbering 2120, valued at more than \$2,500,000, have been recovered by the bureau of investigation, United States department of justice, and 2733 persons have been arrested on charges of interstate traffic in stolen motor vehicles since the passage of the Dyer anti-theft automobile law, figures issued today by the American Automobile association show.

VILLAGE TERRORIZED BY MOONSHINERS

MINNEAPOLIS, Minn., July 25.—Terrorized they said by moonshiners overrunning the district, citizens of Kinsdale, 40 miles south of Duluth, today appealed to state and federal authorities for aid, declaring their village had become a center of organized liquor dealings, extending throughout Minnesota.

Citizens told Governor Proctor of a raid last winter when 12 armed men rode through one street, shooting out windows and firing at people in the streets. They never were captured. Later there were wild dances and liquor orgies with fights constantly occurring.

INVITED REPORTERS TO "SEE REAL SUICIDE"

NEW YORK, July 25.—After writing several notes to newspapers requesting that someone be sent "to see a real suicide" and another to a relative to have his body cremated and the "ashes sent to the head of the brokerage firm where he did his trading to fertilize his lawn," a middle-aged, well-dressed man jumped from a ferryboat in the Hudson river early today and was drowned. Other messages, which he left in his hat, carefully placed on the deck before he climbed to the rail to jump overboard, stated that he had lost all his savings speculating in stocks. The body was not recovered.

EXERT EVERY EFFORT TO REOPEN MINES

COKEBURG, Pa., July 25. (By the Associated Press.)—While state militiamen, with regimental headquarters here are preserving order in the Pigeon Creek valley mine district, operators are exerting every effort to reopen their mines with non-union workers. Thus far, the efforts of the operators to obtain open shop workmen sufficient numbers to turn out coal in large quantities have been unsuccessful.

UNUSUAL DEATH RESULTS IN SUIT

MANCHESTER, N. H., July 25.—James E. Bannigan, a Manchester attorney, was given instructions yesterday to bring suit against the parties responsible for the condition of the highway at York Beach, Me., which, it is alleged, caused the death of Mrs. K. E. Haglund, of Lawrence, Mass. Bannigan was riding in a sedan, and in passing over a culvert, it is claimed that the jounce was such that she was lifted upward against the top of the car with the result that her neck was broken.

Vacancy in Lawrence Postoffice

LAWRENCE, July 25.—There is a vacancy in the Lawrence postoffice. The pampered, sleek office not recently officially appointed by the employees, today is again out in the cold, unfeeling world. During the night the cat, making her rounds, was attracted by the smell of parcel post chicken. In the morning the package was found open and the several day-old chicks were missing. The cat was convicted on circumstantial evidence.

Two Held in Connection With Drowning

PITTSBURGH, July 25.—Two men were in jail here today in connection with the drowning of William G. Githens, who died while attempting to free himself under water from thongs which bound his hands and feet. Two companions to whom he had boasted of his ability to escape from knotted cords, tied Githens at his request, police said, and dropped him into the river. He rose to the surface screaming and attracted nearby bathers. They were too late to resuscitate him.

Was With Missing Boy For Four Days

PAWTUCKET, R. I., July 25.—Howard Bentley of 17 Miller street, this city, told the Pawtucket police that he was with James M. Cox, the missing Danvers, Mass., boy from July 3 to July 7. Bentley, who is 19 years of age, was on a bicycle trip, and met young Cox, also on a bicycle, in Concord, N. H. The lads parted in Bloomfield, Vt., when young Cox said he was going to Ogdensburg, N. Y., to visit his grandparents.

With Fresh Fruit

SERVE Jersey Ice Cream frequently with fresh fruits as they come in season—on a heaping dish of Jersey, or a generous slice from a "Tripl-Seal" brick of vanilla cream. Crush a little of the fruit to make a sauce and pour over the ice cream, adding a few whole berries or bits of the fruit.

The fruit flavors make a delicious combination with the smooth richness of the pure Jersey cream. Try one of these different Jersey desserts.

HOOVER'S PLAN SEC. HOOVER TO ADDRESS

IS ACCEPTED RADIO CONFERENCE

Governmental Coal Operators and Railroads Agree on Plan to Meet Shortage

Harding to Name Federal Board to Control Car Allotment and Distribution

WASHINGTON, July 25 (By the Associated Press).—Agreement upon a tentative plan for distribution of coal and for restriction of unfair prices was announced yesterday by Secretary Hoover after a series of conferences during the day with representatives of producing operators, the railroads, the interstate commerce commission and other departments of the government. The plan, which was described by Atty. Gen. Daugherty in an opinion as "entirely legal," is to be discussed further today by the conference and the agreement of the operators present is dependent upon the approval of their various associations.

Under the plan President Harding would appoint a committee which would have general supervision of the measures to be adopted for emergency fuel control designed to safeguard the public from an impending coal famine. Application of the laws governing interstate commerce, though with interstate commerce commission would enable the allocation of freight cars to be governed by the maintenance of fair prices for coal among the operators.

Hoover's Tentative Plan

The tentative plan follows: "A committee in Washington, to be appointed by the president, of representatives of the department of commerce, the interstate commerce commission, the department of interior, to be designated the presidential committee. This committee to have general supervision of the measures to be taken hereunder and to authorize the execution of such of these measures as may be necessary. "Administrative committee, comprising representatives of the presidential committee, together with representatives of operators, representatives of the railroads, and where necessary, representatives of the larger consuming groups. "The presidential committee will establish a representative by each coal producing district. "Committees of Operators. "The presidential committee will appoint a committee of operators in each district to be nominated by the District Operators' association or independent operators (in case of failure of the operators to take such action, the presidential committee may appoint such committees). The members of these district committees may be changed as determined upon by the presidential committee. "The presidential committee will cooperate with the interstate commerce commission in carrying out preferential orders issued by the commission. "The government representatives in the districts, with the co-operation of the district committees, shall advise the agencies of the interstate commerce commission as to local coal movement, so as to effect the purposes of this plan. "The operators will proceed with their usual business until they are affected by preference orders. "Allotment of Cars. "It is expected that the district committees under the authority of the presidential committee will recommend the allotment of cars on the basis of those who conform to the fair price plan agreed upon with the presidential committee. "When the operators demand, then suitable guarantees shall be given for payment by persons buying under preference orders. "The railroads will be requested to appoint a representative to deal with purchases of railway fuel. "The basis of prices agreed upon between the operators and the secretary of commerce on June 1 are to be maintained, except as varied by the presidential committee, and this same basis of price determination shall be applied to all districts which are so far not co-operating. "The whole of the above is tentative, pending further consideration by the interstate commerce commission, the department of justice, department of interior and the department of commerce."

Mr. Daugherty's Opinion

The program, Mr. Hoover declared, was "entirely legal," by Mr. Daugherty in his opinion attesting the legality of the plan. "As I understand it," Mr. Daugherty said, "your plan is to form a committee which will have the sole purpose to be to meet the emergency in distribution and allotment of coal, and to apply to the interstate commerce commission to promulgate rules governing car distribution during the existing shortage of coal, and that the available equipment can be placed at mines affording the greatest opportunity for its service and to charging for its use no more than is fair and just. "Between two mines whose output during the same period of time is the same, your plan contemplates favoring the mine in the supply of cars which charges the public fair prices as against the mine which charges an excessive price. Whatever can be obtained, however unwarranted and extortionate the price may be. "To Promote Public Welfare. "You have no purpose other than to promote the welfare of the public by the use of the plan of distribution designed to maintain national life itself and to restrain extortion by the stern hand of repression. The plan is to be applied to the coal and miners furnish you with statistics along the lines just mentioned, thus enabling you to limit to time whatever information is necessary to enable it to give proper and intelligent directions. "Thus acting you intend to represent the commission as one of its designated agencies, or to go before it in the name of the commission, in order to meet the emergency. "In view of all these conditions causing the present emergency, it is clearly in the public interest to give proper and intelligent directions. "In my opinion the plan is entirely legal. It will pay you to get the Sun to print this advertisement. I feel

Exam for Postmastership

Continued. The salary attached to the Lowell postmastership is \$4,000 per annum. In order to be eligible for examination the candidate must show that for at least three years he has been engaged in an occupation in which he has demonstrated ability to conduct the affairs of a business to the extent required of a postmaster of the post-office for which he is a candidate. He must be a citizen of the United States, must be in good physical condition, must actually reside within the delivery of the office for which he is a candidate, and must have been a resident for at least two years next preceding the date of examination, and he must have reached his thirtieth birthday on the date of the examination. Application blanks Form 2241, may be obtained at the local post office or at the civil service commission, Washington, D. C.

Do Not Violate Sherman Law

In concluding I want to say that I have no hesitancy in advising you that in my opinion, where and when an emergency exists on account of the shortage of coal for use in the transportation of the mails and when the price of coal for such purposes and for the general use of the public has been unjustifiably and unbearably increased by operators who produce a large supply, associations such as your mine and coal operators' association, under governmental agencies to meet the existing emergency, more especially to distribute coal to the public, are legal and do not violate the Sherman law, or the so-called Sherman anti-trust law or any other federal law. "In carrying out such a plan for the sole purpose you propose to perform some form or corporations chosen by governmental agencies to assist you, as long as they act in good faith to the benefit of the public and under governmental agencies and not otherwise, will violate no law of the United States. "It will pay you to get the Sun to print this advertisement. I feel

Two Women Tell How Lydia E. Pinkham's Vegetable Compound Stopped Their Suffering

Iron Mountain, Mich.—"I had terrible pains every month and at times had to go to bed on account of them. I saw your advertisement and took Lydia E. Pinkham's Vegetable Compound with very good results. I can work all day long now at my sick time. You may use these facts as a testimonial, and I am recommending the Vegetable Compound to my friends."—Mrs. A. H. GARLAND, 218 E. Brown St., Iron Mountain, Michigan, Kenia, Ohio. "Every month I had such pains in my back and lower part of my abdomen that I could not be quietly in bed. I suffered for about five years that way and I was not regular either. I read an advertisement of what Lydia E. Pinkham's Vegetable Compound had done for other women, so I decided to try it. It surely has helped me a lot, as I have no pains now and am regular and feeling fine."—Mrs. MARY DALE, Route 7, Kenia, Ohio.

Lydia E. Pinkham's Vegetable Compound

is a medicine for women's ailments. It is especially adapted to relieve women. If you suffer as did Mrs. Garland or Mrs. Dale, you should give this well-known medicine a thorough trial.

GOOD WILL DELEGATION SETS FINAL SEAL ON TREATY MANDATES

LONDON, July 25.—(By the Associated Press).—The mandates created under the peace treaties were given final seal of approval by the council of the League of Nations at its last sitting yesterday afternoon.

Mr. Viviani, of France, presided at the council's action as a solemn and important accomplishment for the league and the full of significance and historic interest.

In an eloquent but restrained address the Earl of Balfour outlined Great Britain's future policy in Palestine, which he said, would be one of strict impartiality and justice in which all traditional rights, sentiments and religious feelings of the different racial groups would be respected and held inviolate. He predicted great material prosperity, rapid advancement and fuller privileges for the Arabs and others under the new administration and he pledged earnestly that all should forget the past with its radical animosities and prejudices and should strive loyally for the peace, prosperity and common good of the whole country.

Mr. Viviani, who arrested the immediate attention of the large and distinguished public audience by his oratory and animated gestures begged the newspapers to believe that the secret sessions of the council during the past week were in the interest of an amicable and speedy solution of the many difficult and delicate problems which could not be settled otherwise.

There cannot be any more from the league than you can get from a court of justice," he said. "I am proud to say that the members of the council were not always in agreement. The newspapers are quite right in their objection to secret diplomacy; that is not our purpose or intent, but we must have a certain amount of privacy if we are to reach harmonious decisions."

There were no serious difficulties between France and Italy regarding the mandates, continued Mr. Viviani, who expressed confidence that the negotiations on minor points which were proceeding would result in a complete understanding.

Marquis Imperiale, for Italy, and Count Quintana de Leon, Spanish ambassador to France, also spoke, congratulating the league on the successful issue of the mandates question. Attention was diverted from the formal proceedings for a moment when Marquis Imperiale announced that tomorrow would be the Earl of Balfour's 76th birthday anniversary and he congratulated him in behalf of his colleagues on his long and brilliant career and testified to the warm affection in which he was held by the whole world. Lord Balfour was visibly surprised and affected by the unusual procedure, but responded with a feeling speech.

WOULD MEDIATE MINE STRIKE

ROCKFORD, Ill., July 25.—Acting Governor Fred E. Sterling today offered his services as mediator in the mine strike. In a telegram sent to Frank B. Taylor, president of the Illinois United Mine Workers.

Strikes Will Close Plants

Continued. strikes were assuming was seen in the statement of H. B. Trumbower of the Wisconsin railroad commission that if the coal strike lasted an additional two weeks rail transportation in that state would be at a standstill.

Washington Street. Official Washington still maintained silence on the rail situation, but it was confidently expected that President Harding would begin action to end the shopmen's strike during the week. In some quarters it was believed that the next move might come through the railroad labor board.

If you want to buy, sell, rent or exchange anything, a Sun classified adv.

LOOKS LIKE THE REAL THING

Look at this smash-up of locomotives. You haven't read a line in the papers about it. They were wrecked just to give a note of realism to a movie filmed in California.

FUNERAL

CHAMBERLAIN.—The funeral of Chamberlain W. Chamberlain, a veteran of the Civil war who died at the Soldiers' home in Elton, N. H., last Sunday, aged 90 years, took place this afternoon. The body was brought to Lowell and services were conducted at the grave in the Edison cemetery by Rev. Thomas J. Ingram of Manchester, N. H. Local arrangements were in charge of Undertaker Saunders. Deceased was a former resident of this city and had served in the 10th N. H. Regiment in the Civil war.

To Prevent Price Raising

(Continued) Mr. Hoover declared the government had exhausted every means toward a settlement that it had offered arbitration which had been rejected, and that the matter to be taken care of now was the distribution of coal as now produced.

He emphasized the intention of the government to prevent the advance of coal prices and declared that under the emergency program, no freight cars would be allocated to those who tried "to rob the public." Sharp advances in prices have been reported to the commerce department from some localities, he said, reaching as high as \$13.50 a ton in western Kentucky.

Possible enactment of new legislation in connection with the government's emergency coal control program was indicated by Mr. Hoover. He declared that no legislation was necessary to implement the plan, but intimated that should its operation be required for any considerable length of time, legislation might be necessary to defray the expenses of the organization.

The personnel of the central committee, it was believed at the commerce department, would consist of the government officials who have been active in the drafting of the government's plan, which would comprise Secretary Hoover as chairman; R. Searles, of the department of justice; Director George Otis Smith, of the geological survey; Interstate Commerce Commissioner Atkinson, and F. H. Wadsworth, of the commerce department, coal division.

Probe of Coal Industry

(Continued) The Interstate Commerce commission was authorized today to be prepared to issue the declaration of emergency under which Secretary Hoover's distribution plan will be put into operation. Under this emergency order the car service division of the commission will be able to direct the movement of cars, declare embargo on the railroads, and prevent the shipment of coal except of the consignees whose needs it is considered necessary in the public interest to supply. It was also to require the mine owners to make any other steps which are deemed necessary to the control of the coal supply.

Union Market

Miners' representatives are known to hold that the president might be able to get the strike called off should he offer the men the previous wage scale temporarily, and such a fact-finding body to make its investigation of the industry and lay a report before him and before the union and employers. Wage negotiations could then be taken up directly between the union leaders and the employers, without further government interference and a final contract made. The method, it was pointed out, would result in maintaining the war-time wage scale for at least another year. Government officials, however, have said that there would be no further negotiations opened up between the administration and the United Mine Workers until the union, itself asked for them.

THE LOWELL SUN

JOHN H. HARRINGTON, Proprietor

SUN BUILDING, MERRIMACK SQUARE, LOWELL, MASS.

Member of the Associated Press

The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper and also the local news published herein.

OUR LABOR TROUBLES

This country is in a bad condition industrially as a result of the numerous strikes now in progress, particularly the strikes of the railroad shop workers, the coal miners affecting the entire country and the textile operatives in New England. The New England states are suffering more from strikes than any other part of the country. They have to share the consequences of the coal shortage and the irregularities caused by the railroad strikes and in addition Massachusetts, Rhode Island and New Hampshire have textile strikes of long standing that are working irreparable injury to the textile industry as well as to the striking operatives.

It seems that if Pres. Harding had possessed the tact and judgment either of Roosevelt or of Woodrow Wilson, he would have settled the coal strike and even the railroad strike in a very short space of time or he might otherwise have prevented both. That being so it is his duty to use the influence and power of his office to bring about the settlement of both strikes so that the country at large may not suffer to any great extent and that we may not find it necessary to import coal from England or Australia.

What is urgently needed, in this state as we presume, in most others is some positive and effective method of dealing with labor troubles in the incipient stages. After the strike occurs it is very difficult to bring the parties together, but we feel that a law might be enacted compelling the manufacturers to hold a general conference with their employees before announcing any cut in wages.

The principle of collective bargaining, if established, would go far towards preventing strikes such as we have had in the textile industry of New England. Strikes have been prevented in other countries by conferences preceding a reduction in wages. There is no reason why that arrangement should not prove equally effective in New England, but it has never been tried. President John Franklin of the Lowell Textile Council has suggested to local mills the advisability of a conference with their operatives preceding any announcement of a reduction in wages. He is candid enough to realize that many misundemandings might be cleared away if this course were followed. His suggestion, however, will have little weight if the aim is to stave the operations into submission. That policy, if adopted, will react upon the industry and eventually injure them irreparably. We can hardly believe that such a policy can ever find favor with the mill men of Lowell who claim that the cut in wages is the only alternative to general curtailment or ultimate suspension of business. Yet if the strikers believed this they would all go back to work in twenty-four hours because they do not want to be unfair towards their employers or to drive them to the wall.

THE COUNTRY BOY

Mrs. Sarah Louise Arnold, dean emerita of Simmons college, claims that the boy reared in the country is a better citizen than the one who is brought up in a city apartment. She insists that he is more of a home lover, that he takes his responsibility more readily, thinks more quickly, is better equipped for life by experience and partakes to a greater extent of the richest stores of nature. There may be some truth in what Mrs. Arnold says in regard to the average country boy brought up in a good home with reasonable opportunities of education. It often happens that the country boy has many advantages which the city boy can never possess. In the first place he gets more fresh air and exercise and eats more healthy food. Secondly, he gets more sleep at night, seldom having less than eight hours, and that without any disturbance from such noises as cabs, street whistles, trucks, trains and auto horns which prevail in the city. Besides, he is not forever followed by the admonition to "keep quiet" so as not to disturb the folks overhead or the people next door or those who are across the street. He can go out into the open fields and yell until his heart's content. He can romp and run and play and hunt in his leisure hours, and all this in healthy and natural amusement to which the average city boy is a total stranger.

It is true that very few country boys realize the advantages they enjoy in their rural surroundings and on the contrary the city boy feels that the best brought up in the country is "green as grass," he has not frequent of the woods, he cannot dance the fox trot or the waltz bear and he has not had the same school advantages afforded to the city boy. Of late the city boy, however, is enjoying a great many advantages in the athletic field and the physical training provided in the schools that were never thought of in past years. If he has a good home and a fair amount of respect for authority there is no reason why he should not rise superior to the country boy so far as skill and training go, but in physical health and constitution we are inclined to believe that he cannot compare with the country boy. We must all admit the beauties of the simple life in which the country boy is a participant; and that the varied experiences which fall to the lot of the city boy is unfortunately not always for his benefit. The boy who frequents the streets and joins disorderly gangs is liable to learn much that will lead him in the wrong direction unless his home and religious training are strong enough to enable him resist the temptation.

SCHOOL DANCES

The city of North Platte, Neb., has had some rather unsavory notoriety over injunction proceedings brought by the school board against the

lowing dances to be held in the high school hall. It seems that when the school was built some twelve years ago a large assembly room was provided in which athletic contests, social, patriotic and recreational programs have since been presented. When, however, the board consented on request of the parents of high school pupils that dances should be allowed in the auditorium, there was trouble right off. Certain other parents objected to the use of the hall even for supervised dances, objecting to dances of any kind, despite the fact that the dancing permit for students was limited to an hour and a half with members of the school board, the welfare commission and parents of the pupils present. After due deliberation the Nebraska court refused an injunction in spite of numerous decisions cited from high authorities in favor of the opposite view, among them being one by Justice Brewer of the federal supreme court. The Nebraska court, however, held that such musty decisions did not rule the progress of the present day and that the school board of Nebraska could use its discretion in allowing supervised dancing by the high school students.

The decision of the board will be very generally approved, as we believe most school boards can be safely entrusted with guarding against anything improper in such functions. At the same time, we admit that it would be a very easy matter to overdo the dancing features, and this is done whenever they are so frequent as to interfere with the school work or to cause jealousy among the girl students, or to induce them to resort to the use of rouge and lipsticks as a means of enhancing their attractiveness for the young men.

"OLD OAKEN BUCKET"

For years we have all been drinking about "the old oaken bucket that hung in the well." Quarters have advertised the famous old bucket until most of us have it indelibly in our brains as a symbol for pure, cool and refreshing drinking water.

Now comes the Connecticut state board of health and warns that most wells with an old oaken bucket are germ-polluted, and about as fit to drink from as a swamp.

There is nothing new in that decision although it may smash some ideas that have come down from colonial days and still are prevalent in some rural districts. But every resident of a progressive town or city knows that the old well with its oaken bucket, unless it be away from dwellings and barns and fed by springs, is usually a source of typhoid fever or other diseases.

MR. WALKER AROUSED

Hon. Joseph Walker is raising ructions with the republican club of Massachusetts on account of its decision in sending out literature advocating the nomination of Senator Lodge. That is certainly a very unusual step and it gives Mr. Walker an opportunity to bring out certain "facts in the case" which would otherwise be left untouched. Mr. Walker has sent a letter to President Rich of the club in which he accuses that organization in nothing terms. He makes up the Newbury case and apparently is bent on making the nation of the club alike an issue and a pretext for extreme tactics in opposition to Senator Lodge's nomination.

FIRST TO FALL

The first man killed in the World War was Corporal Jules Touquet, a Frenchman. A monument to him is unveiled with elaborate ceremonies. Jules was 21 years old. In the flower of his manhood, when a German bullet carried him into eternity. He was typical of the toll of war—youth, promising, ambitious, "the best of the lot."

That is the kind of meat the war god loves. Biologists tell you that war makes a nation stronger in the long run. False! War always takes the youth and, physically at least, the best.

YOUTH IN AGE

Here's a woman who celebrates her 81st birthday by taking her usual daily ride in one of these bathbats that are attached to motorcycles. She is Mrs. Hannah Matteson, of Hope Valley, Rhode Island.

People who are on the verge of surrendering to old age can learn from Mrs. Matteson that age is mainly a matter of viewpoint. It is largely in the heart. Think youthful thoughts, do youthful things, and you'll never be really old. That is one of the secrets of long life.

BAFER FLYING

It is safe to take a trip in a flying machine? You would think so, if you flew 1,760,000 miles and came out alive. That is what our air mail has done in the last 12 months with no fatalities. Incidentally, it carried 45,969,909 letters.

In the previous year, 17 were killed carrying mail by airplane. Flying is getting safer. That is more important than news about faster flying. The airplane will become popular only as it is made safer.

MONOTONOUS LIFE

Twelve million steps have been climbed by George B. Harrick. He is the night watchman at the Continental mill in Lewiston, Me. For 25 years he has climbed steps and "rung in" clocks. Think of George when your job seems monotonous. We are all in much the same boat.

All the parties to the local strikes would be benefited by submitting the issues involved to arbitration. This struggle of endurance will injure the factories more than the operatives who have nothing to lose.

SEEN AND HEARD

Normalcy is back, but look how she has changed.

Not that anybody cares, but over in China Dr. Sun sets alone.

Money goes farther now, but it seldom reaches next pay day.

It may sound strange, but a well-rounded man is square.

That's Different!

"Why did you tell Edith the secret I told you not to tell her?" "I didn't tell her. I just asked her if she knew it."

A Thought

If it be possible, as much as lieth in you, live peaceably with all men.—Romans 12:18.

Beware of entrance into a quarrel, but being in it, the opposed may beware of thee.—Shakespeare.

Time to Retire

Frank A. Welch of Nashua, N. H., has just retired from the grocery business after spending 41 years in the same location. For the last 32 years he has owned the store, he never took a vacation in the time he was sick a single day and was only away from the store one day—when it was open.

A Word a Day

Today's word is eccentric. It's pronounced ek-sen-trik, with the accent on the second syllable. The vowels are all short. It means—unusual, out of conformity to the popularly accepted standards of action. It comes from the French eccentric, taken from the Low Latin word eccentricus, which came from two Greek words meaning "out of" and "center." It's used like this: "He was known to be eccentric."

Just the Same as 22

Johnson had obtained work in a railway yard and was told to mark some trucks. "Here's a piece of chalk," said the foreman. "Mark each of 'em 22." A little later the foreman came around again to see how the new hand had been getting on. He found him sitting on a bucket regarding a truck thoughtfully. Marked upon it was a large "22." "What does this mean?" asked the foreman. "Only one truck does number 22 wrong at that," said Johnson. "But I couldn't think which side of the '2' the other '2' goes."

A Good Clean Job

"I want you to clean my shop window," said Blinks to Migglins, the window cleaner. "Go you and clean it, while I'm away for an hour or so?" "O, yes, glad to do it," returned Migglins. And while Mr. Blinks was out he set to work with a will. "Migglins," said Mr. Blinks, entering the shop with a glimmer at the cleaner's work with a brush, "you've done a job well. Why, there isn't a speck or a scratch to be seen on the whole pane. Here's your money and an extra quarter." "I'm glad you're satisfied," murmured Migglins, pocketing the money. "I'm glad you're satisfied," murmured Migglins, pocketing the money. "I'm glad you're satisfied," murmured Migglins, pocketing the money. "I'm glad you're satisfied," murmured Migglins, pocketing the money.

Tree

I think that I shall never see
A poem as lovely as a tree.

A tree whose hungry mouth is pressed
Against the earth's sweet flowing breast!

A tree that looks at God all day,
And lifts her leafy arms to pray!

A tree that may in summer wear
A nest of robins in her hair!

Upon whose boughs snow has lain,
Who intimately lives with rain.

Poems are made by fools like me,
But only God can make a tree.

—JOYCE KILMER.

LENROOT WOULD AMEND WOOL SCHEDULE

WASHINGTON, July 25.—Whether Senator Lenroot of Wisconsin could swing enough republican votes to overturn, with the aid of the democrats, the finance committee majority and the agricultural tariff bloc in the matter of a maximum rate of 60 per cent duty on coarse wool and its manufactures, was a debatable question today, as the capitol.

It was his plan to offer a 60 per cent limitation amendment to each paragraph in the wool schedule. A vote on the first, that relating to carpet wools, was expected today.

Members of the committee, backed by treasury experts, insisted that Mr. Lenroot's plan was not susceptible of administration because both coarse and fine wool enters into a single place of cloth.

Democratic opponents of the duties in the wool schedule will carry their fight further than the coarse wool. They insist that all the wool too high and, under the leadership of Senator Walsh of Massachusetts, a member of the finance committee, they plan to show what will be the result of the duty on prices of clothing and other products of wool.

READY TO BRING FOOD BY AUTO

BOSTON, July 25.—Charles R. Gilroy, acting registrar of motor vehicles for Massachusetts, has practically completed arrangements for the hundreds of motor trucks that will be used to transport food and other supplies in the event the railroad service breaks down as a result of the shopmen's strike.

Unlike other states, where drivers of heavy trucks must have certain classes of licenses, the operators of all motor cars and trucks in Massachusetts are qualified to handle supply trucks. This has been brought about by the action of Register Goodwin and Mr. Gilroy in having all persons pass an examination before they are allowed to operate a machine.

Last October Mr. Gilroy, by order of Mr. Goodwin, assisted in preparing much data on the motors under the jurisdiction of his department, for the use of the committee on public safety, formed to handle the food supply and other items badly needed by the people.

THE MAN ABOUT TOWN

Once more has Henry Sullivan, the local aquatic expert, been the subject of an attempt to cross the English channel. On four previous occasions, the persevering Henry visited the foreign waters and each time his valiant attempt was frustrated at the last moment when victory seemed certain. This time the famous swimmer will make one last try to conquer the treacherous waters of the channel, which has yielded victory to but two persons out of a countless number who tried. Henry will again essay the channel swim under the colors of the O.W.M.A. of this city, whose fame he has spread far and wide along the French and English coasts where he is well acquainted, in view of his previous attempts at conquest of the channel. Mr. Sullivan's greatest supporter, as usual, is his father, the well known shoeman of Centralville. In his opinion, the swimmer is a hero (Thomas B. Sullivan) has his shop window decorated with pictures of his son in action in the waters of the channel, and is very optimistic concerning the chances of Henry in his final bid for honors. If endurance, stamina and stick-to-it-ness count for anything, it is a foregone conclusion that America will boast of a champion in the person of Henry F. Sullivan, in whom the city of Lowell may be well pleased.

I noticed many former Lowell priests at the funeral services of Mr. O'Brien yesterday, the most prominent of whom were the Rev. Arthur Connors, O.M.I., Rev. Dennis J. Murphy and Rev. Francis L. Keenan, recently transferred from St. Patrick's. Fr. Connors is now stationed at the Immaculate Conception church, this city, and will soon go to an Oblate church on Broadway, New York city. Father Murphy, whose home is in Wake at was formerly a curate at St. Michael's church where he has a host of friends. He is now stationed at St. Paul's church in Cambridge. A large number of the parishioners of St. Patrick's gathered around Fr. Keenan after the services and expressed their regret that he had a hard time breaking away from his admirers, with whom he was extremely popular. He was accompanied by his brother, who recently celebrated his first mass in St. Patrick's.

The Crescent Hill association has again taken the lead in providing athletics for the people in the regions across the bridge. With the aid of the Centralville Social, the Lowell Athletic and Beacon clubs, the officials have succeeded in establishing a Twilight league on a firm basis in that vicinity and some good baseball has resulted. Hereafter the residents of this section were compelled to travel quite a distance in order to see a game of ball. A new lot, nearly half a diamond bordering on Alkon street, interest thus far has been at a high pitch and with the large following of rooters on all sides, the league promises to rival in enthusiasm, the senior Twilight league games played regularly on the South common.

About 10 days ago I visited the evening playground on Chapel street, conducted by the chamber of commerce and was surprised at the large gathering of children who had congregated there to take advantage of the sports and games provided by the officials of the grounds. The youngsters seemed delighted in their element and were having the time of their lives. I again visited Chapel street last night and to my surprise I was informed that the playground was no more. Upon further questioning I learned that the chamber was compelled to discontinue the facilities here because of repeated complaints on the part of the residents of the district against such a project. The discontinuance will, no doubt, prove a disappointment to the younger generation, as well as to the chamber of commerce which had so generously given its support to the movement.

Recent statistics from the Massachusetts fuel administration report of July 14, 1922, as compiled by Mr. Herbert Rolla White of Chelmsford, show that the stock of anthracite coal on hand in Lowell on July 1 of the present year was 6749 tons, and that the amount of coal to be received in 1922-23 was 17,645 tons. This latter amount, according to Mr. White's figures, will be inadequate to meet the demand in this city. The Chelmsford statistician figures thusly: Stock on hand on April 1 was 17,400 tons. On July 1, this had diminished to 6749 tons. On May 1, May and June receipts of 15,047 tons brought the total up to 32,456 tons. For the coal year of 1921-1922, the total delivery in Lowell was 110,104 tons, but the 25,707 tons delivered of April, May and June reduced these figures to 84,397 tons, and by subtracting the stock on hand July 1, 1922, the remainder is 77,648 tons yet to be received, which in the estimation of Mr. White means a shortage for this territory unless more is received.

EX-PRES. WILSON INDORSES LEWIS

WASHINGTON, July 25.—Ex-President Wilson has indicated a special interest in the Maryland democratic primaries. His intervention is of a different sort from what he essayed in the Missouri primaries. His letters to Missouri were directed against Senator Reed, while his Maryland opiate condones itself to the indulgence of David I. Lewis, not that the president is a partisan, but that he is a friend of the Missouri democratic cause. William I. Norris.

Mr. Wilson's letter was directed to Mrs. Robert R. Henderson of Cumberland, widow of Judge Robert R. Henderson, who was a classmate of the ex-president at Princeton. The letter follows:

My dear Mrs. Henderson—It gives me great pleasure to receive your letter of July 19 because it is always a pleasure to testify to the character and attainment of such a man as Mr. David I. Lewis. My observation of him and my association with him in public matters have led me to entertain a very high opinion of his integrity, his ability and his equipment to deal with public questions.

I have been very much interested to learn of his candidacy for the United States senate and do not hesitate to say that I regard him as in every way qualified to fill the position of senator. He is most conscientious in all his dealings with public questions and has, moreover, a keen insight into their merits and extraordinary industry in familiarizing himself with their details.

I was often glad to be guided by his knowledge and judgment in dealing with legislative matters and should deem the state of Maryland fortunate in having such a representative in the United States senate.

—WOODROW WILSON.

MILL HAZARDS AND HOW TO AVOID THEM

Issued by the Massachusetts Safety Council.

By E. M. COFFIN, Industrial Engineer.

The man whose name we couldn't pronounce we called Joe; and right there we made a mistake. Joe's real name was a simple affair to him and when we carelessly admitted that we couldn't or wouldn't understand that simple thing about him, he naturally took it for granted that there existed a barrier of some sort between us, a sort of mystery screen behind which Joe could hide when it was convenient to do so.

Therefore when we told Joe to do a job in a certain way and later found that he was doing it in his own easier fashion, but he was not producing the results desired, and we said, "What's the matter, Joe, don't you know anything?" Joe withdrew behind his barrier, smilingly shrugged his shoulders, and blandly replied, "Meester Boss, Joe no fer stay."

To the initiated this is to be interpreted, "Boss, I understand you perfectly, but I thought that if I did this job my way instead of yours, because you see you don't think I know anything anyway."

If you want to test this assertion, just tell Joe that beginning today he will have a raise in pay explaining in plain English that the raise contemplated amounts to 1 1/2 per cent and next pay day Joe will be right there at the window counting out his money to see if he has received his regular amount plus his raise from day to day. Joe understands, and it is largely because we don't make an effort to understand Joe that he plots along in an indifferent manner apparently content to remain just Joe.

During war time there was a wave of patriotism that swept many of our men into military training camps in England, and I recall one of these who came back to study our language. He protested that his grandchildren would make fun of him, and although he wanted to know how to read and write so that he could eventually become a citizen, it was only because of a threat that he might lose his job as an enemy alien that he finally began his lessons. In a few weeks time he had made wonderful progress and he was soon able to read our newspapers. Because he could read the things American, Andy took more interest in our language and his boss soon gave him charge of a couple of men and later he was put out in the yard as foreman of a group of laborers. Now Andy has no more manual work to do because he has learned to read the work of others. So it happened that the fear of ridicule of his grandchildren came very near to keeping grand-daddy at hard labor to the end of his days.

The successful foreman in industry is a good student of human nature. Given so many men, he knows at once what tactics will get the best results from them. You can be sure that the foreman who takes a heart interest in his workers, no matter what their nationality or color, will be given the most help by his workers. His primary interest is in them as fellow human beings and such an interest is a requisite of the successful foreman.

Stanislav worked for a man of that type. "Stan" was a 17-year-old Polish boy, bright as a newly coined dime, but he couldn't understand a word of our language and it happened that in this particular locality there was no one else to teach him, so the boss arranged through an interpreter to have "Stan" come to his house two nights a week for lessons. They kept these up for three months and by that time the boy could read very well, and he passed his English-speaking test and to explain this word and that but he persisted, and in a year's time he was to all appearances an American. A few years later he was elected an alderman, and he was a power for good in a community that was made up of more than 50 per cent of foreign-born people.

Among his men there worked at one time a Greek, who had been a sponge diver on the Florida coast. It seems that Populus had had some pretty hard task-masters in his chosen country, and he was very grateful for this humane boss. He wanted to express his appreciation in some way and one evening the foreman was somewhat surprised to see Populus coming up the walk with a large bundle held carefully as if fragile and precious. The Greek handed the package to the foreman with the words "good-boss," and then turned and walked quickly away. The boss called his wife and together they inspected the package that proved to be an immense sponge with his skeleton. It was 14 inches in diameter and weighed about 10 pounds, not as a curiosity, but because it represented the friendship of a humble worker.

We sometimes forget that the foreign born worker has probably more dependents than the average American born worker, and it is the dependents who suffer when the worker is pay curtailed through sickness or accident. For the sake of these innocent dependents, as well as for the sake of the worker himself, we should not neglect the careless worker because he happened to be born in some country other than ours. We are justly proud of his standard of living, but, considering him as a human being, we are in duty bound to teach him to be a careful worker. The compensation law makes no distinction between nationalities, and, from a purely economical standpoint, a vigorous safety campaign among the foreign born workers pays in dollars and cents saved as much as a similar campaign among American born workers.

HUNT BEAR THAT KILLED COW

LAWRENCE, July 25.—News of a real bear hunt in Windham, N. H., was brought here yesterday by motorist Charles Dow, searching the woods Sunday afternoon. As far as is known only one bear has been killed, and the condition of the carcass suggests some such animal attacked it. Mrs. Louise Gosselin, wife of Napoleon Gosselin, an employee of M. G. Armstrong, formerly of Boston, who with her husband lives in a small camp on the Armstrongs farm, saw the cow Saturday morning in the camp. It wandered into the woods, she said. The cow, which was found dead Saturday morning, was the property of Dr. A. B. Austin and was killed about two miles from the Armstrongs farm.

Berton Braley's Daily Poem IN MODERATION

I haven't much use for the kind of chap
With a smile forever upon his map,
Who's always chirping this cheer-up stuff
Like "Keep your spirit, though life is rough!"
Who says "Don't worry!" and "Show your grit!"
And a lot of that sort of rot;
For you've got to worry a little bit—
Though you needn't worry a lot!

I don't believe that a man can smile
And do it honestly, all the while;
It's good for the soul at times to fret
And worry over the luck you get;
And when fate hands you the icy mitt?
—And the game seems gone to pot,
—You've got to worry a little bit—
Though you needn't worry a lot!

Your sense of humor should pull you through,
Whatever the woes that come;
But now and then it is healthy to
Be humanly sore and glum.
And there are times when a smile won't fit
The kind of a break you've got;
So you've got to worry a little bit—
Though you needn't worry a lot!

(Copyright, 1922, The Lowell Sun)

No Hope of Reopening of Mines

CHICAGO, July 25.—Illinois Coal Operators' association members said today there was no hope of immediate reopening of Illinois mines. After a meeting of the association, President Miller said all hopes of reopening the mines had been abandoned. "Nothing short of martial law and the suspension of state mining laws by the governor, could start work in the mines," Mr. Miller said.

Trolleys Filled With Workers Collide

PAWTUCKET, R. I., July 25.—Two trolley cars carrying workers to Lorraine mill today crashed in a rear-end collision. Six persons were taken to the hospital for treatment. About 20 were treated at the mill by doctors and nurses but in no case were the injuries found to be serious. Both cars were badly damaged.

B. & M. Train Hits Truck on Crossing

PEABODY, July 25.—A Boston & Maine passenger train bound from Danvers to Boston, struck a motor truck on a crossing in West Peabody, early today, injuring James Blinn, driver of the machine. Traffic on the Newburyport branch of the road was tied up for several hours. Blinn was taken to a hospital here.

PAINT

READY MIXED

If You are Contemplating Painting Your House

"BUY DUPONT PAINT"

AT COBURN'S

It is sold for what it does; not a question of dollars and cents. Some paints would be high at 50c per gallon. Dupont Paint goes further, lasts longer than any paint made. It has been the leader since 1793. It takes just about one-half as much Dupont Paint to paint a house as it does of ordinary paint—easy to apply, cutting down the cost of material and time. You save the difference!

GIRLS! WHITEN SKIN WITH LEMON JUICE

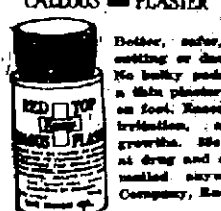

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.—Adv.

Tom Sims Says

All the world's a stage and a burlesque show is playing now.

If it is true that a hot summer means a cold winter, we wish they would settle the miner strike.

With trains running late, autoists still get caught on the tracks.

This may be an awful country, but there are people over 80 who have never missed a meal.

Burbank says there is flapperism in flowers. They do grow wild.

A man on a vacation spends more money accidentally than he does on purpose at home.

After a Palm Beach suit is cleaned a few times the owner has no room to criticize short dresses.

Most all of us think we were born a few years too soon.

This is a fine season for amateur baseball, says the man who puts in new window panes.

A worn-out horsehoe brings good luck; but a worn-out auto tire often brings bad luck.

It is always proper to think what you say, but not always proper to say what you think.

If a golfer walks around the links for his health, any mail carrier ought to whip Dempsey.

Woman's place is in the home. Some men think it is in the garden.

Not that anybody cares, but Lenine will farm for his health and we bet he raises Cain.

Most any man will tell a lie about how truthful he is.

Used properly, stumbling blocks make a fine foothold.

Cussing your luck makes it bad.

CANADIAN NYMPH

Jane Hutchinson, known as the "Canadian Water Nymph," is here shown on her way to California to make the fair water, strong, sit up and take notice. And she says she's going out after few national swimming records next season.

CHANGE WHOLE ROUTINE TO SAVE BABY'S LIFE

NEW YORK, July 25.—Efforts of passengers and crew of the Munson liner American Legion to prolong the life of a 10-month-old babe until it could reach a hospital were rewarded yesterday by the announcement of New York physicians that the child had an excellent chance to recover.

The babe is Thomas McConnell, Jr., age of an official in the Ford automobile plant at Buenos Aires, a passenger on the American Legion. A week ago he was stricken with pneumonia and from then until the vessel docked at New York, the whole routine of the ship was directed towards saving the babe's life.

While the vessel made for port under full steam, an open air hospital was set up on deck for the little patient. Electric pads were connected with the ship's dynamo to keep the babe's body warm. To preserve quiet, no deck chairs were permitted near the spot. Sailors, when work took them near the hospital, removed their shoes. Ship's bells and whistle signals were dispensed with, the officers using flags to salute passing ships.

An ambulance was waiting at the pier when the American Legion docked and the babe was rushed to a hospital "just in time," as doctors said.

SUMMER FARMERS AT STATE COLLEGE

AMHERST, July 25.—The opening sessions of the fourth annual summer farmers' week began today at the Massachusetts Agricultural college with the Beekeepers' day meetings and the farm shop demonstrations as features.

The use and equipment of the farm shop will be discussed by Prof. C. I. Guinness, head of the department of rural engineering at M.A.C.

The Beekeepers' day is likewise an exceptional event on the program of these summer meetings. The college apiary will be the scene of manipulations of colonies by the visiting beekeepers, who will be furnished necessary vials, smokers and hive tools by Prof. N. E. Phillips.

One of the most closely and effectively organized groups of farmers who will meet at the college during the week is the Massachusetts Fruit Growers' association, which holds meetings this afternoon and all day tomorrow. Dr. S. W. Fletcher of Pennsylvania is the speaker of first importance on the fruit program. He discusses "Direct Marketing of Fruit."

Hot weather hospitality

Easiest to make of all summer drinks is Lipton's iced tea.

A tall, thin glass, tinkling ice, a slice of lemon, sugar and of course Lipton's Tea.

LIPTON'S ICED TEA

Cuticura Soap Will Help You Clear Your Skin

It will pay you to get The Sun classified ad, babe.

PRIESTS WALK 425 MILES

Pilgrimage on Foot From Boston to Ste. Anne de Beaupre Ends

QUEBEC, July 25.—A pilgrimage on foot from Boston to Ste. Anne de Beaupre has been accomplished by Fr. Bernard O'Kane of Brookline, Mass., and Fr. John Mahoney of Brighton, Mass. The distance covered is estimated at 425 miles. They averaged about 35 miles a day. They left Boston on July 1 and have just reached Ste. Anne de Beaupre.

APOSTOLIC VISITS ARE DECREED BY POPE

BOSTON, July 25.—The announcement reached Boston last night that the pope has issued a decree calling for an apostolic visitation to all the Roman Catholic dioceses of America by the Rev. Archbishop John Donato, papal delegate to the United States. This is nearly unprecedented in the modern history of the Catholic church. Nothing of the kind has been done since, on the election of Pope Pius X, he issued a decree calling for an apostolic visitation of all the dioceses of Italy. The text of the Vatican letter announcing the decree follows:

"Since the holy father, Pope Pius XI has now decreed that an apostolic visitation be made to the dioceses and churches of the United States, by command of his holiness and in accordance with his office, I hasten to announce this decision to all the bishops of that country. This solicitude of his holiness for the churches of America must be grateful to all, since it shows with what interest and love the sovereign pontiff regards that portion of the Catholic church which is so distinguished and flourishing.

"This decree will be all the more pleasing because his holiness has chosen for the post of apostolic visitor his delegate in the United States, who by his long residence in the country and by his knowledge of its persons and affairs, as well as on account of his sound judgment and his great love for the American people, will be recognized and received as the very best choice. It is needless, therefore, for me to commend him to the good offices of the American bishops, so that he may with ease and despatch carry out his appointed work."

EXPERT TELLS HOW TO PLAN YOUR PICNIC

This is the season of picnics and someone must always prepare a lunch. Once was the time when a basket must be carried containing plates, spoons and linen napkins, all of which had to be carried home.

Nowadays there are wonderful lunch boxes and baskets, containing everything one could possibly need, and the suitable carries the burden.

Or the lunch is eaten by the roadside, in an attractive spot, while seated comfortably in the car.

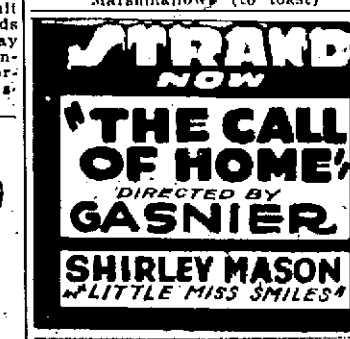

For less fortunate people there are paper plates, cups, spoons, forks, tablecloths and napkins. Also paper containers, in which may be carried moist food, make it possible to have salads.

Patented bottles, now very cheap, will keep the coffee or tea hot and the ice water cold. With such equipment and a pastboard box no one has to carry home anything.

COLD MENU
Ham and egg sandwiches
(Slices of ham and chopped hard cooked egg, mixed with salad dressing)
Plain brown bread sandwiches
Hard boiled eggs
Olives or pickles
Small meringue cakes
Tea or coffee (in patented bottle)
Fruit, (whatever is available)

AUTOMOBILE MENU
Chicken salad sandwiches
or
Chicken salad and buttered rolls
Olives
Cut-up fruit, cakes, candies
Hot coffee or tea punch

HOT MENU
Chops and bacon
(Allow two chops and three slices of bacon to each person)
Rolls to split and toast, butter
Tomato and chopped cabbage salad
Chocolate layer cake
Coffee
Marshmallows (to toast)

COAL CAR TAKES A FERRY RIDE
When passengers saw several railroad cars about to board their ferry boat in the East river, New York, they rushed back to the dock and escaped injury. The railroad barge had broken its moorings.

BAD COMPLEXION BOY'S HOME MADE CANNON WRECKS ROOM

Weak, run down, lacking strength, energy and ambition, nervous, sleepless, without appetite, digestion disturbed—these are the symptoms named by a great majority of the people who have been benefited by the use of Dr. Williams' Pink Pills. These tonic pills correct the condition described and if you have these symptoms you should give them a trial. They are especially good for the debility following the grip and influenza as this statement shows.

"It was weak and run down," says Mrs. Emma Silva, of No. 180 Bennington street, East Boston, Mass., "and I could not get my strength back. I was tired, had no ambition, did not have any appetite and at times I was very nervous. I could not stand any noise and did not sleep well. I had headaches that affected my eyes, and my complexion was bad. I read about Dr. Williams' Pink Pills and as I had heard from friends that they were good I gave them a trial.

"While I was using the first box I noticed that my appetite was getting better and as I continued the treatment I could not get my strength was increasing. My nervous grow stronger and I began to feel like myself. I knew that I owe my recovery to Dr. Williams' Pink Pills for I have taken no other medicine."

Write now to the Dr. Williams Medicine Co., Schenectady, N. Y., for the helpful booklet, "Building Up the Blood." Your own druggist sells Dr. Williams' Pink Pills.—Adv.

WHAT CAUSES HEADACHES?

"Fruit-a-lives" Prevents Auto-Intoxication

Auto-intoxication means self-poisoning. Many people suffer from partial constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, poisons the blood.

As a result, there is headache, indigestion, disturbed stomach, lack of sleep, Rheumatism and Eczema.

"Fruit-a-lives" will always relieve Auto-intoxication as these fruit tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent by FRUIT-A-LIVES Limited, OGDENSBURG, N. Y.

home when the explosion shook the neighborhood. He rushed out and soon located the battery. Then he had a heart-to-heart talk with a boy who was thoroughly scared, and the "gun" was taken to Somerville police headquarters, where it was placed with a number of other weapons. Fortunately, neither the boy nor anyone else was injured, as no one was in the room that was invaded by the new field piece.

Edwin will agree that the inventor's life is a hard one.

NEW SUCCESSES FOR FREE STATE FORCES

DUBLIN, July 25.—(By the Associated Press.)—Additional large areas in the west of Ireland have been occupied by the Free State forces before whom the republican insurgents are retreating, according to today's official report. Claremorris, County Mayo, is the latest town to be freed from the irregulars, who have now retired to Ballinrobe, on the border between Galway and Mayo.

Edmond de Valera accompanied the insurgents last Sunday to Tipperary, but, according to reports, left for Cashel, 12 miles distant, the next day.

The strain of recent events is said to have left him pale and worn.

The irregulars are said to have burned the military barracks at Cashel and Tipperary.

Wins 10-Mile National Swimming Contest

Though only 18 years old, Thomas E. Blake, member of the Los Angeles Athletic club, captured the 10-mile national swimming championship over the course from Philadelphia to Riverton, N. J. His time was 2 hours, 24 minutes and 30 seconds. Twenty-eight contestants were entered.

BY BILLY EVANS

The lively bat is the very latest thing in baseball. For several years most of the hard hitting has been charged against the so-called lively ball.

Now there comes the question as to whether or not the bat is playing a part. Major league catchers are of the belief that the bat is doing its bit toward helping along the slugging that now features the major leagues.

How come the bat to be regarded as lively? Well, here is the latest rumor that is going the rounds relative to the increased hitting.

Major league players have their favorite bats. Weather conditions and the hard usage to which the bats are subjected often cause them to crack with the grain.

In order to preserve these favorite bats, it has been the custom for years with major league players to drive a few small nails or tacks into the bat where it showed signs of splitting.

How It Works

Although the rules say that the bat shall be entirely of wood, little attention has ever been paid to the custom of driving a few nails into a bat.

The use of a few nails for such a purpose was in no way cheating, simply a precaution used by the players for keeping the favorite bat from splitting so badly that it would be unfit for use.

It is a well known fact that the hardest hit balls come into contact with the bat at a point from six to 12 inches from the end of the bat. When a batsman hits the ball in that spot it generally travels.

Some players evidently got the idea that it would be a clever stunt to stun the bat with nails at the favorite point of contact. Only a week or two ago, it ruled out a bat that had 52 nails driven into the bat close to the end.

Now to explain the lively bat and the possibilities it offers.

Practice General

It is said that the practice has become general in both big leagues, and

that most of the players are using bats that are heavily studded with nails.

It is a very easy matter to imagine how well 50 nails would make a small area. It is also easy to picture how much impulse a bat with a studded area would give to a ball that was properly hit.

While umpires never essay to play the role of detective, the catchers are all beginning to watch the bats closely, and I understand any number of bats have recently been ruled out in both major leagues.

It wouldn't be at all surprising if some definite action was taken against this dishonest practice by both leagues and the umpires given orders to throw out bats that contained even a single nail.

These Three Make Indians a Dangerous Aggregation

TRIS SPEAKER

Tris Speaker is one of the greatest hitters the game has ever developed, one of the game's leading base-runners and batsmen and better yet, a smart player at all times. Speaker has, since he assumed hold of the Cleveland club, proved himself one of the most successful managers in the history of the game. Speaker has personality, power and drive. He dominates the situation. A bad egg has kept Speaker from being at his best this year. When he

CHARLEY JAMIESON

is out of the lineup the Indians lack the fire that characterizes their usual game. "Stuffy" McInnis disputes with Slu the right to be classified the best first baseman in the American league. He is the perfect fielder and a timely hitter. Charley Jamieson has developed into one of the best outfielders in the Amer-

STUFFY MCINNIS

ican league, despite the fact that his name doesn't break into print very often. Jamieson is very fast, a hard hitter and an excellent punter. In the field he is a regular ball hawk, and in addition has a strong throwing arm.

MALONE MUST PUT UP TO MAKE FIFTH ATTEMPT

To Post Forfeit Before His Suspension Will Be Lifted by Boxing Commission

BOSTON, July 25.—Providing Jack Malone lives up to a set of conditions imposed on him by the Massachusetts Boxing commission, his indefinite suspension, imposed more than a month ago, will be lifted forthwith. The conditions require him to post a substantial forfeit with the commission guaranteeing his appearance in a bout with Mickey Walker at the Boston Arena next Monday night, July 31. Walker has already signed a contract to fulfill the match and his manager, Jack Bolger, will post the forfeit with the A.C.C. this week. Nate Lewis, one of Malone's managers, will come to Boston Wednesday night to discuss with the boxing commission and all the formalities will then be completed. Meanwhile Malone is at White Sulphur Springs, training for his bout.

He has wired both the Arena club and the boxing commission that he suffered no injury to his hands in his recent bout with Johnny Carr and that he feels in fit condition to give Walker a real boxing lesson. In his opinion, Malone set forth that he considers talk cheap and that he will make no replies to anything which Walker has said about him. His replies, he wired, will all be added in the ring and with boxing gloves rather than pen, pencil or typewriter.

When the Arena club announced that this bout had been scheduled in June, there was more interest exhibited in the bout than ever before in the history of boxing in Boston. The demand for reservations was great even then that it occurred more than a year ago, when the club staged the championship battle between Johnny Wilson and George Robinson. Then followed Malone's injury. His refusal to go through with the bout suspended him. His suspension was lifted by the commission.

SUSPENSION OF WILSON AND MANAGER LIFTED

BOSTON, July 25.—Middleweight champion Johnny Wilson can box again in the arena. The Massachusetts Boxing commission, following a hearing yesterday afternoon, lifted the suspension that had been placed on the boxer and his manager, Martin Killian, dating back to Jan. 5.

Wilson refused to box Harry Grob in New York after signing a contract to do so. On Jan. 4, the New York body suspended the boxer and his manager. As New York and Massachusetts have a working agreement on such matters, the Massachusetts body also suspended the boxer and his manager.

For some time, however, the Massachusetts commission has felt that Wilson had been punished sufficiently. It tried to get New York body to lift the suspension. Instead it declared Wilson's title vacant.

A few days ago Wilson and his manager applied to the Massachusetts body for a hearing and Commissioner Barrett and Buckley yesterday listened to the evidence offered. The hearing lasted more than an hour and the commissioners on the testimony presented, voted to reinstate Wilson and Killian. Notice of the action was sent to the New York body. It is reported New York has announced that it will accept the action of the Massachusetts body.

Whether New York will break the agreement it now holds with Massachusetts is a question. The Massachusetts body believes it has done the right thing and the fans hereabouts support that view.

THE GREAT ROSE ILL

Favorite in Today's Grand Circuit Race Withdraws

COLUMBUS, Ohio, July 25.—The Great Rose of the McDonald stable, favorite in the 21st trot, the S. & S. stake, feature event of today's Grand Circuit program at the Columbus Driving Park track, is ill and will not be started. It was said at the track, Cesar Worley likely will be the favorite in this stake, which carries a purse of \$5,000, the largest of the meet.

Other events today are the 2:12 pace, the 2:14 pace and the two-year-old trot.

OPENING TENNIS TOURNAMENT: The annual opening tennis tournament for the championship for Lake George is scheduled for the week beginning Monday, August 1. This is one of the recognized annual events sanctioned by the U.S.T.A. and the events as usual will comprise men's and women's singles, men's doubles and mixed doubles.

The trophy for men's singles, which must be won three times for permanent possession, is now held by A. H. Cluett, Jr., former New England intercollegiate champion. It is James is the only winner of two legs on the cup, other winners of a single leg, in addition to the present holder, being P. D. Hicks and Carlos A. Major.

There is every prospect that this year's tournament will surpass all previous years in the size and quality of the entry list. Entries close Saturday, August 5, and should be sent to Mr. P. Strand, Lake George club, Diamond Point P. O., N. Y.

HUB MARE STEPS FAST

Margaret Dillon Equals Three-Heat Record in 2.04 Pace at Columbus

COLUMBUS, O., July 25.—The Boston mare, Margaret Dillon, which established a new world's three-heat record for mares at Toledo two weeks ago, duplicated the performance yesterday at the opening of the Grand Circuit meeting at the Driving Park, winning the stake for 2.04 paces in 2.04, 2.04 and 2.04, the time of the three heats averaging the same as those in the Toledo race.

It was an easy race for the mare, as she was never under a hard drive at any time and could have beaten the two-minute mark in the final heat and been driven out.

Favorites fared well today, three of the four first choices winning but in 2:12 the first choice was a big upset, the longshot, Baron Worthy, selling for \$10 in \$300 pools, beating the Murphy entry, Princess Etawah, a heavy first choice.

Margaret Dillon was a \$100 to \$25 choice over the field for the 2.04 pace. With the mare barred in the auctions, Gray and John Henry were about equal choices to land second.

Margaret was off in front in each heat and led all the way. Grace Direct, driven by Valentine for the first time, landed the place in the first and second heats, Lucy L. slipping into second place, a nose in front of John Henry in the second heat.

Walker, who won the 2:17 trot with Leo Tide, the third straight win for the black 4-year-old, which is racing in great form in spite of lameness, and the Canadian mare, Eda G. was the choice for the 2:18 pace and was in front all the way each time.

Princess Etawah was an odds-on choice for the 2:12 trot, but she was all out to beat Baron Worthy in the first heat. Then Baron Worthy came from behind and beat her in the second and in the final carried her to the top in the home stretch and won handsily.

GIRLS' BASEBALL LEAGUE IN ACTION

At Shedd park yesterday afternoon, the Moody school girls went down to defeat before the Shedd park girls, the score of 10 to 5 in a playground baseball game. The following lineups were used:

Shedd Park—Catherine Maguire c. Alice Sheehan p. Margaret Sullivan 1b. Alice Smith 2b. Emma McBride 3b. Alice Mahoney 1b. Lucy Kane cf. Moody school—Margaret Sullivan c. Alice Mahoney 1b. Mary Deane 2b. Esther Gallagher 3b. Helen Heslin 4b. Mary McQuade rf.

Butler Girls Win

In a close and exciting game on the Butler school grounds, the Fayette girls succeeded in the Gotham street outfit, 8 to 5. The Butler lineup: Mary O'Neill p. Florence Goodfield c. Alice Whittemore 1b. Theresa Sullivan 2b. Violet Wright 3b. Mary Pendergast cf. Gladys Droney rf. Gladys Keefe lf. Ellen Welch rf.

South Boys to North

The girls' baseball team of the North common playground defeated the representatives of the South common playground yesterday afternoon by the score of 15 to 12. The game went five innings and was played on the North common playground. Tomorrow afternoon, the North common team will go to Washington park to play the league team of that section.

AMATEUR BASEBALL

The Rambler-Butler Blues game scheduled for last Sunday was called off owing to rain. The Ramblers challenge the Unitys or Liberty Juniors to a game for next Sunday. Answer through this paper.

The Emerald Seconds challenge the Greek Heroes or the Exeter Juniors to a game, to be played on the North common. They would also like to hear from any 12-14 year old team in the city. The Seconds will play the Unitys on the North common next Friday afternoon at 2 o'clock, provided the latter have the same lineup used in the game last Friday. Saturday, the Seconds were defeated by the North common by the score of 10 to 6, the game being called at the end of the sixth inning on account of rain. For game, call C. Gauthier, telephone 5232-R.

The Yankees won a forfeited game from the Parkviews Sunday and defeated the Merrimack in a forfeited game, 17 to 0. The Yanks would like games with the Tylers, Ledgers, Willie Blare, Ramblers, Nationals or Butler Blues. They have an open date next Sunday and would like to meet one of the foregoing teams on the South common. See Manager Baker at the corner of East Merrimack and Howe streets.

The Tigers of the Highlands would like to play any 12-14 year old team in the city. The Tigers will play the Spauldings, Wednesday at Spaulding field.

The Lincoln All-Stars defeated the Butler Blues yesterday afternoon by the score of 10 to 5. The feature of the game was the pitching of P. Sullivan who had 10 strikeouts to his credit in four innings. The All-Stars lineup is as follows: P. Sullivan, P. J. Conway, cf. Sullivan, 1b. P. Conway, 2b. Ford, 3b. P. Conway, 4b. Shute, cf. Shute, lf. P. Conway, cf.

GIRL SUCCEEDS IN LONG LAKE SWIM

Miss Mildred E. Bowers, a popular summer camper at Nahant Lake, proudly enjoys the distinction of being the first woman ever to swim around the lake. She was aided by a small boat, which is a little over three miles in the lake time of 2 hours and 15 minutes. This swim has been attempted by many in the past by young women campers at Nahant Lake, but she is the first to succeed in negotiating the whole distance.

CRUCIAL SERIES IN BOTH LEAGUES

New York and St. Louis Clubs, Leading Contenders in Majors, Clash

Tillie Walker Knocks Out His 24th Homer—Robbed of 25th by Fan

NEW YORK, July 25.—New York and St. Louis clubs, leading contenders in the major leagues, today opened each other in the opening games of series that may have a decisive bearing on the outcome of their respective pennant races. The Yankees, who lost the lead last time they faced the western strongholds of their four most potent rivals, were 1½ games behind the pace-setting Browns as they invaded St. Louis. The Huguenots were strengthened for the crucial test by the acquisition of Third Baseman Joe Judge and Outfielder Elmer Smith in a trade with the Red Sox.

The Giants and Cardinals were practically on even terms in their sensational race as they opened a five game series at the Polo grounds. New York holding first place by the fraction of one percentage point while the westeners had an advantage of a half game in the won and lost table.

The Giants, concluding their tour by dividing a double header with Pittsburgh yesterday, secured no better than an even break in 26 games with western rivals. The substantial lead with which they started the invasion was rapidly reduced by the onrush of the Cardinals, who took it out of its starting place by the fraction of one percentage point. The Cardinals, including three out of four from the champions, and enjoyed the sensation of occupying first place for 3 days by climbing ahead of New York on Sat. day.

Tillie Walker knocked out his 24th homer as Philadelphia closed its home stand by beating Washington 4 to 2, and was robbed of his 25th when a fan pushed the ball out of the bleachers.

Walker is now three ahead of Ken Williams, his nearest American league rival, and two behind Rogers Hornsby, the National league clouting king. The eve's best pitched ball was by Cleveland defeated Chicago, 5 to 2, in the only other game played in the major leagues yesterday.

WALKER TEAM WINS The Walker street playground team defeated the Morey team in a game of baseball on the latter's grounds yesterday afternoon by the score of 8 to 2.

CHAMP EXPECTS TO K. O. TENDLER

Will Be Disappointed if He Fails to Stop Challenger Before Seventh Round

Leonard to Wind Up His Training, Today—At Top of His Career

BUDD LAKE, N. J., July 25.—This will be the last full day that Champion Benny Leonard will put in before his lightweight title bout with Lew Tendler at Philadelphia at Horie's thirty Acres, Jersey City, Thursday evening. Before starting on his daily five mile run, Leonard said: "I'll have no sill if I lose and I'll be disappointed if I don't win by a knockout before the seventh round."

For two weeks Leonard has been living here surrounded by his family—other three brothers and sister—who stay at a hotel near the "training camp."

Leonard says that today he is at the top of his career. He feels so strong, lively and pugnacious that he has broken all championship records by beating three top notchers within four weeks.

The previous fight—with Jack Britton, welterweight champion, and Rocky Kansas of Butte, have put him on edge for Tendler, who for more than a year, has been acclaimed the logical contender. Feeling so positive of himself, Leonard has signed a four fight bout with Tendler, a lad who has brought out a two-sided name for himself in the middle west.

This bout probably will be held at Michigan City, Ind., Aug. 3.

BIG TENNIS TOURNAMENT

SEABRIGHT, N. J., July 25.—Eight players, including four ranking American stars and four foreign entrants, will be "seeded" for the annual invitation tournament of the Seabright lawn tennis and cricket club.

In the men's singles William M. Johnston, Watson M. Washburn, Vincent Richards and R. Norris Williams, will be distributed in the draw, together with Gerald L. Patterson, Pat O'Hara Wood and James O. Anderson of the Australian Davis cup team, and Zeno Shimidzu, former Japanese Davis cup star.

Players who will be "seeded" in the women's singles are Mrs. Mollie Burdett, Mallory Mrs. M. Zinderstein Jessup, Mrs. Mary Sutton Bundy and Miss Edith Sigourney.

HURLED TO HIS DEATH

M. J. Dooley, Head of Springfield Electric Railway Company Killed

SPRINGFIELD, Vt., July 25.—M. J. Dooley, superintendent of the Springfield Electric Railway company, was killed yesterday when he was thrown from a freight motor. He had left the car in No. 8 to help Motor No. 14 with a train up Mineral street hill. Just how he met his death is unknown. It is possible that he left his post at the front of the car because of some failure of the air brakes, and when near the side door a sudden lurch of the car may have thrown him out. He struck head first on a rock. The motor ran wild down the grade out onto the main line and met motor No. 14 head-on, damaging the bodies of both cars. No one else was injured. Mr. Dooley is survived by his wife, two brothers and a sister.

SENATE DEBATES U. S. WAR CLAIMS

WASHINGTON, July 25.—(By Associated Press.)—Republican and democratic senators yesterday joined in demands for prompt payment of American claims against Germany.

Senator Lodge of Massachusetts, the republican leader, indicated that he favored a joint claims commission. Senator Underwood, however, agreed with Senator Underwood that property seized by the alien property custodian probably would be used to pay American damages, but such a method of payment was opposed by Sen. Walsh, democrat of Montana.

The discussion was opened by Senator Underwood with a statement in support of his bill in which incidentally he denied charges of fraud in connection with acquisition by the Chemical Foundation of 5000 German chemical patents, now the basis of a government suit. Wide discussion of the chemical foundation affairs was precipitated. Chairman Nelson of the judiciary committee, attacking Senator Underwood's position and charging that the foundation was spreading propaganda, while Senator Underwood declared that the foundation was an alms house, with profits limited and designed to develop American chemistry.

The Underwood bill was referred yesterday to a judiciary sub-committee headed by Senator Cummins, republican of Iowa, which will begin hearings next Thursday. Thomas W. Miller, alien property custodian, and his predecessors in office, ex-Atty. Gen. A. Mitchell Palmer and Francis P. Garvan, the latter now president of the Chemical Foundation, are to be among the early witnesses, indicating that the Chemical Foundation case will be gone into at some length.

It also was announced that Senator Underwood's bill had been referred to the state department for an opinion. Senator Lodge advising the senate that the department was negotiating with Germany for a treaty to establish a joint claims commission. Senator Lodge added that he would not favor giving such a commission power to decide whether Germany was bound to pay American claims, but the commission, he said, should only fix the amounts due.

This was opposed by Senator Underwood, who said he favored an American commission to fix American claims.

TAIL LIGHTS MUST BE CHANGED THIS YEAR

Local automobilists plan to make hay while the sun shines and secure rear lights for their cars that will comply with the new statute of Frank A. Goodwin, state registrar of motor vehicles, before this law goes into active effect on January 1, 1923. This new law which provides that no rear light shall be used on any vehicle unless approved by the state registrar, becomes a state law Thursday, July 27, but is not effective until the first of next year.

The new law provides that all motor vehicles shall display a rear red light, with sufficient illumination to render the rear license plate visible at a distance of 60 feet.

Mr. Goodwin has allowed this elapsing of time between the passing of the law and putting it into effect so that manufacturers might submit designs of lamps that will fit the letter of the law. The enactment of this law came about as a result of the great number of rear-end collisions because of defective tail lights and the complaint of the police that they were hindered in the detection of violators of the motor laws. In many cases the rear light rendered the license plate invisible and allowed the operator to escape after causing serious injury at times.

It was just about a year ago this time that the new headlight law was passed, and with the passing of this new law, all lights on a car are now in compliance with state laws. The law restricting the headlights to a certain strength was very beneficial, as many accidents were caused by the blinding glare of an advancing machine.

TURTLE CLIMBED FENCE

NEW LONDON, Conn., July 25.—John W. McLane of Cromwell found a 20-pound snapping turtle in his henyard Sunday when he went to feed chickens. He claims the turtle climbed the 10-foot wire fence and made its entrance that way for he says there was no other method by which it could have entered. Mr. McLane made soup out of the turtle.

can commission to fix American claims and that American claimants might be delayed indefinitely if their claims were placed in the hands of a joint commission.

If you want to buy, sell, rent or exchange anything, try a Sun classified ad.

HAS TWO HOMES, FIVE AUTOS, NEEDS MONEY

NEW YORK, July 25.—Mrs. Adelaide A. Lawrence, a 75-year-old widow, yesterday told Surrogate Cohalan that while she is now mistress of two luxurious homes, one, a town house on Riverside drive, and the other, a 100-acre country place at Great Neck, L. I., with five automobiles, all of which were left her by the will of a sister, Mrs. Angie M. Booth, she is without money to maintain them.

She asked that \$15,000 be allowed her as an advance on a legacy of \$500,000 from Mrs. Booth pending the outcome of a contest of the will, which disposed of an estate estimated to be worth from \$8,000,000 to \$12,000,000.

Mrs. A. Landolt of Brooklyn, a grand-niece of Mrs. Booth, who was the widow of the founder of the Ward steamship line, charges in contesting the will that Mrs. Booth at the time the document was drawn was lacking in testamentary capacity and that she was the victim of fraud and undue influence exercised by Robert F. Gracen of Hartford, Conn., and Francis Merrill of Bronxville, N. Y., the executors of the estate.

By the terms of the will Miss Landolt would receive \$50,000. Other beneficiaries are: Frank S. Rowan, Phil-

adelphia, \$150,000; Viola R. Wakefield, Sheffield, Mass., \$100,000; Mary R. Munson, Albany, N. Y., \$100,000; William Stanley Hill, New York, \$250,000; Christine S. Roulan, New York, \$150,000, and Jessie B. Merrill, Bronxville, \$150,000. The will was dated Sept. 10, 1921.

Mrs. Lawrence explained in court that she had always lived with her sister in the Riverside drive house and at "Bradikwin," the 100-acre Long Island estate. She said she thought her request for \$15,000 as an advance on her expectations was modest, as in the event the latest will were broken, she could produce two previous documents, each of which left her \$500,000 and the residuary estate after bequests to other relatives.

The aged widow, who is in poor health, states that after payment of the other beneficiaries, a conservative estimate would fix her share of the Booth fortune at \$5,000,000.

Surrogate Cohalan ordered the administrators to show cause why the \$15,000 advance should not be granted Mrs. Lawrence, but did not fix a date for the hearing.

PROPERTY TRANSFER
The property at the corner of Middlesex and Revere streets, purchased a couple of weeks ago by David Ziskind from the Appleton Co., has been sold to Max Brown and Benjamin Alford of Lawrence. It is said the price paid was in the vicinity of \$50,000.

Gov. Baxter and Staff at Devens

AYER, July 25.—Governor Baxter of Maine, accompanied by his full staff, was due to reach Camp Devens some time today for a two-day inspection tour of the camp and the 103rd regiment of Maine. He will also review the troops on the parade grounds. With the members of his staff, the governor planned to attend the athletic matches in the camp stadium tonight.

Must Muzzle or Leash All Dogs

BOSTON, July 25.—Because of the spread of rabies all dogs in this city must be muzzled or held in leash for the next ninety days. A special order to this effect passed by the city council last night, will go into force as soon as Mayor James M. Curley approves the measure. Health Commissioner F. X. Mahoney had reported 24 persons bitten by dogs last month.

RIVER HEARING POSTPONED UNTIL DECEMBER

The hearing on the adverse report of the Merrimack river navigation project will be held in December, the absolute date to be announced later. This is according to word just received from Congressman John Jacob Rogers who was informed of the postponement by the board of engineers for rivers and harbors at Washington.

The hearing on the adverse report, known as the Willing report, because it was made by Col. Willing, the Boston representative of the army engineers, was to have been held on July 11. The proponents of the project in the Merrimack valley expressed unanimous sentiment that more time should be allowed for the preparation of the hearing. At a recent meeting in Lawrence it was decided to ask that the hearing be put off until December.

BIRTHDAY CAKE FOR LADDIE BOY

WASHINGTON, July 25.—Much preferring a bone—if the truth were known—Laddie Boy, the president's dog, received a birthday cake yesterday from his old man at Toledo, along with a letter telling of the continued good conduct of the family.

Packed in a box shaped like a regulation dog house, the cake, made of dog biscuit material, suitable for a highbrow dog's digestion, was delivered to the White House by express messengers.

It was not delayed by the rail strike and got here in time for Laddie Boy's birthday, which is Wednesday. It will not be opened until then, and means while invitations will go to some of Laddie Boy's friends of equal social rank to hop over and have a bite.

There were snapshots, too, of Laddie Boy's mother, his sister Lil, who is getting along toward her high school days, his brother Boh, who has a job in New York, and Little Dick, the baby, born after Champion Timmer Tip Top. Laddie Boy's old man, sent him here as a friend and pal of the president. But the picture Laddie Boy seemed to like the best was his daddy, an upstanding old gent built on the Laddie Boy lines, and for whom not night he sometimes whines.

The Makers of U.S. Royal Cords Beg to State —

NOT quite seven years ago the U. S. Royal Cord Tire was announced to the public. People who saw it remarked on the beauty of the tread design, which is protected by U. S. Letters Patent. The same design that since then has proved itself the most scientific tread pattern ever put on a pneumatic tire.

To identify this superlative tire under all conditions—whether running or stationary—Royal Cord makers adopted as a trade mark a circumferential white stripe placed on each side wall.

Today, Royal Cord beauty and identity is so known and distinguished that even a newsboy can spot one whisking around the corner.

And car-owners everywhere look upon a Royal Cord as the measure of all automobile tire values.

According to some tire dealers and manufacturers the public has been having one of its "price spells" and demands cheap tires.

This is contrary to the facts. Otherwise Royal Cords wouldn't keep gaining and gaining and gaining in sales to quality people. And—you wouldn't see Royal Cords on so many cars of every make in the country. Nor—if Americans were on record for cheaply made and cheaply priced tires—would they award the leadership of the tire business to the Royal Cord Tire.

Current prices on United States Passenger Car Tires and Tubes are not subject to Federal Excise Tax, the tax having been included.

United States Tires are Good Tires

CIGARMAKERS END "VACATION"
CINCINNATI, Ohio, July 25.—One thousand cigarmakers who have been on a "vacation" here since July 1 went back to work today after the manufacturers agreed not to reduce wages 10 per cent. and sign a new arbitration clause.

PORTLAND, Me., July 25.—Upon complaint of Federal Prohibition Enforcement Commissioner John M. Stettin, liquor was being sold on their premises, Federal Judge John A. Peters today issued injunctions against five Waterville property owners for one year, under the Volstead liquor law.

BOSTON, July 25.—Commissioner George M. Kline of the department of mental disease, said today that Miss Emma Houlahan of Belmont, an inmate of the Westboro State hospital, had died recently of injuries inflicted by another patient. Dr. W. H. Lang, superintendent of the hospital, reported that Miss Houlahan had been knocked to the floor, receiving injuries which resulted in death.

BOSTON, July 25.—Counsel for John W. Dittmore, who is seeking reinstatement as a director of the Christian Science church, today filed in superior court a writ through Attorney Jerome Court, through which he sought to bring the bill in equity recently brought by Edwin A. Krauthoff and others.

HORNELL, N. Y., July 25.—Although 1900 shop strikers and sympathizers were ordered to clear the streets today at the funeral of "Big Boy" Smith, the

FORMER PASTOR ON TRIAL
LAWTON, Okla., July 25—The Rev. Thomas J. Irwin, former pastor of the First Methodist church of Lawton, today stood alone before the grand commission of the presbytery at his trial on ecclesiastical charges. He has been charged with seduction to be assisted by his attorney.

It is understood that the principal members of his congregation are opposed to the process and that he perjured himself to obtain an injunction in disallowing the charges. Some time ago, restraining members of the church interfering with his conduct of church affairs.

WORKING FORCE INCREASED
CHICAGO, July 25—The Chicago, Burlington & Quincy railroad added an average of 125 to 250 mechanical workers to its force daily from July 1.0 to July 25, inclusive, and the high mark was reached yesterday, when 280 men were employed, Hais Holman,

BOSTON, July 25.—The Superior
Whose Co. of Brockton was petitioned

The upper registered a patrol call from the corner of South and Appleton streets. This was at 3.26 p.m. less than five seconds after the tape showed the box number, the new patrol was roaring out of the garage with chauffeur and Coter on the front seat, natty in their O. D. uniforms. The wagon man was in the back, and Dootson (to Appleton street) was the latest bit of the apparatus. While many people on the way stopped gaze upon it, its varnish and brass listening in the rays of the sun which seeped out for a few minutes yesterday before the showers. There must have been the slightest disappointment in the patrol's personnel. The person in the box appeared to see a big bluecoat holding up the sleeping form of a man in much the same manner a cat holds a dead mouse. The patrol was on its maiden voyage and deserved something better. With a "pile 'em in" and "ready, go, go," the drunk was ushered to the station and an eventful trip, which wasn't eventful at all, was begun. This morning Chauffeur Coter started work stripping the old patrol of its police equipment. It is to be turned over to the electrician's department as

ALLEGED STRIKERS FINED
LAWRENCE, July 25.—Miss Eva Lancelotti and Mrs. Christina Dazas, alleged strikers, were fined in district court today for intimidation, the former \$10 on one count and the latter \$10 on each of two counts. The complainants, three girls employed in the Acadia mills, stated that the defendants had followed them and had

Legal Notices

MORTGAGEE'S SALE
By virtue of a power of sale contained in a certain mortgage deed given by Mrs. Wells and Sarah Wells, both of Lowell, in the County of Middlesex and Commonwealth of Massachusetts, to Esrael Greenberg, of the County of Middlesex and Commonwealth of Massachusetts, dated Sept. 1, 1920, and recorded with Middlesex North District Registry of Deeds, Book 635, Page 8, and for breach of the conditions therein contained, and for the neglecting of the same, will be sold at public auction on the premises herein after described on Friday, Aug. 4, 1922, at two o'clock in the afternoon, all and singular the premises herein and by said mortgage conveyed being bounded and described as follows:

A certain parcel of land with the buildings thereon situated on the southerly side of Middlesex street and the easterly side of Pearl street in said Lowell, bounded and described as follows:

Beginning at the northwesterly corner of the premises at the intersection of Pearl street with Middlesex street; thence southerly on said Pearl street, fifty-six feet; thence easterly at a right angle seventy-five and one-half feet; thence northerly at a right angle fifty-six feet to said Middlesex street; thence westerly on said Middlesex street, seventy-five and one-half feet to the point of beginning. Containing 4228 square feet.

The above premises will be sold subject to a mortgage of twenty thousand dollars held by the Washington Savings Institution subject to any and all unpaid taxes; and other municipal assessments, if any there be, subject to all reservations of record, and with the benefit of passageway rights mentioned in a deed to said Max Weiss and Sarah Weiss from Esrael Greenberg dated Sept. 1, 1920, and recorded with said Registry, Book 635, Page 8.

One thousand dollars must be paid to the auctioneer at the time and place of sale. Other terms at sale.

DULUTH

Duluth, with spacious harbor where Lake freighters wend their way, is known the country over as A shipping port today.

Adventures of the Twins

TORTY TURTLE'S TUMMY IS TREATED

IN WALKED MR. TORTY TURTLE, MOANING AND GROANING

One day when Nancy was dusting Dr. Snuffles' office, the doorbell rang and in walked Mr. Torty Turtle, moaning and groaning and sighing and making a dreadful fuss.

"Hello, Torty, what's wrong?" asked Nancy, helping him as well as she could, for poor Torty didn't have a thing to catch hold of.

"Everything," declared Torty. "I've eaten too much. I was at a party last night and I had 10 lightning bugs, two daddies, 15 mosquitoes, 12 flies

DEATH OF DR. BERTRAND

Was Prominent Local Physician and Trustee of Public Library

Dr. Alexis E. Bertrand of 27 West Fifth street, a prominent physician of this city, died yesterday at the New England Baptist hospital after a long illness. Last November he submitted to a serious operation that was thought would bring back his failing health. He suffered a relapse, however, about three months later.

Dr. Bertrand, who was born here, entered Tufts Medical school after his graduation from the Lowell high school. In order to prepare himself for his vocation, he worked as a drug-

DR. ALEXIS E. BERTRAND

gist for a time and became a registered pharmacist, then entered medical school and received his degree of doctor of medicine. Dr. Bertrand had an office in the tunnels building in Merrimack square. Dr. Bertrand was very well acquainted with the political life of the city although he had never become a candidate for any office. For several years past he had been a member of the board of trustees of the city library, having been appointed by former Mayor Meahan, and reappointed by Mayor George H. Brown. Dr. Bertrand was a member and physician at Court Samuel de Champlain, Foresters of America, and also a member of the Massachusetts Medical society, Lowell Aerie of Eagles, and St. Paul's Catholic Order of Foresters. He is survived by his wife, Margaret A. (O'Brien) Bertrand, four children, Paul A., Arthur L., M. Given and Alice M. Bertrand; his father, Evariste Bertrand; three brothers, Dr. A. C. Bertrand, Leo and Ernest Bertrand; and two sisters, Evangeline and Alma Bertrand. The body will be removed to his home today by Undertaker Joseph Albert.

DIES OF WAR WOUNDS

Lt. Mackall Had Laid in a Bath for Three Years—Case Without Parallel

BALTIMORE, July 25.—Lieut. Milton B. Mackall, who for the last three years had lain in a bathtub at the Fort Meade hospital as a result of a wound received in the World war, died early today. He was conscious almost until the last. His case was without parallel in the military annals of the country.

The wound which caused his paralysis and death, was suffered Oct. 16, 1918, when a German sniper shot him in the back as he crossed No Man's Land. One of the bullets passed through his spinal column. Leading physicians of this country and Europe used all their skill to aid him in the fight against death.

WOMAN ARRESTED IN RAILWAY STRIKE

BUFFALO, N. Y., July 25.—Miss Marie Wehmer is the first woman arrested here in connection with the railway strike, charged with possessing a deadly weapon, she explained that women employed as car cleaners in the New York Central railroad yards had been on strike for three weeks, and that she remained last night, she had been assigned to night duty, necessitating having taken the strikers' places.

"I don't want to be about my intentions in carrying that steel rod," Miss Wehmer said, according to the police.

A detail of police was assigned to the yard entrance to prevent clashes between the women.

OLNEY REFEREE IN ALLAN A. RYAN CASE

NEW YORK, July 25.—Federal Judge A. N. Hand today named Peter B. Olney referee in the matter of Allan A. Ryan, financier and stock broker, who filed a petition in bankruptcy last week, alleging liabilities of more than \$2,000,000, about \$4,000,000 of which were in unsecured claims.

Mr. Ryan's lawyers announced last night that elimination of duplicated items in the bankruptcy petition would reduce the liabilities to \$18,000,000.

PENN. F. OF L. CALLS CONFERENCE

HARRISBURG, Pa., July 25.—The Pennsylvania Federation of Labor today issued a call for a preliminary conference here Aug. 2, to consider action relative to constitutional rights, which the call alleged have been abridged in this state during the coal and rail strikes.

LOWELL DISTRICT COURT

Alleged Illegal Liquor Sellers Before Judge Pickman This Morning

With one fell swoop Lowell's vigilant liquor squad, headed by Sgt. Winn, pounced down on the premises of Demetrius Tsapatos at 414 Adams street last night and seized 60 quarts of beer and some stronger stuff.

Tsapatos was arraigned in district court this morning before Judge Pickman and had his case continued to Aug. 5. This continuance was granted so that an analysis of the seized liquor might be made.

From Adams street the liquor squad sped to 237 Moody street, where they picked up George Kalanias, who was taken to the station and charged with illegal keeping. When the case came up this morning it was agreed to continue it to Aug. 6.

Sellah Omar, who had defaulted, was arraigned in court this morning charged with felonious assault, and was held over to a later date in the sum of \$5000. A year ago last April, Omar was arrested by Officers Garrity and Sullivan in a house on Munson avenue, after the men had climbed through a window to get him. He was arraigned in court at that time and released on \$3000 bail. He jumped his bail and disappeared and the police have been on his trail ever since.

Officer Aldrich was sent there to get him and had trouble bringing him here to Lowell. Omar made several attempts to escape from the clutches of the law and the officer had an exciting time to quell his ambitions.

Thomas Kelleher, an old time acquaintance at the police station, was given a two month's vacation to the house of correction on a charge of drunkenness. John E. Bulmer drew a suspended sentence of three months to the same resort. It was his sixth appearance, but his employer saw for him and he was allowed leniency.

Graydon A. Carr enlisted the support of an attorney in his case where in he was charged with non-support of his wife, but it gained him nothing. The court found him guilty and handed down a three month's sentence to the house of correction. He appealed.

Harold M. Thompson and Jean R. Ryan, both of whom appeared with their parents in court this morning, and the case was put over to Thursday morning. This case dealt with the attempted assault with a pistol on George Brady one night last week. Thompson has been working at the Billerica car shops and avers that he was carrying the pistol for his protection and at the time of the argument was in Lowell to get authorization for the carrying of such a weapon. Ryan was arrested with him and the judge held him for further investigation because of his non-compliance answers when he was put on standstill. A warrant for carrying concealed weapons was made out against him as he had the gun in his possession at the time of arrest.

LEWIS—Died July 24th, at his home, 32 Mill Hope street, William A. Lewis, aged 68 years, 11 months, 6 days. Deceased was well and favorably known in local business circles having been engaged in business in John street for many years. He leaves his wife, Jacobella P., two sons, Harry H. and Lowell, and two daughters, Marion L. and Miss Sue Lewis. Burial took place in St. Patrick's cemetery. Undertaker M. H. McDonough Sons.

BRADY—The funeral of Margaret Brady, daughter of Daniel and Hannah (McCarthy) Brady, took place yesterday afternoon. There were many floral offerings. Burial took place in St. Patrick's cemetery. Undertaker M. H. McDonough Sons.

TAUBERT—The body of Felix Taubert, son of Felix and Mary Taubert, was taken to his home in Salem yesterday afternoon by Undertakers James F. O'Donnell and Sons.

MORRISSETTE—The funeral of Mrs. Morrisette took place this morning from her home, 244 Cumberland road. Solemn high mass of requiem was celebrated at St. Louis church at 9 o'clock by Rev. E. Vincent, assisted by Rev. J. B. Labossiere as deacon and Rev. F. X. Gauthier as sub-deacon. The choir, under the direction of Oliver J. David, rendered the Gregorian chant, the solos being sustained by Isaac Michaud, Adolphe Michaud and Phillip Mercier. At the offertory, the choir rendered "Domine Deus Christus," and after elevation, Mrs. Morrisette's Requiem Mass. The choir sang "Miserere mihi" and at the close of the mass, Mrs. David sang "The Lord's Prayer." The body was being borne from the church to the cemetery by the choir. The funeral was held at 10 o'clock by Rev. E. Vincent, assisted by Rev. J. B. Labossiere as deacon and Rev. F. X. Gauthier as sub-deacon. The choir, under the direction of Oliver J. David, rendered the Gregorian chant, the solos being sustained by Isaac Michaud, Adolphe Michaud and Phillip Mercier. At the offertory, the choir rendered "Domine Deus Christus," and after elevation, Mrs. Morrisette's Requiem Mass. The choir sang "Miserere mihi" and at the close of the mass, Mrs. David sang "The Lord's Prayer." The body was being borne from the church to the cemetery by the choir.

SAUVAGEAU—The funeral of Honore Sauvageau took place this morning from the home of his nephew, Joseph Toupin, 112 Mt. Hope street. Solemn high mass of requiem was celebrated at St. Jean Baptiste church at 9 o'clock by Rev. Guillaume Guellet, O.M.I., assisted by Very Rev. E. J. Furette, O.M.I., an deacon and Rev. Charles Desmet, O.M.I., as sub-deacon. The choir, under the direction of Dr. J. E. Nolet, rendered the Gregorian chant. Joseph Toupin presiding at the organ. The body was borne by the Honore Sauvageau, Ovide Cloutier, Sever Dubeau, Joseph Villier, George Teller and Joseph Grandbois. Attending the funeral from out of town were George Sauvageau, Mr. and Mrs. Ovide Sauvageau, Joseph Sauvageau, Mrs. Cloutier and non Joseph, all of Manchester, N. H.; Louis Sauvageau of Lacapra, N. H.; Burial was in the family lot in St. Joseph's cemetery, where the committal prayers were read by Rev. F. Veron. O.M.I. Funeral arrangements were in charge of Undertakers Napoleon Bilodeau & Son.

WARD OF THANKS We, the undersigned, wish to express our sincere thanks and appreciation to our many friends and neighbors and especially the class of 1922, St. Peter's school, St. Peter's school and the other boys of St. Peter's church, employees of Marie's restaurant, who by their kind acts, expressions of sympathy, floral offerings and spiritual offerings helped to lighten our sorrow in the death of our beloved son and brother.

CANADA FACES COAL SHORTAGE

OTTAWA, July 25.—A possible coal shortage in Canada is being feared by the continued coal and rail strikes in the United States, it is expected to be taken under consideration by the cabinet at this time. It is considered possible that the government may resort to the system of appointing a fuel controller.

THE OLD HOME TOWN

WHEN MARSHAL OTEY WALKER CLOSED HIS WATCH WITH A SHARP SNAP TODAY, THE STRANGER WHO HAS BEEN HANGING AROUND THE CENTRAL HOTEL JUMPED THREE FEET.

DEATHS

KIRKWOOD—Hazel Kirkwood died yesterday at the home of her grand-children, 235 Fairmount street, aged 86 years, 9 months and 9 days. She was the wife of the late John H. Kirkwood. Burial took place in St. Patrick's cemetery. Undertaker M. H. McDonough Sons.

STOY—George H. Stoy, a resident of the Battles home in Rolfe street for the past nine years, died last evening, aged 86 years, 9 months and 9 days. He was the husband of the late Mary Stoy. Burial took place in St. Patrick's cemetery. Undertaker M. H. McDonough Sons.

MURRAY—A. Waverly Murray of New York, Ohio, died July 24th, at his home, 112 Mt. Hope street, aged 86 years, 9 months and 9 days. He was the husband of the late Mary Murray. Burial took place in St. Patrick's cemetery. Undertaker M. H. McDonough Sons.

LEWIS—Died July 24th, at his home, 32 Mill Hope street, William A. Lewis, aged 68 years, 11 months, 6 days. Deceased was well and favorably known in local business circles having been engaged in business in John street for many years. He leaves his wife, Jacobella P., two sons, Harry H. and Lowell, and two daughters, Marion L. and Miss Sue Lewis. Burial took place in St. Patrick's cemetery. Undertaker M. H. McDonough Sons.

PELLETIER DISBARRED IN U. S. DISTRICT COURT

BOSTON, July 25.—Joseph C. Pelletier, former district attorney of Suffolk county, was ordered disbarred from practice in United States district court today. The order was signed by Federal Judge Mack of New York. The disbarment petition, which was filed by United States Dist. Atty. Robt. O. Harris, had been before the court for several months. Pelletier did not contest the proceedings, but some time ago, filed a general denial of the allegations, which were based on the decision of the Massachusetts supreme court in disturbing him from state court practice. Pelletier was removed as district attorney last February after an extensive hearing on charges of misconduct in office.

50,000 N. Y. GARMENT WORKERS QUIT

NEW YORK, July 25.—Practically every worker in the cloak and suit industry in this city—50,000 in all—left their jobs today in a general "stoppage" directed against the smaller manufacturing establishments or "sawtooth shops" and a statement issued by Benjamin Schlesinger, president of the International Ladies' Garment Workers' Union.

About 800 of the larger shops included in the 2800 vacated this morning will be permitted to resume work at once, Mr. Schlesinger said, as the cloak, suit and skirt manufacturers' protective union controlling the shops have agreed to the workers' demand for a 44 hour week, pay for holidays and time and a half for overtime.

FOUND DEAD

Joseph Sloan Ends Life in Japanese Lodging House

SEATTLE, Wash., July 25.—Joseph A. Sloan, married during the World war for the Sloan Shipbuilding Co., was found dead last night in a Japanese lodging house, shot through the head. Clutched in his right hand was a revolver with one chamber empty. He recently had complained of falling health.

FR. CONNORS GOING TO NEW YORK Rev. Arthur Connors, O.M.I., now stationed at the immaculate Conception church, this city, will spend the month of August at St. Cecilia's church, Broadway, New York. Fr. Connors is a Lowell boy and for the past year has been on duty in Buffalo.

Paid-up Shares

Lowell Co-operative Bank

ARE AN ATTRACTIVE FORM OF INVESTMENT FOR THE THRIFTY OF ALL CLASSES, FOR ESTATES, SOCIETIES, ETC.

FULL PARTICULARS AT BANKING ROOMS, 28-30-32 Central Block, 63 Central St. Tel. 80.

Read our new book, "Service For You."

U. S. MOVIES BLAMED

Responsible for Troubles of American Missionaries in the Orient

PASADENA, Cal., July 25.—American motion pictures are blamed for the troubles of American missionaries in the Orient, in a report from the women's board for foreign missions, presented here to the annual session of the Presbyterian synods of Arizona and California.

The report declares that the natives of Canton, Shanghai, Tokio, Calcutta, Bombay and Jerusalem, viewing "Western" pictures, concluded that all American men are "barbaric savages" who gamble for living, drink whiskey like water, carry guns, and a bowie knife, and kill their fellow men as a pastime, and that American women are dance hall girls who smoke cigarettes, drink heavily and "sell themselves for a coin of a smile."

"In Jerusalem, within 100 yards from the grave in the garden where the Saviour of the world lay after his crucifixion," the report declared, "there is a movie run by an enemy of all righteousness, showing revolting and sensual pictures of American life. These people in foreign lands have no means of knowing that such presentations are a gross libel on the majority of our people."

The report declares that the natives of Canton, Shanghai, Tokio, Calcutta, Bombay and Jerusalem, viewing "Western" pictures, concluded that all American men are "barbaric savages" who gamble for living, drink whiskey like water, carry guns, and a bowie knife, and kill their fellow men as a pastime, and that American women are dance hall girls who smoke cigarettes, drink heavily and "sell themselves for a coin of a smile."

COL. GASTON REPLIES

Says if He Favored Wool Tariff at All it Was on an Ad Valorem Basis

BOSTON, July 25.—Col. William A. Gaston, candidate for the democratic nomination for United States senator, in a letter to the Carded Woolen Manufacturers' association, made public today, declared that if he favored a wool tariff at all it was on an ad valorem basis. He said he was opposed to specific duties on wool and goods. The letter was in reply to a request for a statement of his position on the wool tariff.

"A tariff of a fixed amount per pound on products which like wool and wool goods vary widely in value, is necessarily unjust," Col. Gaston wrote. "A tax on such products must be based on their value in order to be fair."

He asserted that he favored ad valorem duties because they were based on the value of the goods to all the people. "Under an ad valorem wool tariff," the letter said, "the purchaser of clothing in which the wool costs \$2 will pay a wool tariff tax just double that paid by the purchaser of a garment in which the wool cost \$1. This is the traditional policy of the democratic party."

The wool tariff, Col. Gaston declared, "illustrates the issue before the country in this campaign."

POLICE JOIN IN SEARCH FOR MISSING MAN

BROCKTON, July 25.—Deputy Marshal J. F. Morey ordered 40 early night patrolmen on duty duty at 9 a. m. to join battalions of Boy Scouts and 200 citizens who are searching for a missing man in the southeast section of this city and nearby East Bridgewater, for Olaf Olson, 50, a berry picker, who has been lost since early Monday and for whom an all night search was unsuccessful.

TROOPS OF SUN YAT SEN DEFEATED

CANTON, July 25.—(By the Associated Press)—Troops of Sun Yat Sen, driving southward through Kwangtung province in an effort to recapture Canton for their leader, the Teased, president of the southern republic, have been defeated in a number of skirmishes in the last two days in the vicinity of Shichow, about 30 miles north of Canton, according to railway advices.

Sun's forces also are reported to have been defeated southeast of Shichow in a battle, with considerable casualties on both sides. The army loyal to Sun is said to be retreating in the direction of Ching-northeast of Shichow.

CHARTER OF LEGION POST CANCELLED

TORRINGTON, Wyo., July 25.—The charter of the Denny O. Wyatt Post of the American Legion at Casper, Wyo., has been cancelled because of charges that gambling games were conducted in clubs operated in connection with the post.

SEND THIS IN

Lowell, Mass., 1922

TO THE LOWELL HIGH SCHOOL ALUMNI ASSOCIATION

I hereby subscribe.....dollars toward the purchase and equipment of the Athletic Field.

NAME.....

ADDRESS.....

Class of.....

Make checks payable to EDWARD W. TRULL, Treas.

WALTER E. GUYETTE, Auctioneer

Office, 53 Central St., Lowell, Mass. Telephone 2415.

The Cottage Property and about three acres of land, more or less, situated on the northerly side of Pine Street in North Billerica, is hereby pledged to the highest bona fide bidders at unrestricted Public Sale on next Saturday, June 29, 1922, at 3 o'clock in the afternoon.

The house is in bungalow style, has five extra good rooms on the one floor and is supplied with town water and hot water tank, cemented cellar, has open veranda and is in excellent repair. The building is comparatively new, having been constructed within the last two years.

The lot has a total area of about three acres and has a splendid street frontage. The land is level and is well laid out to garden.

The location is handy, the property being within about four minutes' walk of the Billerica electric car line.

Pine street is on the right hand side of Gorham street, the last street approaching from Lowell to Sprague's bridge, going to the centre of North Billerica, and is a new development within a few years, about everybody having their own home in the neighborhood and is handy to schools, churches, stores, etc.

The opportunity is herein presented to purchase at open competition a thoroughly modern village home within close proximity of Merrimack square, with three acres of land that one can use as a small farm or subdividing into building lots and fast developing home locality.

Terms: \$300 must be deposited with the auctioneer just as soon as struck off. Other terms made known at sale.

By order of LOWELL CO-OPERATIVE BANK, MORTGAGEE. By Charles C. Drew, Treasurer.
